## Welcome to *PLS*

**P**OLITICS AND THE LIFE SCIENCES is an interdisciplinary peer-reviewed journal with a global audience. *PLS* is owned by the ASSOCIATION FOR POLITICS AND THE LIFE SCIENCES, the APLS ([www.aplsnet.org](http://www.aplsnet.org)), and has been published since 1982, with the first issue published by Cambridge University Press in Spring 2016.

*PLS* publishes original scholarly research at the intersection of politics and the life sciences. The topic range includes evolutionary and laboratory insights into political behavior, from decision-making to leadership, cooperation, and competition; evolutionary analysis of political intolerance and violence, from group conflict to warfare, terrorism, and torture; political and political-economic analysis of life-sciences research, health policy, agricultural and environmental policy, and biosecurity policy; philosophical analysis of bioethical controversies; and historical analysis of currently misunderstood issues within the range described above. Contributors include political scientists, political psychologists, life scientists, clinicians, health-policy scholars, bioethicists, biosecurity and international-security experts, environmental scientists and ecological economists, moral and evolutionary philosophers, political and environmental historians,

communications and public-opinion researchers, and legal scholars.

*PLS* is printed, mailed, and posted online ([www.cambridge.org/pls](http://www.cambridge.org/pls)) twice annually, in the spring and fall, by Cambridge University Press. Papers succeeding in peer review, once emerging from revision and prepress routines, may be published online-before-print for access by subscribers, requesting journalists, and, in featured instances, the public.

*PLS* is indexed comprehensively in full text, from its first to its latest issue, on Cambridge Core ([www.cambridge.org/pls](http://www.cambridge.org/pls)). *PLS* is indexed comprehensively from March 2004, issue 23(1), at BioOne.2 ([www.bioone.org](http://www.bioone.org)). All titles and abstracts are indexed in MEDLINE at PubMed ([www.pubmed.gov](http://www.pubmed.gov)). Back issues are archived in full text at JSTOR ([www.jstor.org](http://www.jstor.org)). *PLS* is also included in Academic Search Alumni Edition, Academic Search Premier, Academic Search Product Family, International Political Science Abstracts, Psychology & Behavioral Sciences Collection, and Social Sciences Abstracts all aggregated for institutions by EBSCOhost®, a commercial service. All submissions to *PLS* should be made online through ScholarOne at: [mc.manuscriptcentral.com/pls](http://mc.manuscriptcentral.com/pls).
