Three meetings were arranged for the rest of the present school year 27th Jan.: "The Application of Statistics to Educational Problems," by Mr. E. R. Hamilton; 28th Mar.: "The Teaching of Geometry," by Mr. A. P. Chepman.    Summer Term (date not fixed).    A meeting to discuss the statistical inquiries suggested at the first meeting.

E. R. HAMILTON, *Secretary.*

### ERRATA.

P. 24, l. 9 up.    *For* " 0·919 " *read* " 9·319."

P. 197, last line.    *For* " $\beta \cos C = \gamma \cos B$ " *read* " $b^2\beta \cos C = c^2\gamma \cos \beta.$"

P. 198, l. 16.    *For* " $\beta \cos C = -\gamma \cos B$ " *read* " $b^2\beta \cos C = c^2\gamma \cos C.$"

[The point at which the two loci in question cut $BC$ is the foot of the perpendicular from $A_1$.]
