Expert Reviews in Molecular Medicine

Published in association with the Centre for Applied Research in Educational Technologies (CARET)

EDITORS:

ANDREA BOWDEN, *Centre for Applied Research in Educational Technologies, Cambridge, UK*
CAROLYN ELLIS, *Centre for Applied Research in Educational Technologies, Cambridge, UK*

Expert Reviews in Molecular Medicine is an exciting online journal featuring high-quality reviews of the latest developments in this fast-growing field. Coverage includes: gene therapy, immunotherapeutics, drug design, vaccines, genetic testing, pathogenesis, epidemiology, genomics, diagnostics and techniques.

Reviews are published continually on the website. The journal's innovative functionality allows viewers to access not only the review articles, but also fully abstracted references, figures, photographs, tables, animations and molecular models.

Expert Reviews in Molecular Medicine will be of interest to biomedical researchers, clinicians and students, as well as researchers in the pharmaceutical and biotechnology industries.

Access to articles published from 1997-2002 (Vols 1-4) is free; go to www.expertreviews.org to view them. Access to articles published from 2003 is by purchase/subscription.
