

CORRIGENDUM

Range extensions for heterobranch sea slugs (formerly opisthobranch) belonging to the families Diaphanidae, Plakobranchidae and Facelinidae on the eastern coast of Australia – CORRIGENDUM

MATT J. NIMBS, RICHARD C. WILLAN AND STEPHEN D.A. SMITH

doi: 10.1017/S1755267215000524, Published by Cambridge Journals Online, 20 May 2015.

Keywords: climate change, *Colpodaspis thompsoni*, *Elysia pusilla*, *Phidiana bourailli*, *Herviella claror*, corrigendum

In this paper an image of an undetermined *Bosellia* sp. (Plakobranchidae) from Sandy Beach (= Low Reef) was inadvertently published in Fig. 2(B) rather than an image of an *Elysia pusilla* as intended. Despite the incorrect published image, the record of *E. pusilla* from Sandy Beach remains correct. A replacement image of *E. pusilla* from Sandy Beach is provided herewith.

Fig. 2(B).
