# INTERNATIONAL LAW REPORTS

---

---

Edited by E. LAUTERPACHT, Q.C.

---

Volume 51

Publication Date: 1st December 1978

The latest volume in the distinguished series which provides  
practitioners  
academics  
officials of governments and international organizations  
with English-language texts of  
decisions of international tribunals  
decisions of national courts which involve public international law

The ILR is an essential tool of research on any aspect of public international law. It is a standard work of reference regularly cited in written and oral argument before national courts and international tribunals, as well as in their judgments. Awarded the Certificate of Merit of the American Society of International Law in 1972 as "a continuing work of great distinction".

## Earlier Volumes

We are able to supply from stock either complete sets of earlier volumes or single volumes to complete existing sets. The present price of a complete set of volumes 1—50 and of the consolidated tables and indexes for volumes 1—35 and 36—45 respectively is £599 or US \$1200. Single volumes may be purchased at the following prices (inclusive of packing and postage.)

Volumes 1—47	£12.70 each	(\$25.50)
48 and 49	£20.00	(\$40.00)
50	£25.00	(\$50.00)
Index to volumes 1—35	£12.70	(\$25.50)
Index to volumes 36—45	£7.00	(\$14.00)

## New sales policy

Grotius Publications announce a new sales arrangement aimed at keeping the price of this indispensable series as low as possible.

The ILR will now be available only for direct purchase from us and at a single price. We shall offer the series outside the UK at the same price as within the UK. There will be no overseas "loading".

The prices indicated above for back volumes are the prices set for UK sales three years ago. US purchasers can at this price buy the ILR for some 15% less than previously; and much the same is true for other overseas buyers.

These prices cannot be maintained indefinitely. But orders received by the end of 1978 will be met at these prices—provided that stocks last.

So now is the time to start or complete your set of the ILR.

Orders for back volumes should be accompanied by payment.

# International Claims Their Settlement by Lump Sum Agreements

PART I: THE COMMENTARY

PART II: THE AGREEMENTS

Edited by Richard B. Lillich and Burns H. Weston

94 pp., bibliog., apps., index. 2 vols., \$37.50  
(*Procedural Aspects of International Law Institute*)

The Lump sum agreement is a means of settlement which dates back to the beginning of modern international arbitration and which has contributed greatly to the creation and clarification of the Law of International Claims. The first major work of its kind, this two-volume treatise describes and evaluates all the important substantive norms and procedural techniques found in and relevant to lump sum agreements. Part I puts the settlements in proper jurisprudential perspective, analyzing the classes of claimants that have been deemed eligible under them. It surveys the property, rights, and interests covered by lump sum agreements and the nature of compensation the agreements offer. Part II provides the complete text of the vast bulk of postwar agreements and will serve as primary source material for lawyers and scholars working in the area.

"Professors Lillich and Weston's work has quickly emerged as one of the most widely read and used studies in its field. . . .they have set high standards of intellectual probing and analysis which the Committee would not wish to see unattended by the recognition implicit in this commendation."—*Committee on Annual Awards of the American Society of International Law*

## **What's Different About the Department of State Bulletin?**

# **A World of Difference.**

### **Price**

If you are interested in world affairs, the BULLETIN may just be the best magazine bargain around. What other government or private publication can boast a 58% reduction in price? The BULLETIN is published monthly at a new subscription rate of \$18 per year—a saving of \$24.50 from the old rate of \$42.50.

### **Format**

The BULLETIN has a new look featuring a modern magazine style and an attractive, illustrated cover to highlight the major articles. Traditional foreign policy articles and speeches are supported with more charts, graphs, tables, photos, and other material useful to BULLETIN readers. In addition, the new 3-column format is designed to enhance readability.

### **Content**

After publishing as a weekly for some 39 years, the BULLETIN has become a monthly. Nevertheless, there is no reduction in the total amount of material published, thanks to the economies made possible by the 3-column format. We continue to include texts of significant foreign policy speeches, statements, and news conferences of the President, the Secretary of State, and senior Department of State officials; White House, State Department, and U.S. Mission to the U.N. press releases; and U.S. treaty actions.

Also, the BULLETIN periodically publishes special features on international affairs. Librarians, teachers, students, editors, journalists, business executives, international lawyers, and others interested in following the latest developments in international relations will find the BULLETIN essential reading. Also, filing 12 monthly issues is much simpler than filing 52 weekly copies.

## ISRAEL, THE WEST BANK AND INTERNATIONAL LAW

Allan Gerson

This book examines the legal and political aspects of more than a decade of Israeli military occupation and critically analyzes the dispute over sovereignty of the territories occupied. The author synthesizes and applies primary and technical data, draws upon interviews with Israeli, Jordanian and West Bank officials, and brings to bear his knowledge of international law, the Israeli legal system and the diplomatic history of the region to interpret the genesis of the controversy, assess the present situation and provide guidelines for future action.

Chapter I carefully sets forth the relevant international law pertaining to war, conquest and military occupation. Chapter II addresses itself to the historical and juridical basis of the Palestine question. Problems such as the question of the inadmissibility of territorial acquisition by force, the framework for Israeli withdrawal and the basis of claims for territorial retention or reversion are examined. Chapter III investigates Israeli occupational rule as it pertains to institutional change. The governmental, property and educational systems are singled out for study. Stress is placed on such issues as the legitimacy and advisability of judicial, administrative and election law reform, Israeli land settlement and acquisition policies, and textbook and curricula adjustments. Chapter IV probes the issue of sovereignty and examines whether Jordan can be deemed the rightful negotiating partner for disposition of the area, the legitimacy of PLO claims as well as those of Israel to the region, and the equities and pragmatics of proposals for a new independent Palestinian state. Special attention is given to the issue of Jerusalem's future legal status. The chapter also considers problems incidental to the termination of occupation, such as the continuing validity of occupation measures and rights and obligations derived thereunder and the enforceability and integrity of peace treaty provisions.

The book provides well reasoned assessments of the disparate claims passionately voiced by the belligerents and others relative to Israel's management of the West Bank and its ultimate disposition. Whether the reader agrees with the author's specific findings or not, he benefits by exposure to a comprehensive multidimensional framework of analysis based on international law, history and contemporary politics which enables the formation of more balanced and informed judgments on the issues of occupation and Middle East peace.

"... must reading for all concerned with foreign policy, conflict management, international law and the Middle East." Prof. John Norton Moore

*The Author:* Allan Gerson, J.S.D., LL.M., has been professor of law at the New England School of Law and is currently with the U.S. Department of Justice in Washington, D.C. In 1972-76 he spent long periods in the Middle East interviewing individuals and gathering material for this book.

# ASILS INTERNATIONAL LAW JOURNAL

Association of Student  
International Law Societies

The A.S.I.L.S. INTERNATIONAL LAW JOURNAL, only in its second year of publication, has already established itself as an important student international law journal. It is the only journal of its kind, only publishing student written articles.

Volume II will contain a major article entitled "Acquisition of Jurisdiction over Criminal Defendants by Forcible Abduction: Strict Adherence to Ker-Frisbie Frustrates United States Foreign Policy and Obligations" and several draft selections from the upcoming Association publication *ASILS International Law Citation Manual*.

It's most important feature and growing trademark is the publication of each year's Philip C. Jessup International Law Moot Court Competition Problem.

Volume II of the JOURNAL includes the 1978 Jessup Problem, along with the winning briefs submitted by students of the University of Toronto Faculty of Law.
