

L A W S

OF THE

ROYAL SOCIETY OF EDINBURGH,

AS REVISED 19<sup>TH</sup> JANUARY 1880.

# TRANSACTIONS

OF THE

## ROYAL SOCIETY OF EDINBURGH.

VOL. XXIX. PART II.—FOR THE SESSION 1879–80.

### CONTENTS.

	Page
ART. XIII.— <i>On Minding's System of Forces.</i> By Professor CHRYSTAL, . . . . .	519
XIV.— <i>On the Action of Sulphide of Potassium upon Chloroform.</i> By W. W. J. NICOL, M.A. Communicated by Professor CRUM BROWN, . . . . .	531
XV.— <i>A New Method of Investigating Relations between Functions of the Roots of an Equation and its Coefficients.</i> By J. DOUGLAS HAMILTON DICKSON, M.A., Fellow and Tutor of St Peter's College, Cambridge, . . . . .	535
XVI.— <i>On the Phenomena of Variegation and Cell-Multiplication in a Species of Entero-morpha.</i> By P. GEDDES, F.R.S.E., Demonstrator of Vegetable Histology in the University of Edinburgh. (Plate XIII.), . . . . .	555
XVII.— <i>On the Disruptive Discharge of Electricity.</i> Part IV. By A. MACFARLANE, M.A., D.Sc., F.R.S.E., and P. M. PLAYFAIR, M.A. (Plate XIV.), . . . . .	561
XVIII.— <i>Researches in Thermometry.</i> By EDMUND J. MILLS, D.Sc., F.R.S. Communicated by Professor Sir WILLIAM THOMSON, D.C.L., F.R.S., . . . . .	567
XIX.— <i>Preliminary Note on the Compressibility of Glass.</i> By J. Y. BUCHANAN, . . . . .	589
XX.— <i>On the Variation with Temperature of the Electrical Resistance of Wires of certain Alloys.</i> By Professor J. G. MACGREGOR, D.Sc., and C. G. KNOTT, D.Sc., . . . . .	599
XXI.— <i>On the Differential Telephone.</i> By Professor CHRYSTAL, . . . . .	609
XXII.— <i>Notice of the Completion of the New Rock Thermometers at the Royal Observatory, Edinburgh, and what they are for.</i> By Professor PIAZZI SMYTH, Astronomer Royal for Scotland. (Plate XV.), . . . . .	637
XXIII.— <i>Note on a Theorem in Geometry of Position.</i> By Professor TAIT. (Plate XVI.), . . . . .	657
XXIV.— <i>On the Structure and Arrangement of the Soft Parts in Euplectella aspergillum.</i> By Professor FRANZ EILHARD SCHULZE, Gratz. Communicated by Sir WYVILLE THOMSON, V.P.R.S.E. (Plate XVII.), . . . . .	661
XXV.— <i>On Minding's Theorem.</i> By Professor TAIT, . . . . .	675

# CONTENTS.

---

## PART I. (1878-79.)

	PAGE
I.— <i>Chapters on the Mineralogy of Scotland.</i> Chapter Fifth.— <i>The Micas; with description of Haughtonite, a new Mineral Species.</i> By PROFESSOR HEDDLE, . . . . .	1
II.— <i>General Theorems on Determinants.</i> By THOMAS MUIR, M.A., .	47
III.— <i>Chapters on the Mineralogy of Scotland.</i> Chapter Sixth.— <i>“Chloritic Minerals.”</i> By PROFESSOR HEDDLE, . . . . .	55
IV.— <i>On some Physiological Results of Temperature Variations.</i> By JOHN BERRY HAYCRAFT, M.B., C.M., B.Sc., Assistant to the Professor of Physiology, Edinburgh University. Communicated by Professor TURNER, one of the Secretaries to the Society. (Plate I.), . . . . .	119
V.— <i>On the Physiological Actions of Drugs on the Secretion of Bile.</i> By WILLIAM RUTHERFORD, M.D., F.R.SS. L. and E., Professor of the Institutes of Medicine in the University of Edinburgh, . . . . .	133
VI.— <i>On some New Bases of the Leucoline Series.</i> Part II. By G. CARR ROBINSON, F.R.S.E., and W. L. GOODWIN, . . . . .	265

