

INDEX OF AUTHORS

ACKLEY, S F	A conceptual model for pancake-ice formation in a wave field	361
ACKLEY, S F	The Ronne polynya of 1997/98: observations of air–ice–ocean interaction	425
ACKLEY, S F	Snow-ice growth: a fresh-water flux inhibiting deep convection in the Weddell Sea, Antarctica	45
AGNEW, T A	Investigating the anomalous sea-ice conditions in the Canadian High Arctic (Queen Elizabeth Islands) during summer 1998	507
AKSENOV, Ye	The Arctic Ocean Circulation as simulated in a very high-resolution global ocean model (OCCAM)	567
ALLISON, I	A comparison of East Antarctic sea-ice motion derived using drifting buoys and remote sensing	139
ALLISON, I	Effects of regional fast-ice and iceberg distributions on the behaviour of the Mertz Glacier polynya, East Antarctica	391
ALLISON, I	Ice formation in the Mertz Glacier polynya, East Antarctica, during winter	368
ALLISON, I	Sea-ice growth and water-mass modification in the Mertz Glacier polynya, East Antarctica, during winter	399
ALLISON, I	Seasonal development of sea-ice thickness distribution in East Antarctica: measurements from upward-looking sonar data	177
ALLISON, I	Sensible- and latent-heat-flux estimates over the Mertz Glacier polynya, East Antarctica, from in-flight measurements	377
ALLISON, I	Sensitivity of the Antarctic sea-ice distribution to oceanic heat flux in a coupled atmosphere–sea-ice model	577
ALT, B T	Investigating the anomalous sea-ice conditions in the Canadian High Arctic (Queen Elizabeth Islands) during summer 1998	507
ANDERSON, M R	Comparison of interannual snowmelt-onset dates with atmospheric conditions	79
ANDERSON, M R	The onset of Arctic sea-ice snowmelt as detected with passive- and active-microwave remote sensing	85
ANDERSON, M R	Spatial and temporal variability in snowmelt onset over Arctic sea ice	74
ARBLASTER, J M	Sea ice and climate in 20th- and 21st-century simulations with a global atmosphere–ocean–ice model	521
ARCHER, A	Satellite observations of upper-ocean currents in Terra Nova Bay, Antarctica	407
BARBER, D G	A case-study in tracking 1998 polynya ice dynamics in Smith Sound, North Water polynya region, Canadian Arctic, using RADARSAT-1 data	413
BAREISS, J	An observational and modelling analysis of Laptev Sea (Arctic Ocean) ice variations during summer	533
BECKMANN, A	The role of sea ice in the fresh-water budget of the Weddell Sea, Antarctica	419
BERTOIA, C	Evaluation of operational SSM/I ice-concentration algorithms	102
BERTOIA, C	Satellite observations of upper-ocean currents in Terra Nova Bay, Antarctica	407
BIN, C	Turbulent surface fluxes and air–ice coupling in Baltic–Air–Sea–Ice Study (BASIS)	237
BINDOFF, N L	Sea-ice growth and water-mass modification in the Mertz Glacier polynya, East Antarctica, during winter	399
BUDD, W F	Sensitivity of the Antarctic sea-ice distribution to oceanic heat flux in a coupled atmosphere–sea-ice model	577
BUSH, G M	Seasonal development of sea-ice thickness distribution in East Antarctica: measurements from upward-looking sonar data	177

CHAPMAN, W L	20th-century sea-ice variations from observational data	444
CHENG, B	Modelling sea-ice thermodynamics in BALTEX-BASIS	243
CHUNG, H	Calculation of wave propagation into land-fast ice	322
CHUNG, H	Dynamic, in situ measurement of sea-ice characteristic length	339
CHURUN, V	The Laptev Sea flaw polynya, Russian Arctic: effects on the mesoscale hydrography	373
COALE, S L	Biomass, production and microhabitat characteristics near the freeboard of ice floes in the Ross Sea, Antarctica, during the austral summer	280
COMISO, J C	The Ronne polynya of 1997/98: observations of air–ice–ocean interaction	425
COMISO, J C	Satellite-observed variability and trend in sea-ice extent, surface temperature, albedo and clouds in the Arctic	457
CONNOLLEY, W	The simulation of Antarctic sea ice in the Hadley Centre Climate Model (HadCM3)	585
COON, M D	Interannual variability of the sea-ice-induced salt flux in the Greenland Sea	385
COWARD, A C	The Arctic Ocean Circulation as simulated in a very high-resolution global ocean model (OCCAM)	567
CRESSWELL, D	The simulation of Antarctic sea ice in the Hadley Centre Climate Model (HadCM3)	585
