The Journal of Agricultural Science

Senior Editor (Animal papers)

Julian Wiseman, *University of Nottingham, UK*

Senior Editor (Crops & Soils papers)

Paul Bilsborrow, *Newcastle University, UK*

The Journal of Agricultural Science publishes papers concerned with the advance of agriculture and the use of land resources throughout the world. It publishes original scientific work related to strategic and applied studies in all aspects of agricultural science, including: crop and animal physiology, modelling of crop and animal systems, the scientific underpinning of agronomy and husbandry, engineering solutions, decision support systems, land use, environmental impacts of agriculture and forestry, impacts of climate change, rural biodiversity, experimental design and statistical analysis, the application of new analytical and study methods (including molecular studies). The journal also publishes book reviews and letters.

JNS

**JOURNAL OF
NUTRITIONAL
SCIENCE**

Editor-in-Chief

G C Burdge, *University of Southampton, UK*

 **Cambridge
Open**

Journal of Nutritional Science encompasses the full spectrum of nutritional science including public health nutrition, epidemiology, dietary surveys, nutritional requirements, metabolic studies, body composition, energetics, appetite, obesity, ageing, endocrinology, immunology, neuroscience, microbiology, genetics and molecular and cell biology. The Nutrition Society fully engages with the Open Access model of publishing.

NUTRITION RESEARCH REVIEWS

Editor-in-Chief

Jayne V. Woodside, *Queen's University, Belfast, UK*

Nutrition Research Reviews offers a comprehensive overview of nutritional science today. By distilling the latest research and linking it to established practice, the journal consistently delivers the widest range of in-depth articles in the field of nutritional science and has done so for the past twenty-one years. It presents up-to-date, concise and critical reviews of key topics in nutrition science, advancing new concepts and hypotheses that encourage the exchange of fundamental ideas on nutritional well-being in both humans and animals.

Journal of Helminthology

Editor

John Lewis, Royal Holloway, University of London, UK

Journal of Helminthology publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology, epidemiology and biochemistry.

PNS

PROCEEDINGS OF THE NUTRITION SOCIETY

Editor-in-Chief

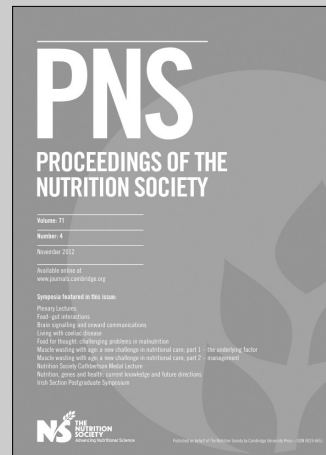

Maria O'Sullivan

Trinity College Medical Centre, Republic of Ireland

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society. The journal provides an invaluable record of the scientific research currently being undertaken, contributing to 'the scientific study of nutrition and its application to the maintenance of human and animal health.'

CONTENTS

Breeding and genetics

Rampoldi, A., Bertschinger, H. U., Bürgi, E., Dolf, G., Sidler, X., Bratus, A., Vögeli, P. and Neuenschwander, S.
Inheritance of porcine receptors for enterotoxigenic *Escherichia coli* with fimbriae F4ad and their relation to other F4 receptors 859

McLaren, A., Lambe, N. R., Morgan-Davies, C., Mrode, R., Brotherstone, S., Conington, J., Morgan-Davies, J. and Bunger, L.
Characterisation of terminal sire sheep farm systems, based on a range of environmental factors: a case study in the context of genotype by environment interactions using Charollais lambs 867

Yin, T., Wensch-Dorendorf, M., Simianer, H., Swalve, H. H. and König, S.
Assessing the impact of natural service bulls and genotype by environment interactions on genetic gain and inbreeding in organic dairy cattle genomic breeding programs 877

Nilforooshan, M. A., Jakobsen, J. H., Fikse, W. F., Berglund, B. and Jorjani, H.
Multiple-trait multiple-country genetic evaluation of Holstein bulls for female fertility and milk production traits 887

Berry, D. P., McParland, S., Kearney, J. F., Sargolzaei, M. and Mullen, M. P.
Imputation of ungenotyped parental genotypes in dairy and beef cattle from progeny genotypes 895

González-Rodríguez, A., Mouresan, E. F., Altarriba, J., Moreno, C. and Varona, L.
Non-linear recursive models for growth traits in the Pirenaica beef cattle breed 904

Nutrition

Józefiak, D., Kierończyk, B., Rawski, M., Hejdysz, M., Rutkowski, A., Engberg, R. M. and Højberg, O.
Clostridium perfringens challenge and dietary fat type affect broiler chicken performance and fermentation in the gastrointestinal tract 912

Paredes, S. P., Jansman, A. J. M., Verstegen, M. W. A., den Hartog, L. A., van Hees, H. M. J., Bolhuis, J. E., van Kempen, T. A. T. G. and Gerrits, W. J. J.
Identifying the limitations for growth in low performing piglets from birth until 10 weeks of age 923

Broudiscou, L. P., Offner, A. and Sauvant, D.
Effects of inoculum source, pH, redox potential and headspace di-hydrogen on rumen *in vitro* fermentation yields 931

Wischer, G., Greiling, A. M., Boguhn, J., Steingass, H., Schollenberger, M., Hartung, K. and Rodehutschord, M.
Effects of long-term supplementation of chestnut and valonea extracts on methane release, digestibility and nitrogen excretion in sheep 938

Fitzsimons, C., Kenny, D. A. and McGee, M.
Visceral organ weights, digestion and carcass characteristics of beef bulls differing in residual feed intake offered a high concentrate diet 949

Physiology and functional biology of systems

van Lier, E., Carriquiry, M. and Meikle, A.
Sex steroid modulation of cortisol secretion in sheep 960

Goff, K. J., Notter, D. R., Vanimisetti, H.-B. and Knight, J. W.
Strategies for rapid rebreeding of lactating ewes in the spring 968

Bossaert, P., Fransen, E., Langbeen, A., Stalpaert, M., Vandenbroeck, I., Bols, P. E. and Leroy, J. L.
Effects of parity and periconceptual metabolic state of Holstein-Friesian dams on the glucose metabolism and conformation in their newborn calves 975

Behaviour, welfare and health

David, I., Bouvier, F., Ricard, E., Ruesche, J. and Weisbecker, J.-L.
Feeding behaviour of artificially reared Romane lambs 982

Wesley, R. L., Cibils, A. F., Black-Rubio, C. M., Pollak, E. R. and Utsumi, S. A.
Maternal influence on feeding site selection of male and female lambs 991

Abell, C. E., Johnson, A. K., Karriker, L. A., Rothschild, M. F., Hoff, S. J., Sun, G., Fitzgerald, R. F. and Stalder, K. J.
Using classification trees to detect induced sow lameness with a transient model 1000

O' Doherty, E., Berry, D. P., O' Grady, L. and Sayers, R.
Management practices as risk factors for the presence of bulk milk antibodies to *Salmonella*, *Neospora caninum* and *Leptospira interrogans serovar hardjo* in Irish dairy herds 1010
