EDITORIAL POLICY

The *Journal of Social Policy* is concerned with the historical and theoretical analysis of social policy and with processes and problems in the implementation of social policy at both national and local levels. It explores the relationship of social administration to all the social sciences as well as to social work and social action. Its scope is international and it draws on research and developments in other countries besides Britain. The *Journal* assumes no doctrine save the value of social administration as an intellectual discipline in itself and as a contributor to social welfare.