DAVIS, N R	Arctic sea-ice morphological characteristics in summer 1996	165
DE ABREU, R	Investigating the anomalous sea-ice conditions in the Canadian High Arctic (Queen Elizabeth Islands) during summer 1998	507
DEMING, J	A microscopic approach to investigate bacteria under in situ conditions in sea-ice samples	304
DETHLOFF, K	An observational and modelling analysis of Laptev Sea (Arctic Ocean) ice variations during summer	533
DIECKMANN, G S	Behaviour of dissolved organic matter and inorganic nutrients during experimental sea-ice formation	317
DIECKMANN, G S	Dissolved organic matter in Antarctic sea ice	297
DIECKMANN, G S	Vertical zonation and community transition of sea-ice diatoms in fast ice and platelet layer, Weddell Sea, Antarctica	287
DIXON, T W	How a region of cracked sea ice affects ice-coupled wave propagation	327
DMITRENKO, I	The Laptev Sea flaw polynya, Russian Arctic: effects on the mesoscale hydrography	373
DOWNER, J	Ice-floe kinematics in the Ross Sea marginal ice zone using GPS and accelerometers	345
DRINKWATER, M R	Combined satellite- and ULS-derived sea-ice flux in the Weddell Sea, Antarctica	125
DROBOT, S D	Comparison of interannual snowmelt-onset dates with atmospheric conditions	79
DROBOT, S D	The onset of Arctic sea-ice snowmelt as detected with passive- and active-microwave remote sensing	85
DROBOT, S D	Spatial and temporal variability in snowmelt onset over Arctic sea ice	74
EHN, J	Time-series observations of the structure and properties of brackish ice in the Gulf of Finland	1
EICKEN, H	Indirect measurements of the mass balance of summer Arctic sea ice with an electromagnetic induction technique	194
EICKEN, H	A microscopic approach to investigate bacteria under in situ conditions in sea-ice samples	304
ELDER, B C	Temporal evolution of Arctic sea-ice temperature	207
EMERY, W J	A comparison of East Antarctic sea-ice motion derived using drifting buoys and remote sensing	139
ENGBRODT, R	Dissolved organic matter in Antarctic sea ice	297
ENOMOTO, H	Observation of sea-ice thickness fluctuation in the seasonal ice-covered area during 1992–99 winters	449
FORSTER, R R	The onset of Arctic sea-ice snowmelt as detected with passive- and active-microwave remote sensing	85

FOWLER, C W	A comparison of East Antarctic sea-ice motion derived using drifting buoys and remote sensing	139
FOX, C	Calculation of wave propagation into land-fast ice	322
FOX, C	Dynamic, in situ measurement of sea-ice characteristic length	339
FOX, C	Lifetime estimation for a land-fast ice sheet subjected to ocean swell	333
FOX, C	Ocean wave speed in the Antarctic marginal ice zone	350
FREW, R	Platelet ice and the land-fast sea ice of McMurdo Sound, Antarctica	21
FRITSEN, C H	Biomass, production and microhabitat characteristics near the freeboard of ice floes in the Ross Sea, Antarctica, during the austral summer	280
GARRISON, D L	Biomass, production and microhabitat characteristics near the freeboard of ice floes in the Ross Sea, Antarctica, during the austral summer	280
GASCARD, J-C	Interannual variability of the Storfjorden (Svalbard) ice cover and ice production observed by ERS-2 SAR	430
GASCARD, J-C	Seasonal transformation of water masses, circulation and brine formation observed in Storfjorden, Svalbard	437
GEIGER, C A	The Ronne polynya of 1997/98: observations of air–ice–ocean interaction	425
GIANNELLI, V	Behaviour of dissolved organic matter and inorganic nutrients during experimental sea-ice formation	317
GIANNELLI, V	Dissolved organic matter in Antarctic sea ice	297
GIBSON, A H	Biomass, production and microhabitat characteristics near the freeboard of ice floes in the Ross Sea, Antarctica, during the austral summer	280
GILDOR, H	Sea ice, as the glacial cycles' climate switch, and interhemispheric thermohaline teleconnections	501
GOLDEN, K M	Brine percolation and the transport properties of sea ice	28
GOOSSE, H	Decadal variability in high northern latitudes as simulated by an intermediate-complexity climate model	525
GÖRGEN, K	An observational and modelling analysis of Laptev Sea (Arctic Ocean) ice variations during summer	533
