*Each departure is limited to just 39 passengers, so make your reservations early!*

# Arctic

The Quarterly Journal of the Arctic Institute  
of North America  
of the University of Calgary

## The journal Arctic

- A treasured high-quality academic journal covering all disciplines and technologies; published continually for 42 years
- All issues offer primary northern research, along with provocative editorials, reviews and profiles

## An indispensable aid to northern research

*Arctic* should be on the desk of every northern scholar for state-of-the-art Arctic information

Available by direct subscription, along with *Information North* monthly and *What's New*, or through membership in the Arctic Institute  
2500 University Drive NW  
Calgary, Alberta, Canada T2N 1N4

## Polar and Glaciological Abstracts

A new abstracting journal produced by the Scott Polar Research Institute, replacing *Recent Polar and Glaciological Literature*, the widest-circulation bibliography devoted to polar subjects

\* provides wide, *annotated* coverage of books, papers, reports and reviews on all aspects of polar life and science, both Arctic and Antarctic

\* subject, author and geographic indexes will cumulate annually

\* for further details contact:  
Journals Publicity Department  
Cambridge University Press

Shaftesbury Road  
Cambridge CB2 1ER

## SCOTT POLAR RESEARCH INSTITUTE UNIVERSITY OF CAMBRIDGE Opportunities in Graduate Studies

### M.Phil in Polar Studies

A one-year post-graduate course leading to the degree of Master of Philosophy, providing a broad background of polar knowledge and opportunity to study one topic in depth. Some 60 seminars cover the natural environment, peoples, history, resources, development and administration of the Arctic and Antarctic regions.

### Ph.D and M.Sc studies

Courses leading to Ph.D and M.Sc are available. Many programmes relate to current research areas within the Institute. Options include glaciology, polar oceanography, marine biology, geophysics, remote sensing, history, anthropology, native rights and northern affairs.

### Visiting scholars

The Institute provides facilities for advanced scholars wishing to pursue their own courses of study and research for periods of between a few weeks and one year.

### Facilities

The Institute's research facilities include the world's finest polar library, outstanding archival collections and specialized laboratories, including two cold rooms (-40°C).

### Cambridge University

The University now accommodates some 12,000 undergraduate and graduate students and has a long tradition of excellence in teaching and research.

FOR FURTHER PARTICULARS APPLY TO: THE DIRECTOR, SCOTT POLAR  
RESEARCH INSTITUTE, UNIVERSITY OF CAMBRIDGE  
CAMBRIDGE CB2 1ER UK

postage. POSTMASTER: send address changes in the USA and Canada to *Polar Record*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573.

Claims for missing issues can be considered only if made immediately after receipt of the subsequent issue.

#### **Back Issues**

For vols 1-23 inclusive apply to Bluntisham Books, Oak House, East Street, Bluntisham, Huntingdon, PE17 3LS, UK. For vols 24 onward apply to Cambridge University Press, UK or USA.

#### **Advertising**

Prices appear in the advertisements section; for details apply to the Editor or to the publishers.

#### **Advice to contributors**

*Polar Record* publishes original articles (2000 to 8000 words) and notes (usually less than 2000 words) of current and historic polar interest. Manuscripts, maps and photographs are accepted on the understanding that they are original, do not infringe copyright, and are not currently being offered elsewhere. Receipt is acknowledged; manuscripts are submitted to referees and any rejected will normally be returned to the author within six to eight weeks. Where the subject matter is appropriate, the Editor is usually prepared to advise authors on ways of making their material acceptable.

#### **Presentation**

Typescripts should be double-spaced with 3 cm margins, on one side only of A4 or similar paper. Send two copies and keep one for reference. Give name, affiliation and address of each author on the title page, noting which author the Editor corresponds with. Follow the style of articles and notes in the most recent issue of *Polar Record*.

*Articles* should start with an abstract of 150-250 words and a table of major headings; secondary and tertiary headings are not listed. Indicate in margins where tables and illustrations fit. Footnotes are discouraged; places where they are considered essential are marked in text with a superscript number, and the footnotes are listed at the end before the References.

*Notes* are short articles, generally of less than 2000 words. They do not require an abstract or table of headings, but either the first or the final paragraph should summarize the content.

