J. C. BUCKNILL, M.D., F.R.C.P., F.R.S., and D. HACK TUKE, M.D., F.R.C.P.

"It is not too much to say that it is the best and most favourably known to the medical and legal professions, by both of whom it is quoted as the highest authority. It has acquired this enviable standing from the high reputation of its authors, from the correctness of the views and opinions expressed, and from its fulness. More than any work by English authors it deals with the subject of insanity in all its relations."—*Amer. Journ. of Insanity*.
