World's Poultry Science Journal

Published on behalf of
The World's Poultry Science Association

Editor

Lucy Waldron, *LWT Animal Nutrition Ltd, New Zealand*

World's Poultry Science Journal provides authoritative reviews in poultry science and an international forum for the exchange and dissemination of information including research, education and industry organisation. Each issue includes poultry industry-related news, regional reports on global developments in poultry, reports from specialist scientific working groups, book reviews, association news and a calendar of forthcoming events.

Coverage includes breeding, nutrition, welfare, husbandry, production systems, processing, product development, physiology, egg and meat quality, industry structure, economics and education.

The journal is of interest to academics, researchers, students, extension workers and commercial poultry producers.

Journal of Helminthology

Editor

John Lewis, Royal Holloway, University of London, UK

Journal of Helminthology publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology, epidemiology and biochemistry.

Journal of Dairy Research

Published for the Institute of Food Research and the Hannah Research Institute

Executive Editors

D. G. Chamberlain, *Hannah Research Institute, UK*

E. C. Needs, *Hannah Research Institute, UK*

Journal of Dairy Research publishes original scientific research on all aspects of mammary biology and dairy science including: the physiology, biochemistry, cell biology and endocrinology of lactation; animal husbandry, milk production, composition, preservation, processing and separation; biotechnology and food science; properties of milk proteins and other components; dairy products such as cheese, fermented milks and spreads; relevant studies in bacteriology, enzymology and immunology, the use of milk products in other foods; and the development of methods relevant to these subjects.

CONTENTS

Breeding and genetics

Lundgren, H., Zumbach, B., Lundeheim, N., Grandinson, K., Vangen, O., Olsen, D. and Rydhmer, L.
Heritability of shoulder ulcers and genetic correlations with mean piglet weight and sow body condition 1

Gjerlaug-Enger, E., Kongsro, J., Ødegård, J., Aass, L. and Vangen, O.
Genetic parameters between slaughter pig efficiency and growth rate of different body tissues estimated by computed tomography in live boars of Landrace and Duroc 9

Prystupa, J. M., Juras, R., Cothran, E. G., Buchanan, F. C. and Plante, Y.
Genetic diversity and admixture among Canadian, Mountain and Moorland and Nordic pony populations 19

Laureano, M. M. M., Bignardi, A. B., El Faro, L., Cardoso, V. L. and Albuquerque, L. G.
Genetic parameters for first lactation test-day milk flow in Holstein cows 31

Barrozo, D., Buzanskas, M. E., Oliveira, J. A., Munari, D. P., Neves, H. H. R. and Queiroz, S. A.
Genetic parameters and environmental effects on temperament score and reproductive traits of Nellore cattle 36

Nicoloso, L., Negrini, R., Ajmone-Marsan, P. and Crepaldi, P.
On the way to functional agro biodiversity: coat colour gene variability in goats 41

Nutrition

Matthiesen, C. F., Blache, D., Thomsen, P. D. and Tauson, A.-H.
Foetal life protein restriction in male mink (*Neovison vison*) kits lowers post-weaning protein oxidation and the relative abundance of hepatic fructose-1,6-bisphosphatase mRNA 50

Bhatt, R. S., Soren, N. M., Sahoo, A. and Karim, S. A.
Re-alimentation strategy to manoeuvre body condition and carcass characteristics in cull ewes 61

Physiology and functional biology of systems

Keller, J., Ringseis, R., Koc, A., Lukas, I., Kluge, H. and Eder, K.
Supplementation with L-carnitine downregulates genes of the ubiquitin proteasome system in the skeletal muscle and liver of piglets 70

Caperna, T. J., Shannon, A. E., Blomberg, L. A., Garrett, W. M. and Ramsay, T. G.
Iron dextran treatment does not induce serum protein carbonyls in the newborn pig 79

Behaviour, welfare and health

Andersson, K., Brunius, C., Zamaratskaia, G. and Lundström, K.
Early vaccination with Improvac®: effects on performance and behaviour of male pigs 87

Baxter, E. M., Lawrence, A. B. and Edwards, S. A.
Alternative farrowing accommodation: welfare and economic aspects of existing farrowing and lactation systems for pigs 96

Clouard, C., Meunier-Salaün, M. C. and Val-Laillet, D.
Food preferences and aversions in human health and nutrition: how can pigs help the biomedical research? (review) 118

Walstra, I., ten Napel, J., Kemp, B. and van den Brand, H.
Adaptive response to *Eimeria acervulina* in rearing hens is affected by suboptimal incubation temperature and heat exposure in later life 137

Retama-Flores, C., Torres-Acosta, J. F. J., Sandoval-Castro, C. A., Aguilar-Caballero, A. J., Cámara-Sarmiento, R. and Canul-Ku, H. L.
Maize supplementation of Pelibuey sheep in a silvopastoral system: fodder selection, nutrient intake and resilience against gastrointestinal nematodes 145

Farming systems and environment

Zehetmeier, M., Baudracco, J., Hoffmann, H. and Heißenhuber, A.
Does increasing milk yield per cow reduce greenhouse gas emissions? A system approach 154

Osorio, M. T., Moloney, A. P., Brennan, L. and Monahan, F. J.
Authentication of beef production systems using a metabolomic-based approach 167

Al-Ramamneh, D., Riek, A. and Gerken, M.
Effect of water restriction on drinking behaviour and water intake in German black-head mutton sheep and Boer goats 173
