ETHICS and JUSTIFICATION

Edited with an Introduction by
Douglas Odegard

Theories of justification for ethical decisions abound, each rejecting the others' claims and promoting their own. It is even controversial whether such theories are possible, or indeed whether they are necessary. The contributors to this volume, all leading moral philosophers, explore these issues in the attempt to find common, and therefore reliable, ground. Topics discussed include: Justifying a Morality, The Individual, Society and the Environment, Justification and Systematic Foundations, The Diversity of Cases, Coherence and Intuition, Agreement in Ethical Theory.

Contributors Leslie Armour, E.J. Bond, Richmond Campbell, Marsha Hanen, Danny Goldstick, Harold J. Johnson, Don MacNiven, Peter Miller, Jan Narveson, Harry A. Nielsen, Kai Nielsen, Joseph A. Novak, Kenneth Rankin, Lionel Rubinoff, Roger A. Shiner.

Frege

Philosophy of Mathematics

Michael Dummett

No one has figured more prominently in the study of German philosopher Gottlob Frege than Michael Dummett. In this work Dummett discusses Frege's masterpiece *The Foundations of Arithmetic* and Frege's treatment of real numbers in the second volume of *Basic Laws of Arithmetic*, establishing what parts of the philosopher's views can be salvaged and employed in new theorizing, and what must be abandoned, either as incorrectly argued or as untenable in the light of technical developments.

Michel Foucault

Didier Eribon

Translated by Betsy Wing

In this biography of the brilliant and controversial French intellectual, Didier Eribon provides a fascinating and meticulously documented narrative that debunks the many myths and rumors surrounding Foucault. As a journalist well acquainted with him for years before his death, Eribon was particularly well placed to conduct the dozens of interviews which form the cornerstone of this enlightening profile.

Innocence and Experience

Stuart Hampshire

"An elegant, restrained, and highly persuasive defense of minimalism... graceful and elegant in the best contemporary style... It is a brave thing to attempt in this supersophisticated day and age—the meditation on experience. Hampshire's attempt, it seems to me, is wholly successful."

—*New Republic*

"What a joy this book was to read. Stylistically, it could not be better: Hampshire's writing is at once elegant, rigorous, and imaginative."

—*Review of Metaphysics*

Liberalism and the Moral Life

Edited by Nancy L. Rosenblum

"Liberal political theory has been given a rough ride over the past decade... Liberal thinkers are, however, not without resources to make a spirited reply. That is the message of this valuable collection."

—*Times Literary Supplement*

"[This book] is an important new contribution to liberal thought. It encourages and helps us to rethink what it is to be a liberal."

Heidegger's Pragmatism

Understanding, Being, and the Critique of Metaphysics

By MARK OKRENT. *New in Paper!* "*Heidegger's Pragmatism* is an original and provocative treatment of both early and late Heidegger. Theory and Society is a forum for the international community of scholars that publishes theoretically-informed analyses of social processes. It opens its pages to authors working at the frontiers of social analysis, regardless of discipline. Its subject matter ranges from pre-history to contemporary affairs, from treatments of single individuals and national societies to world culture, from discussions of theory to methodological critique, from First World to Third World – but always in the effort to bring together theory, criticism and concrete observation.
