Why Hitler?

The Genesis of the Nazi Reich

By Samuel W. Mitcham, Jr.

This book transports the reader back to the Germany of the 1920s and 1930s, so he or she can experience what it was like to be there as Hitler and his cronies grasped for power and the foundations of the Weimar Republic crumbled.

Praeger Trade. 1996. 232 pages.

The Twisted Muse

MUSICIANS AND THEIR MUSIC
IN THE THIRD REICH

The Twisted Muse

Musicians and Their Music in the Third Reich

MICHAEL H. KATER

"Kater...has done prodigious primary research, much of it in hitherto unexamined files, to emerge with a mountain of fresh material....

Anyone seriously interested in the interface of art and a peculiarly threatening political culture will find [this book] endlessly fascinating."—*Publishers Weekly*

Is music removed from politics? To what ends, beneficent or malevolent, can music and musicians be put? In short, when human rights are grossly abused and politics turned to fascist demagoguery, can art and artists be innocent?

Michael H. Kater is Distinguished Research Professor of History at York University, Toronto, and a Fellow of the Royal Society of Canada. His most recent book has been *Different Drummers: Jazz in the Culture of Nazi Germany* (OUP, 1992).

These questions and their implications are explored in Michael Kater's broad survey of musicians and the music they composed and performed during the Third Reich. Great and small—from Valentin Grimm, a struggling clarinetist, to Richard Strauss, renowned composer—are examined by Kater, sometimes in intimate detail, and the lives and decisions of Nazi Germany's professional musicians are laid out before the reader.

Kater's examination of the value of music for the regime and the degree to which the Nazi regime attained a positive propaganda and palliative effect through the manner in which it manipulated its musicians, and by extension, German music, is of importance for understanding culture in totalitarian systems.

This work, with its emphasis on the social and political nature of music and the political attitude of musicians during the Nazi regime, will be the first of its kind. It will be of interest to scholars and general readers eager to understand Nazi Germany, to music lovers, and to anyone interested in the interchange of music and politics, culture and ideology.

Dissolution

The Crisis of Communism and the
End of East Germany

Charles S. Maier

Against the backdrop of one of the great transformations of our century, the sudden and unexpected fall of communism as a ruling system, Charles Maier recounts the history and demise of East Germany.

Dissolution is the first book that spans the communist collapse and the ensuing process of unification, and that draws on newly available archival documents from the last phases of the GDR. The book is further bolstered by Maier's extensive knowledge of European history and the Cold War, his personal observations and conversations with East Germans during the country's dramatic transition, and memoirs and other eyewitness

accounts of the four-decade history of the GDR.

"This is a beautifully written and insightful account of the collapse of the East German regime. It poses important general questions about inevitability and agency in history, and is especially good in analyzing the mood of the East German population itself. It is a wonderfully thoughtful book."—Paul M. Kennedy, Yale University

Dueling

The Cult of Honor in Fin-de-Siècle Germany

Kevin McAleer

The question of what it takes "to be a man" comes under scrutiny in this sharp, often playful, cultural critique of the German duel.

"[An] engaging and valuable monograph. . . [McAleer] has presented his account with verve, wit, and a rich and colorful vocabulary. . . This book deserves an established place in the bibliography on modern German society."—*American Historical Review*

"A positively captivating look at turn-of-the-century Germany. . ."
