

Proceedings of the
CAMBRIDGE PHILOSOPHICAL
SOCIETY

(MATHEMATICAL AND PHYSICAL SCIENCES)

VOLUME 61

CAMBRIDGE
AT THE UNIVERSITY PRESS
1965

PUBLISHED BY
THE SYNDICS OF THE CAMBRIDGE UNIVERSITY PRESS
Bentley House, 200 Euston Road, London, N.W. 1
American Branch: 32 East 57th Street, New York, N.Y. 10022

*Printed in Great Britain at the University Printing House, Cambridge
(Brooke Crutchley, University Printer)*

INDEX

	PAGE
Adams, J. F. and Walker, G. On complex Stiefel manifolds	81
Allan, G. R. A note on B^* -algebras	29
Allsbrook, Janet and Bagley, R. W. Equicontinuity and A -recursive transformation groups	333
Armstrong, M. A. On the fundamental group of an orbit space	639
Ashour, A. A. Note on the relations between series equations and integral equations	695
Bagley, R. W. (<i>Joint Author</i>). Equicontinuity and A -recursive transformation groups	333
Baker, J. W. and Petersen, G. M. Inclusion of sets of regular summability matrices. II	381
Barnett, V. D. Wald's identity and absorption probabilities for two-dimensional random walks	747
Barratt, P. J. and Collins, W. D. The scattering cross-section of an obstacle in an elastic solid for plane harmonic waves	969
Beardon, A. F. On the Hausdorff dimension of general Cantor sets	679
Bernau, S. J. On semi-normal lattice rings	613
Boyer, R. H. Rotating fluid masses in general relativity	527
Boyer, R. H. and Price, T. G. An interpretation of the Kerr metric in general relativity	531
Browder, William. Structures on $M \times R$	337
Brualdi, R. A. and Newman, M. Inequalities for permanents and permanental minors	741
Clutton-Brock, M. Feynman's kernel and the classical path	201
Collins, W. D. (<i>Joint Author</i>). The scattering cross-section of an obstacle in an elastic solid for plane harmonic waves	969
Daley, D. J. On a class of renewal functions	519
Davis, A. M. J. Two-dimensional oscillations in a canal of arbitrary cross-section	827
Elliott, Robert J. Some results in spectral synthesis	395
Elliott, R. J. Two notes on spectral synthesis for discrete Abelian groups.	617
Evans, T. An approximate solution for two-dimensional transonic flow past thin airfoils	573
Faulkner, T. R. Diffraction by a perfectly conducting wedge in an anisotropic plasma	767
Fox, Charles. An inversion formula for the kernel $K_\nu(x)$	457
Gilder, J. Betweenness and order in semigroups	13
Godwin, H. J. On the least quadratic non-residue	671

	PAGE
Good, I. J. The generalization of Lagrange's expansion and the enumeration of trees	499
Goodwin, E. T. Note on a paper by S. C. R. Dennis. (<i>Research note</i>)	299
Greenblatt, Robert. The twisted Bockstein coboundary. (<i>Research note</i>)	295
Grubb, M. Anthea. On the solution of an equation occurring in quantum mechanics	535
Halton, John H. The distribution of the sequence $\{n\xi\}$ ($n = 0, 1, 2, \dots$)	665
Halton, John H. On the relative merits of correlated and importance sampling for Monte Carlo integration	497
Hartley, B. The order-types of central series	303
Hawkins, F. M. The H -function and its application to a problem in semi-circular electron focusing in metals	433
Heading, John. Refractive index profiles based on the hypergeometric equation and the confluent hypergeometric equation	897
Hirsch, Morris W. On embedding 4-manifolds in R^7	657
Holt, A. R. H_2^+ wave functions	207
Jones, D. S. Diffraction at high frequencies by a circular disc	223
Jones, D. S. Diffraction of a high-frequency plane electromagnetic wave by a perfectly conducting circular disc	247
Keilson, J. and Wishart, D. M. G. Boundary problems for additive processes defined on a finite Markov chain	173
Kelly, G. M. Chain maps inducing zero homology maps	847
Kelly, G. M. A lemma in homological algebra	49
Kilmister, C. W. and Pirani, F. A. E. Ignorable coordinates and steady motion in classical mechanics	211
Knight, Brian. Alternative formulation of quantum mechanics	917
Larman, D. G. The approximation of G_δ -sets, in measure, by F_σ -sets	105
Leech, John. Generators for certain normal subgroups of $(2, 3, 7)$	321
Lehningk, Siegfried H. Quadratic forms as Liapunov functions for linear differential equations with real constant coefficients	883
Lickorish, W. B. R. On the homeomorphisms of a non-orientable surface	61
Love, E. R. Franz Neumann's integral of 1848	445
McAlister, D. B. On multilattice groups	621
Marshall, T. W. Statistical electrodynamics	537
Matthews, K. R. Polynomials which are near to k th powers.	1
Maunder, C. R. F. On the differentials in the Adams spectral sequence for the stable homotopy groups of spheres. I	53