GRANSKOG, M A	Observations on sea-ice and surface-water geochemistry — implications for importance of sea ice in geochemical cycles in the northern Baltic Sea	311
GRANSKOG, M A	Time-series observations of the structure and properties of brackish ice in the Gulf of Finland	1
GRIGIONI, P	Satellite observations of upper-ocean currents in Terra Nova Bay, Antarctica	407
GÜNTHER, S	Vertical zonation and community transition of sea-ice diatoms in fast ice and platelet layer, Weddell Sea, Antarctica	287
HAAPALA, J	Modelling the variability of the sea-ice conditions in the Baltic Sea under different climate conditions	555
HAAPALA, J	Sea-ice kinematics measured with GPS drifters	151
HAARPAINNER, J	Interannual variability of the Storfjorden (Svalbard) ice cover and ice production observed by ERS-2 SAR	430
HAARPAINNER, J	Seasonal transformation of water masses, circulation and brine formation observed in Storfjorden, Svalbard	437
HAARSMA, R J	Decadal variability in high northern latitudes as simulated by an intermediate-complexity climate model	525
HAAS, C	Behaviour of dissolved organic matter and inorganic nutrients during experimental sea-ice formation	317
HAAS, C	Dissolved organic matter in Antarctic sea ice	297
HAAS, C	The seasonal cycle of ERS scatterometer signatures over perennial Antarctic sea ice and associated surface ice properties and processes	69
HANSEN, J	Response of the Northern Hemisphere sea ice to greenhouse forcing in a global climate model	513

HARANGOZO, S	The simulation of Antarctic sea ice in the Hadley Centre Climate Model (HadCM3)	585
HARMS, S	Combined satellite- and ULS-derived sea-ice flux in the Weddell Sea, Antarctica	125
HASKELL, T G	Dynamic, in situ measurement of sea-ice characteristic length	339
HASKELL, T G	Ice-floe kinematics in the Ross Sea marginal ice zone using GPS and accelerometers	345
HASKELL, T G	Lifetime estimation for a land-fast ice sheet subjected to ocean swell	333
HASKELL, T G	Ocean wave speed in the Antarctic marginal ice zone	350
HASKELL, T G	Platelet ice and the land-fast sea ice of McMurdo Sound, Antarctica	21
HAUGAN, P M	Interannual variability of the Storfjorden (Svalbard) ice cover and ice production observed by ERS-2 SAR	430
HAUGAN, P M	Seasonal transformation of water masses, circulation and brine formation observed in Storfjorden, Svalbard	437
HEIL, P	A comparison of East Antarctic sea-ice motion derived using drifting buoys and remote sensing	139
HELBIG, A	An observational and modelling analysis of Laptev Sea (Arctic Ocean) ice variations during summer	533
HELLMER, H H	The role of sea ice in the fresh-water budget of the Weddell Sea, Antarctica	419
HEYGSTER, G	Sea-ice concentration retrieval in the Antarctic based on the SSM/I 85.5 GHz polarization	109
HIBLER, W D, III	Modeling the formation and evolution of oriented fractures in sea ice	157
HIGGINS, A K	Sea ice and the stability of north and northeast Greenland floating glaciers	474
HILL, B T	Structure of sea ice in McMurdo Sound, Antarctica	5
HILL, K L	Effects of regional fast-ice and iceberg distributions on the behaviour of the Mertz Glacier polynya, East Antarctica	391
HÖLEMANN, J A	The Laptev Sea flaw polynya, Russian Arctic: effects on the mesoscale hydrography	373
HOLMGREN, J	Spatial variations in the winter heat flux at SHEBA: estimates from snow–ice interface temperatures	213
HOPKINS, M A	A conceptual model for pancake-ice formation in a wave field	361
HOPKINS, M A	Simulation of pancake-ice dynamics in a wave field	355
HUNKE, E C	The Ronne polynya of 1997/98: observations of air–ice–ocean interaction	425
HURST-CUSHING, B	Snow-ice accretion and snow-cover depletion on Antarctic first-year sea-ice floes	51
IKEDA, M	Arctic sea-ice oscillation: regional and seasonal perspectives	481
ISHIKAWA, N	Time-series observations of the structure and properties of brackish ice in the Gulf of Finland	1
JEFFERS, S	Investigating the anomalous sea-ice conditions in the Canadian High Arctic (Queen Elizabeth Islands) during summer 1998	507
JEFFRIES, M O	Phase and compositional evolution of the flooded layer during snow-ice formation on Antarctic sea ice	37
JEFFRIES, M O	Sea-ice thickness and roughness in the Ross Sea, Antarctica	187
