# Old Testament Introduction

**Second Edition**

*Werner H. Schmidt*

Translated by Matthew J. O'Connell with David J. Reimer  
1999. xiii + 452 pages. Hardcover \$62.95. ISBN 3-11-15775-6

Since its first appearance in English in 1984, Schmidt's book has been recognized as "solid," "readable," "balanced," and "judicious." It provides a comprehensive introduction to the complexities of the Hebrew Scriptures, and is the basic knowledge required for students of Old Testament theology.

Now in a new second English edition, this widely used textbook appears under the joint imprint of Walter de Gruyter, publishers of the fifth German edition (1995), and Westminster John Knox Press. Among the most important revisions the author has performed are a thorough reexamination of persistent controversies in Pentateuch source research; a wholly new interpretive section, delving into current biblical hermeneutics and theological controversies on the reception and meanings of the Hebrew Bible; and an up-to-date bibliography that is essential for Old Testament scholarship.

**From reviews of the first edition:**

"Now the best available introduction to the Hebrew Scriptures"  
— *Currents in Theology and Mission*

"One of the finest introductions to Old Testament study. From text to theology, Schmidt leads the reader . . . with ease and interest"  
— *Interpretation*

"Students will appreciate Schmidt's concise review of the history of interpretation, the clear and cogent summary of dominant trends in contemporary biblical scholarship, the analytical outlines of the content of individual books, and a competing exposition of the significant ideas or theological intentions."  
— *The Catholic Biblical Quarterly*

Prices subject to change.