	PAGE
Maunder, C. R. F. On the differentials in the Adams spectral sequence for the stable homotopy groups of spheres. II	855
Michael, D. H. Kelvin–Helmholtz instability of a dusty gas	569
Millar, R. F. On a transformation of use in multiple scattering problems	777
Morris, G. R. A differential equation for undamped forced non-linear oscillations. III	133
Morris, G. R. An infinite class of periodic solutions of $\ddot{x} + 2x^3 = p(t)$	157
Mulholland, H. P. On the degree of smoothness and on singularities in distributions of statistical functions	721
Narain, Prem. (<i>Joint Author</i>). Certain two-dimensional problems of stress distribution in wedge-shaped elastic solids under discontinuous load	945
Nash-Williams, C. St. J. A. On well-quasi-ordering infinite trees	697
Nash-Williams, C. St. J. A. On well-quasi-ordering transfinite sequences	33
Neuwirth, Lee. In-groups, coverings, and imbeddings	647
Newman, M. (<i>Joint Author</i>). Inequalities for permanents and permanent minors	741
Nigam, G. D. A note on Milne-Thomson's general solution of Navier–Stokes equations	915
Pears, A. R. On topological games	165
Petersen, G. M. (<i>Joint Author</i>). Inclusion of sets of regular summability matrices. II	381
Pirani, F. A. E. (<i>Joint Author</i>). Ignorable coordinates and steady motion in classical mechanics	211
Price, T. G. (<i>Joint Author</i>). An interpretation of the Kerr metric in general relativity	531
Purushothama, C. M. Magneto-thermo-elastic plane waves	939
Ragab, F. M. and Simary, M. A. Integrals involving products of generalized Whittaker functions	429
Rajagopal, C. T. and Reddy, A. R. On a functional equation	673
Ranger, K. B. Stokes flow between two intersecting circular arcs	271
Rao, J. Krishna and Vaidya, P. C. Gravitational radiation in homogeneous cosmological models with space-sections of constant negative curvature	763
Read, G. A. Note on the continuity of lacunary structure in Taylor's interpolation series	109
Reade, J. B. On cardinal numbers associated with locally compact Abelian groups	75
Reade, J. B. A theorem on cardinal numbers associated with inductive limits of locally compact Abelian groups	69
Reddy, A. R. (<i>Joint Author</i>). On a functional equation	673
Reid, G. A. Concepts of differentiability and analyticity on certain classes of topological groups	347
Riley, N. Unsteady heat transfer in compressible boundary layers	555

	PAGE
Roberts, P. H. and Stewartson, K. On the motion of a liquid in a spheroidal cavity of a precessing rigid body. II	279
Robertson, S. A. and Schwarzenberger, R. L. E. Vector bundles that fill n -space	698
Sarma, G. N. A general theory of unsteady compressible boundary layers with and without suction or injection	795
Sarma, G. N. Unified theory for the solutions of the unsteady thermal boundary-layer equation	809
Sayer, F. P. A problem of a thin circular plate transversely loaded and rigidly held on its boundary	289
Schwarzenberger, R. L. E. (<i>Joint Author</i>). Vector bundles that fill n -space	869
Shail, R. On the forced torsional oscillations of an elastic cylinder	955
Shivakumar, P. N. A note on a paper by Milne-Thomson. (<i>Research note</i>)	300
Simary, M. A. (<i>Joint Author</i>). Integrals involving products of generalized Whittaker functions	429
Smith, M. G. The isotropic scattering of radiation from a point source in a finite spherical atmosphere	923
Smith, R. A. Bounds for the characteristic exponents of linear systems	889
Sneddon, Ian N. A note on the problem of the penny-shaped crack	609
Srivastav, R. P. and Narain, Prem. Certain two-dimensional problems of stress distribution in wedge-shaped elastic solids under discontinuous load	945
Srivastava, H. M. Some expansions of generalized Whittaker functions	895
Stewartson, K. (<i>Joint Author</i>). On the motion of a liquid in a spheroidal cavity of a precessing rigid body	279
Stroud, P. W. On a property of verbal and marginal subgroups	41
Trustrum, G. B. Mrs Perkins's quilt	7
Ursell, F. Integrals with a large parameter. The continuation of uniformly asymptotic expansions	113
Vaidya, P. C. (<i>Joint Author</i>). Gravitational radiation in homogeneous cosmological models with space-sections of constant negative curvature	763
Varma, V. K. On a multiple integral representation of a kernel of Fox	469
Varopoulos, N. Th. A note on the abstract Wiener–Pitt phenomenon. (<i>Research note</i>)	297
Varopoulos, N. Th. A theorem on the Bohr compactification of a locally compact Abelian group	65
Wadsworth, M. and Wragg, A. On matrix methods for the solution of partial differential equations	129
Walker, G. (<i>Joint Author</i>). On complex Stiefel manifolds	81
Wall, C. T. C. Unknotting tori in co-dimension one and spheres in co-dimension two	659

