List your meeting here:

Following is a list of microscopy related meetings and courses. The editors would greatly appreciate input to this list via the electronic submission form under "events/other microscopy events" at the MSA webpage: www.microscopy.org. We will gladly add hypertext links to the notice on the web and insert a listing of the meeting in the next issue. Please furnish the following information (any additional information provided will be edited as required and printed on a space available basis):

- Meeting/Course name
- Meeting/Course dates
- Meeting/Course topic or short description
- Sponsoring society/organization/university
- Contact person
- Telephone number
- Fax number
- Email address
- URL for website

Evactron® De-Contaminators

Fastest Removal of Performance Degrading Hydrocarbons

Evactron® Zephyr™
remote plasma source

- New Zephyr cleaning rate is >100 Å/min @ 5 mTorr (0.6Pa) 20cm from plasma source on 20 liter chamber.
- Easy operation with turbo molecular pumps
- Interlock protects E-gun and detectors
- Proven safe for EDS windows –warranted.
- 2000 units sold, 5 year warranty
- Fully compliant: CE, SEMI S2, and NRTL standards
- Front panel control or remote computer commands

Reduce Your FIB Tool Operating Costs

with High Quality Replacement Parts from Oregon Physics

Regular replacement of aperture strip, extractor and suppressor parts is critical for maintaining the best performance in your FIB tool.

Oregon Physics makes it easy. Our parts meet exacting quality standards, while providing significant cost savings to our customers. And our fast turnaround helps assure your continued productivity.

Made to order aperture strips are our speciality. Provide your configuration and Oregon Physics will custom manufacture to your requirements.

Contact us to learn more about how Oregon Physics can help you reduce your FIB tool operating costs while improving tool productivity.

Oregon Physics provides high quality replacement parts, including aperture strips (top) with standard and customer-specified configurations.