*References* (essential ones only, please) are cited in text; full references appear in the listing under References at the end; for forms of citations and references see the most recent issue of *Polar Record*. *Authors alone are responsible for the accuracy of their references*. References to privately printed or other unpublished reports and data are not accepted unless copies of the material are freely available from a named library or similar repository. *Tables* should be kept as simple as possible and typed on separate sheets. They will normally be fitted across the single- or double-column page, only exceptionally lengthwise.

*Illustrations*. Drawings, maps and diagrams must be of professional standard, with lettering and numbers pencilled in clearly. Authors may be charged for re-drawing if an illustration is inadequate. They should if possible allow for about one-third reduction in width to fit a column (7.8 cm) or page (16.4 cm). Photographs (black and white only) that add substantially to the material are welcome. Glossy prints with high contrast, about one-third oversize, generally reproduce well.

#### **Contributions on disc**

The Editor welcomes contributions on floppy discs. The most suitable format is Apple Macintosh 3.5" disc. Output from a wide variety of word processing packages can be accepted, but in case of doubt, a MacWrite-compatible document should be produced. Diagrams also can be transferred on Macintosh discs. Discs from other microcomputers may be acceptable if the text is in the form of an ASCII file, with no word processing codes. TAB characters are acceptable. Currently, *Polar Record* can accept discs from Acorn BBC and Torch microcomputers, Amstrad PCW series microcomputers and, less readily, IBM PC compatible machines (5.25" discs only). If in doubt, please consult the Editor.

**ISSN 0032-2474**

# POLAR RECORD

VOLUME 25 NUMBER 155 OCTOBER 1989

## CONTENTS

### ARTICLES

- Reindeer dairying in the Soviet Union. G. Fondahl p 285
- Jobs, leisure and traditional pursuits: activities of native males in the Northwest Territories. J. C. Stabler p 295
- Foraging ranges of penguins. R. P. Wilson, K. A. Nagy and B. Obst p 303
- Improving antarctic management plans. P. L. Keage, P. R. Hay and J. A. Russell p 309
- The ANCSA Amendments of 1987 and land management in Alaska. N. E. Flanders p 315
- The invertebrate collections of the *Erebus* and *Terror* Antarctic expedition; a missed opportunity. J. Davenport and G. E. Fogg p 323
- Antarctica at the UN 1988: seeking a bridge of understanding. P. J. Beck p 329
- LIMEX'87: international experiment in the Labrador Sea marginal ice zone. M. R. Drinkwater and S. Digby Argus p 335
- Greenland: ten years of home rule. L. Lyck p 343

### NOTES

- Measuring the length of an ice floe trajectory. H. Hoerber p 347
- IAPSO Commission on Sea Ice. R. D. Muench p 349
- A memento of Amundsen. G. Hattersley-Smith p 351
- Destruction of *Louise*. N. Bonner, I. Hart and R. K. Headland p 352
- Confirmed breeding of polar wolf in northeast Greenland in 1988. J. V. N. Turner and R. H. Dennis p 353
- First record of black-necked swan *Cygnus melancoryphus* in South Shetland and Antarctica. I. F. Lazo and J. Jañez p 354

### REVIEWS

- Polar ecology. Bernard Stonehouse. *G. Hempel* p 354. Continental dash: the Russian-American telegraph. R. Neering. *Jerome F. Sheldon* p 355. The environmental record in glaciers and ice sheets. H. Oeschger and C. C. Langway Jr. *Jefferson C. Simões* p 355. Microbial ecosystems of Antarctica. W. F. Vincent. *Humphrey G. Smith* p 356. Living ice: understanding glaciers and glaciation. Robert P. Sharp. *John Splettstoesser* p 356. Vegetation of the Soviet polar deserts. V. D. Aleksandrova. *B. Stonehouse* p 357. The muskoxen of Polar Bear Pass. D. R. Gray. *B. Stonehouse* p 357. Brief reviews p 357.

### IN BRIEF

- National Science Foundation sends young scholars to Antarctica; Polar books taken in Royal Commonwealth Library theft; *CAI: Commentary*; Soviet ships damaged in arctic waters; Arctic expeditions sponsored by Royal Geographical Society; First direct flight from Australia to Antarctica; Soviet nuclear-powered ships; p 358

### CORRECTION p 359

### OBITUARY

- Gp-Capt Stuart Campbell; Alan G. R. Cooke p 360.

### SCAR BULLETIN No 95

- Meeting of SCAR Executive Committee, Siena, Italy, 28–30 June 1989 p 361
- Stations of SCAR nations operating in the Antarctic, winter 1989 p 367