JEFFRIES, M O	Seasonal contrasts in snow-cover characteristics on Ross Sea ice floes	61
JEFFRIES, M O	Snow-ice accretion and snow-cover depletion on Antarctic first-year sea-ice floes	51
JEZEK, K C	The onset of Arctic sea-ice snowmelt as detected with passive- and active-microwave remote sensing	85
JOHNSON, M	Understanding climatic controls on sea-ice transport pathways in the Arctic Ocean	551
JONES, S J	Structure of sea ice in McMurdo Sound, Antarctica	5
JUNGE, K	A microscopic approach to investigate bacteria under in situ conditions in sea-ice samples	304
JUOTTONEN, A	Modelling the variability of the sea-ice conditions in the Baltic Sea under different climate conditions	555

KASSENS, H	The Laptev Sea flaw polynya, Russian Arctic: effects on the mesoscale hydrography	373
KATTNER, G	Behaviour of dissolved organic matter and inorganic nutrients during experimental sea-ice formation	317
KATTNER, G	Dissolved organic matter in Antarctic sea ice	297
KAWAMURA, T	Time-series observations of the structure and properties of brackish ice in the Gulf of Finland	1
KENNEDY, H	Behaviour of dissolved organic matter and inorganic nutrients during experimental sea-ice formation	317
KENNEDY, H	Dissolved organic matter in Antarctic sea ice	297
KERN, S	Sea-ice concentration retrieval in the Antarctic based on the SSM/I 85.5 GHz polarization	109
KEY, J R	Spatial variability of the sea-ice radiation budget and its effect on aggregate-area fluxes	248
KING, D J	A case-study in tracking 1998 polynya ice dynamics in Smith Sound, North Water polynya region, Canadian Arctic, using RADARSAT-1 data	413
KING, J C	The Ronne polynya of 1997/98: observations of air–ice–ocean interaction	425
KIRILLOV, S	The Laptev Sea flaw polynya, Russian Arctic: effects on the mesoscale hydrography	373
KOBAYASHI, T	CRL/NASDA airborne SAR (Pi-SAR) observations of sea ice in the Sea of Okhotsk	115
KREMBS, C	A microscopic approach to investigate bacteria under in situ conditions in sea-ice samples	304
KROUSE, H R	Snow-ice accretion and snow-cover depletion on Antarctic first-year sea-ice floes	51
LANDMAN, K A	Solar radiative heating in first-year sea ice	261
LANGHORNE, P J	Lifetime estimation for a land-fast ice sheet subjected to ocean swell	333
LANGHORNE, P J	Platelet ice and the land-fast sea ice of McMurdo Sound, Antarctica	21
LAUNIAINEN, J	Modelling sea-ice thermodynamics in BALTEX-BASIS	243
LAUNIAINEN, J	Turbulent surface fluxes and air–ice coupling in Baltic–Air–Sea–Ice Study (BASIS)	237
LEPPÄRANTA, M	Modelling the variability of the sea-ice conditions in the Baltic Sea under different climate conditions	555
LEPPÄRANTA, M	Sea-ice kinematics measured with GPS drifters	151
LEPPÄRANTA, M	Time-series observations of the structure and properties of brackish ice in the Gulf of Finland	1
LI, S	Measurement of all-wave and spectral albedos of snow-covered summer sea ice in the Ross Sea, Antarctica	267
LINDFORS, A	Time-series observations of the structure and properties of brackish ice in the Gulf of Finland	1
LINDSAY, R W	Arctic sea-ice albedo derived from RGPS-based ice-thickness estimates	225
LIU, A K	Principal-component analysis of sea-ice motion from satellite data	133
LIU, X	Combined satellite- and ULS-derived sea-ice flux in the Weddell Sea, Antarctica	125
LONG, D G	The onset of Arctic sea-ice snowmelt as detected with passive- and active-microwave remote sensing	85
LYTLE, V I	Effects of regional fast-ice and iceberg distributions on the behaviour of the Mertz Glacier polynya, East Antarctica	391
LYTLE, V I	Ice formation in the Mertz Glacier polynya, East Antarctica, during winter	368
LYTLE, V I	Sensible- and latent-heat-flux estimates over the Mertz Glacier polynya, East Antarctica, from in-flight measurements	377
LYTLE, V I	Snow-ice growth: a fresh-water flux inhibiting deep convection in the Weddell Sea, Antarctica	45
MAENO, H	CRL/NASDA airborne SAR (Pi-SAR) observations of sea ice in the Sea of Okhotsk	115
MAKSYM, T	Phase and compositional evolution of the flooded layer during snow-ice formation on Antarctic sea ice	37
MAKSYM, T	Snow-ice accretion and snow-cover depletion on Antarctic first-year sea-ice floes	51

