

ERRATUM

There is an error in the heading of Table 1 of McCormac et al., *Calibration of the radiocarbon timescale for the Southern Hemisphere: AD 1850–950*, Volume 44(3), p 641–651. Both Chilean and Tasmanian wood were included in Table 1, not just Chilean. The correct table title is given below:

Table 1 Measurements on Chilean wood samples (*Notofagus dombeyi*) from AD 1660–1891 and Tasmanian wood samples (*Lagarostrobos franklinii*) from AD 1896–1981 at the University of Washington. Uncertainties are based on counting statistics. ^{14}C ages are not given for samples later than AD 1958, after which ^{14}C from nuclear testing makes ^{14}C ages meaningless.
