

# University of Miami Miller School of Medicine

The Division of Infectious Diseases, Dept of Medicine, is recruiting for a hospital epidemiologist to guide the Infectious Control Activities at Jackson Memorial Hospital. Jackson Memorial Hospital is a 1550 bed facility that provides care to one of the most diverse urban populations in the country. It is also a tertiary care facility with outstanding programs in virtually all specialty areas, a magnet for both national and international patients. The level 1 Ryder trauma center is one of the busiest in the United States. The transplantation program is also one of the largest of its kind in the world. The incumbent must be BE/BC in infectious diseases with experience in hospital epidemiology and infection control. Applicants with research experience are preferred. He or she will be responsible for supervising the infection control activities at the center and the development of new programs.

UM is an AA/EOE. Applications from women and people from diverse racial, ethnic and cultural backgrounds are encouraged. Interested applicants should send a CV, a statement of research interests, and names of three references to:

Gordon Dickinson, MD, Division Chief,  
Infectious Diseases (D90A),  
Department of Medicine  
UM - Miller School of Medicine  
P.O. Box 016960  
Miami, Fl. 33101.

THE CHICAGO GUIDE TO  
**LANDING A  
JOB**  
**IN ACADEMIC BIOLOGY**

---

**C. RAY CHANDLER, LORNE M. WOLFE,  
AND DANIEL E. L. PROMISLOW**

*"The Chicago Guide to Landing a Job in Academic Biology is a nuts-and-bolts book, full of practical advice such as how to construct an application that won't be thrown out, how to give a seminar, and how to complete the interview process successfully. . . . The advice is sensible, being based on years of reading flawed job applications and watching candidates make fatal errors."*—Pamela A. Silver, *Nature*

*"Job hunting is often a traumatic hurdle in a young biologist's career. The Chicago Guide to Landing a Job in Academic Biology de-traumatizes the hunt and also increases the odds of finding a suitable academic job."*—Raymond Huey, professor, Department of Biology, University of Washington

*"I think this book will help a lot of people."*—Lynda Delph, associate chair, Department of Biology, Indiana University
