The geometric figure on the cover, a four-dimensional polytope, was redrawn from the inside cover page of the celebrated book 'Regular Polytopes' by Harold Scott MacDonald Coxeter (1907–2003), one of the greatest geometers of the 20th century. Coxeter, a Fellow of the Royal Society of Canada and a Fellow of the Royal Society (London), joined the University of Toronto in 1936 and worked there enthusiastically for 60 years. Since 1978, the Canadian Mathematical Society has awarded the Coxeter-James Prize in his honor.

La figure géométrique sur la couverture, un polytope en dimension quatre, a été reprise du plat intérieur du célèbre ouvrage Regular Polytopes de Harold Scott MacDonald Coxeter (1907–2003), l'un des plus grands géomètres du XXe siècle. Membre de la Société royale du Canada et de la Royal Society (Londres), H.M.S. Coxeter s'est joint au corps professoral de l'Université de Toronto en 1936, où il a travaillé avec enthousiasme pendant 60 ans. Depuis 1978, la Société mathématique du Canada décerne le prix Coxeter-James en son honneur.

The last issue incorrectly identified Antonio Lei and Javad Mashreghi as Editors-in-Chief of the *CJM*. In fact, the Editors-in-Chief are Henry Kim and Robert McCann. The journal apologizes for this error.

Dans le dernier numéro, Antonio Lei et Javad Mashreghi ont été identifiés par erreur comme les rédacteurs-en-chef du *JCM*. Les rédacteurs-en-chef du *JCM* sont plutôt Henry Kim et Robert McCann. Le journal s'excuse pour cette erreur.