Index

	PAGE
Ward, A. J. Notes on general topology. I	877
Ward, A. J. Notes on general topology. II	879
Ward, A. J. Notes on general topology. III	881
Ward, G. N. The electromagnetic fields of moving dipoles	547
Ward, G. N. Some fields associated with a moving point, and weak solutions of the wave equation	191
Whittle, P. Statistical processes of aggregation and polymerization	475
Williams, W. E. A note on diffraction by a right-angled wedge	275
Willis, D. M. A property of the zeros of a cross-product of Bessel functions	425
Willson, A. J. On the stability of two superposed fluids	595
Wishart, D. M. G. (<i>Joint Author</i>). Boundary problems for additive processes defined on a finite Markov chain	173
Wood, W. W. Linear equations with elements $(1/m) k(n/m) \delta_{nm}$ and infinitely many variables	781
Wragg, A. (<i>Joint Author</i>). On matrix methods for the solution of partial differential equations	129
<i>Proceedings</i>	983
<i>Statement of Accounts</i>	987

The following papers have been accepted for publication and will appear shortly:

- IRWIN, M. C. Polyhedral immersions.
- SCRUTON, TERESA. Bounds for the class of nilpotent wreath products.
- COHN, P. M. A remark on matrix rings over free ideal rings.
- LARMAN, D. G. and WARD, D. J. On convex sets and measures.
- THOMPSON, C. L. Carleman's formula for subharmonic functions.
- SMITH, D. HAMMOND. Hyperspaces of a uniformizable space.
- BHARGAVA, R. D. and KAPOOR, O. P. Circular inclusion in an infinite elastic medium with a circular inhomogeneity.
- JOSEPH, V. A homogeneous space-time.
- HALTON, J. H. An interpretation of negative probabilities.
- LOVITCH, L. On the corrector formulas for the numerical solution of the Schrödinger equation for central fields.
- BASSALI, W. A. & BARSOUM, F. R. Bending of an eccentrically loaded and concentrically supported thin circular plate. I.
- WILLSON, A. J. The propagation of magneto-elastic plane waves.
- WAGONER, J. B. Bundle structures on manifolds.
- MILNER, E. C. On a conjecture of Conway.
- LEECH, JOHN. Note on the abstract group (2, 3, 7; 9).
- LUDFORD, G. S. S. and SINGH, M. P. The hydromagnetics of an ellipsoid moving in an aligned field.
- OKIKIOLU, G. O. Fourier transforms and the operator H_α .
- WULFSOHN, A. The reduced dual of a direct product of groups.
- WARD, A. J. A counter-example in uniformity theory.
- DOYLE, P. H. Two weak Poincaré theorems.

CONTENTS OF BIOLOGICAL REVIEWS

Vol. 40, No. 4. November 1965

- I. ZELITCH. Environmental and biochemical control of stomatal movement in leaves.
- HANS MEIDNER and T. A. MANSFIELD. Stomatal responses to illumination.
- ROBERT H. MACARTHUR. Patterns of species diversity.
- W. R. PHILIPSON and JOSEPHINE M. WARD. The ontogeny of the vascular cambium in the stem of seed plants.
- J. GREEN. Chemical embryology of the Crustacea.