MARBLE, D C	On large-scale shifts in the Arctic Ocean and sea-ice conditions during 1979–98	545
MARNELA, M	Modelling the variability of the sea-ice conditions in the Baltic Sea under different climate conditions	555
MARTINSON, D G	An efficient adjustable-layering thermodynamic sea-ice model formulation for high-frequency forcing	253
MARTMA, T	Time-series observations of the structure and properties of brackish ice in the Gulf of Finland	1
MASLANIK, J A	A comparison of East Antarctic sea-ice motion derived using drifting buoys and remote sensing	139
MASLANIK, J A	Synoptic-scale ice-motion case-studies using assimilated motion fields	145
MASLOWSKI, W	On large-scale shifts in the Arctic Ocean and sea-ice conditions during 1979–98	545
MASSOM, R A	Effects of regional fast-ice and iceberg distributions on the behaviour of the Mertz Glacier polynya, East Antarctica	391
MASSOM, R A	Ice formation in the Mertz Glacier polynya, East Antarctica, during winter	368
MATSUOKA, T	CRL/NASDA airborne SAR (Pi-SAR) observations of sea ice in the Sea of Okhotsk	115
MATSUOKA, T	Estimation of sea-ice physical parameters using polarimetric SAR: results from Okhotsk and Lake Saroma campaign	120
McCOURT, S	Investigating the anomalous sea-ice conditions in the Canadian High Arctic (Queen Elizabeth Islands) during summer 1998	507
McGUINNESS, M J	Solar radiative heating in first-year sea ice	261
MEIER, W N	Evaluation of operational SSM/I ice-concentration algorithms	102
MEIER, W N	Satellite observations of upper-ocean currents in Terra Nova Bay, Antarctica	407
MEIER, W N	Synoptic-scale ice-motion case-studies using assimilated motion fields	145
MICHAEL, K J	Determining the floe-size distribution of East Antarctic sea ice from digital aerial photographs	94
MORRIS, K	Measurement of all-wave and spectral albedos of snow-covered summer sea ice in the Ross Sea, Antarctica	267
MORRIS, K	Seasonal contrasts in snow-cover characteristics on Ross Sea ice floes	61
NADAI, A	CRL/NASDA airborne SAR (Pi-SAR) observations of sea ice in the Sea of Okhotsk	115
NAKAMURA, K	CRL/NASDA airborne SAR (Pi-SAR) observations of sea ice in the Sea of Okhotsk	115
NAKAMURA, K	Estimation of sea-ice physical parameters using polarimetric SAR: results from Okhotsk and Lake Saroma campaign	120
NAZARENKO, L	Modeling of the Beaufort ice–ocean climatology change	560
NAZARENKO, L	Response of the Northern Hemisphere sea ice to greenhouse forcing in a global climate model	513
NEENAN, D R	Biomass, production and microhabitat characteristics near the freeboard of ice floes in the Ross Sea, Antarctica, during the austral summer	280
NISHIO, F	CRL/NASDA airborne SAR (Pi-SAR) observations of sea ice in the Sea of Okhotsk	115
NISHIO, F	Estimation of sea-ice physical parameters using polarimetric SAR: results from Okhotsk and Lake Saroma campaign	120
O'DWYER, J	Seasonal transformation of water masses, circulation and brine formation observed in Storfjorden, Svalbard	437
OPSTEEGH, J D	Decadal variability in high northern latitudes as simulated by an intermediate-complexity climate model	525
ØSTERHUS, S	Seasonal transformation of water masses, circulation and brine formation observed in Storfjorden, Svalbard	437
PAGET, M J	Determining the floe-size distribution of East Antarctic sea ice from digital aerial photographs	94
PAGET, M J	Effects of regional fast-ice and iceberg distributions on the behaviour of the Mertz Glacier polynya, East Antarctica	391
PAGET, M J	Ice formation in the Mertz Glacier polynya, East Antarctica, during winter	368

PANTOJA, A E	Solar radiative heating in first-year sea ice	261
PAULSON, C A	The albedo of Arctic leads in summer	221
PEGAU, W S	The albedo of Arctic leads in summer	221
PEGAU, W S	Summer ice dynamics during SHEBA and its effect on the ocean heat content	201
PELLEGRINI, A	Satellite observations of upper-ocean currents in Terra Nova Bay, Antarctica	407
PEROVICH, D K	Indirect measurements of the mass balance of summer Arctic sea ice with an electromagnetic induction technique	194
PEROVICH, D K	Seasonal changes in Arctic sea-ice morphology	171
PEROVICH, D K	Spatial variations in the winter heat flux at SHEBA: estimates from snow–ice interface temperatures	213
