

**Nutrition Research Reviews**, published annually by Cambridge University Press, presents authoritative and critical reviews of research that advance new concepts and encourage fresh thinking on a variety of nutritional problems. The journal's main objective is to encourage the exchange of fundamental ideas on nutritional well-being. The subscription (excluding VAT) to volume 8, 1995, is £49 including postage (US \$89 in USA, Canada and Mexico).

**The Proceedings of the Nutrition Society**, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £126.00 (US \$240.00 in USA, Canada and Mexico). Single issues are £44.00 (US \$85.00 in the USA, Canada and Mexico) each; postage extra.

**Copying.** This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/95 \$11.00+.10. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

## INDEX OF AUTHORS

Al, M. D. M.	55	Jackson, M. J.	69	Read, N. W.	115

CONTENTS

**Editorial**

Editorial bias. *D. A. T. Southgate* 1-2

***In vitro* measurement of dephosphorylation**

An *in vitro* procedure for studying enzymic dephosphorylation of phytate in maize-soyabean feeds for turkey poults. *Krzysztof Zyła, David R. Ledoux, Angel Garcia & Trygve L. Veum* 3-17

**Microbial probiotics in young pigs**

Effects of three microbial probiotics on postprandial porto-arterial concentration differences of glucose, galactose and amino-nitrogen in the young pig. *G. Rychen & C. Simoes Nunes* 19-26

**Diet and smoking**

Dietary change after smoking cessation: a prospective study. *R. L. Thompson, S. D. M. Pyke, E. A. Scott, S. G. Thompson & D. A. Wood* 27-38

**Diet selection**

Diet selection in sheep: the role of the rumen environment in the selection of a diet from two feeds that differ in their energy density. *S. D. B. Cooper, I. Kyriazakis & J. V. Nolan* 39-54

**EFA status in pregnancy**

Maternal essential fatty acid patterns during normal pregnancy and their relationship to the neonatal essential fatty acid status. *Monique D. M. Al, Adriana C. van Houwelingen, Arnold D. M. Kester, Tom H. M. Hasaart, André E. P. de Jong & Gerard Hornstra* 55-68

**Mineral metabolism in companion animals**

A stable isotope study of zinc kinetics in Irish setters with gluten-sensitive enteropathy. *N. M. Lowe, E. J. Hall, R. S. Anderson, R. M. Batt & M. J. Jackson* 69-76

Effect of dietary magnesium level on urinary and faecal excretion of calcium, magnesium and phosphorus in adult, ovariectomized cats. *F. J. H. Pastoor, A. Th. van 't Klooster, R. Opitz & A. C. Beynen* 77-84

Dietary phosphorus restriction to half the minimum required amount slightly reduces weight gain and length of tibia, but sustains femur mineralization and prevents nephrocalcinosis in female kittens. *F. J. H. Pastoor, R. Opitz, A. Th. van 't Klooster & A. C. Beynen* 85-100

**Inulin digestion in the small intestine**

Recovery of inulin from Jerusalem artichoke (*Helianthus tuberosus* L.) in the small intestine of man. *K. E. Bach Knudsen & I. Hessov* 101-113
