

# Glasgow Mathematical Journal

## CONTENTS

<b>Hans Jarchow</b> , Factoring absolutely summing operators through Hilbert–Schmidt operators	131
<b>G. Emmanuele</b> , Another proof of a result of N. J. Kalton, E. Saab and P. Saab on the Dieudonné property in $C(K, E)$	137
<b>M. C. W. Jones</b> , Small amplitude capillary-gravity waves in a channel of finite depth	141
<b>Feng Wenying and Ji Guoxing</b> , A counterexample in the theory of derivations	161
<b>B. P. Duggal</b> , A remark on the essential spectra of quasi-similar dominant contractions	165
<b>Witold Wnuk</b> , A note on the positive Schur property	169
<b>J. C. Wilkinson</b> , Quotient rings, chain conditions and injective ring endomorphisms	173
<b>Rolf Brandl</b> , Groups whose lattices of normal subgroups are distributive	183
<b>D. H. Armitage</b> , A uniqueness theorem for harmonic functions on half-spaces	189
<b>Howard Smith</b> , On torsion-free hypercentral groups with all subgroups subnormal	193
<b>W. Kucharz</b> , Symplectic bilinear forms on affine real algebraic surfaces	195
<b>R. Salvi</b> , Error estimates for the spectral Galerkin approximations of the solutions of Navier–Stokes type equations	199
<b>Stephen P. Humphries</b> , Free products of mapping class groups generated by Dehn twists	213
<b>Micheál Ó Searcóid</b> , A contribution to the solution of the compact correction problem for operators on a Banach space	219
<b>Hermann Heineken</b> , On $E$ -groups in the sense of Peng	231
<b>Inessa Levi and Boris M. Schein</b> , The semigroup of one-to-one transformations with finite defects	243
<b>Dinh van Huynh and Phan Dan</b> , Rings characterized by cyclic modules	251

The *Glasgow Mathematical Journal* is the continuation of the *Proceedings of the Glasgow Mathematical Association*. It was founded in 1952 by the late Professor T. M. MacRobert and published with the support of the University Court of the University of Glasgow. The present name was adopted in 1967 and since 1987 the *Journal* has been owned by the Glasgow Mathematical Journal Trust, an independent charitable trust. Each volume of the *Journal* comprises three parts (published in January, May and September) totalling over 300 pages.

The prepaid subscription for each Volume is £37 in U.K., £48 or U.S.\$95 overseas, post free. Single parts can be supplied at a cost of £17 in U.K., £22 or U.S.\$45 overseas, net.

Copies may be ordered direct from the publisher or from any bookseller.