	PAGE
VII.— <i>On some New Bases of the Leucoline Series. Part III.—The Action of Iodide of Methyl on Tetracoline, Pentacoline, Hexacoline, Heptacoline, and Octacoline.</i> By G. CARR ROBINSON, F.R.S.E., and W. L. GOODWIN, . . . . .	273
VIII.— <i>On the Transmission of Sound by Loose Electrical Contact.</i> By JAMES BLYTH, M.A., . . . . .	281
IX.— <i>The Solar Spectrum in 1877–78, with some practical idea of its probable temperature of Origination.</i> By PIAZZI SMYTH, F.R.S.E. and Astronomer Royal for Scotland. (Plate II.), . . . . .	285
X.— <i>On the Structure and Affinities of the Platysomidæ.</i> By RAMSAY H. TRAQUAIR, M.D., F.R.S.E., Keeper of the Natural History Collections in the Museum of Science and Art, Edinburgh. (Plates III.–VI.), . . . . .	343
XI.— <i>The Anatomy of the Northern Beluga (Beluga catodon, Gray; Delphinapterus leucas, Pallas) compared with that of other Whales.</i> By MORRISON WATSON, M.D., F.R.S.E., and ALFRED H. YOUNG, M.B., &c., of the Owens College, Manchester. (Plates VII. and VIII.), . . . . .	393
XII.— <i>On the Carboniferous Volcanic Rocks of the Basin of the Firth of Forth—their Structure in the Field and under the Microscope.</i> By Professor GEIKIE, LL.D., F.R.S., Director of the Geological Survey of Scotland. (Plates IX.–XII.) . . . . .	437

---

PART II. (1879-80.)

XIII.— <i>On Minding's System of Forces.</i> By Professor CHRYSTAL, . . . . .	519
XIV.— <i>On the Action of Sulphide of Potassium upon Chloroform.</i> By W. W. J. NICOL, M.A. Communicated by Professor CRUM BROWN, . . . . .	531

	PAGE
XV.— <i>A New Method of Investigating Relations between Functions of the Roots of an Equation and its Coefficients.</i> By J. DOUGLAS HAMILTON DICKSON, M.A., Fellow and Tutor of St Peter's College, Cambridge, . . . . .	535
XVI.— <i>On the Phenomena of Variegation and Cell-Multiplication in a Species of Enteromorpha.</i> By P. GEDDES, F.R.S.E., Demonstrator of Vegetable Histology in the University of Edinburgh. (Plate XIII.), . . . . .	555
XVII.— <i>On the Disruptive Discharge of Electricity.</i> Part IV. By A. MACFARLANE, M.A., D.Sc., F.R.S.E., and P. M. PLAYFAIR, M.A. (Plate XIV.), . . . . .	561
XVIII.— <i>Researches in Thermometry.</i> By EDMUND J. MILLS, D.Sc., F.R.S. Communicated by Professor Sir WILLIAM THOMSON, D.C.L., F.R.S., . . . . .	567
XIX.— <i>Preliminary Note on the Compressibility of Glass.</i> By J. Y. BUCHANAN, . . . . .	589
XX.— <i>On the Variation with Temperature of the Electrical Resistance of Wires of certain Alloys.</i> By Professor J. G. MACGREGOR, D.Sc., and C. G. KNOTT, D.Sc., . . . . .	599
XXI.— <i>On the Differential Telephone.</i> By Professor CHRYSTAL, . . . . .	609
XXII.— <i>Notice of the Completion of the New Rock Thermometers at the Royal Observatory, Edinburgh, and what they are for.</i> By Professor PIAZZI SMYTH, Astronomer Royal for Scotland. (Plate XV.), . . . . .	637
XXIII.— <i>Note on a Theorem in Geometry of Position.</i> By Professor TAIT. (Plate XVI.), . . . . .	657

	PAGE
XXIV.— <i>On the Structure and Arrangement of the Soft Parts in Euplectella aspergillum.</i> By Professor FRANZ EILHARD SCHULZE, Gratz. Communicated by Sir WYVILLE THOMSON, V.P.R.S.E. (Plate XVII.), . . . . .	661
XXV.— <i>On Minding's Theorem.</i> By Professor TAIT, . . . . .	675
