

# INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

VOLUME 30, NUMBER 9

SEPTEMBER 2009

## ORIGINAL ARTICLES

- 817 Intervention with an Infection Control Bundle to Reduce Transmission of Influenza-Like Illnesses in a Thai Preschool** • Anucha Apisarnthanarak, MD; Piyaporn Apisarnthanarak, MD; Boonsri Cheevakumjorn, PhD; Linda M. Mundy, MD
- 823 Closed-Hub Systems with Protected Connections and the Reduction of Risk of Catheter-Related Bloodstream Infection in Pediatric Patients Receiving Intravenous Prostanoid Therapy for Pulmonary Hypertension** • D. Dunbar Ivy, MD; Michelle Calderbank, RN, BSN; Brandie D. Wagner, PhD; Susan Dolan, RN, MS, CIC; Ann-Christine Nyquist, MD, MSPH; Michael Wade, PhD; William M. Nickels; Aimee K. Doran, MS, RN, CPNP
- 830 Patients' Beliefs and Perceptions of Their Participation to Increase Healthcare Worker Compliance with Hand Hygiene** • Yves Longtin, MD; Hugo Sax, MD; Benedetta Allegranzi, MD; Stéphane Hugonnet, MD; Didier Pittet, MD, MS
- 840 Contaminated Product Water as the Source of *Phialemonium curvatum* Bloodstream Infection among Patients Undergoing Hemodialysis** • Carol Y. Rao, ScD; Constance Pachucki, MD; Salvatore Cali, MPH; Mangai Santhiraj, MPH; Kathi L. K. Krankoski, BS; Judith A. Noble-Wang, PhD; David Leehey, MD; Subhash Popli, MD; Mary E. Brandt, PhD; Mark D. Lindsley, ScD; Scott K. Fridkin, MD; Matthew J. Arduino, DrPH
- 848 Pseudo-Outbreak of "*Mycobacterium paraffinicum*" Infection and/or Colonization in a Tertiary Care Medical Center** • Shu-Hua Wang, MD, MPH&TM; Preeti Pancholi, PhD; Kurt Stevenson, MD, MPH; Mitchell A. Yakrus, MS, MPH; W. Ray Butler, MS; Larry S. Schlesinger, MD; Julie E. Mangino, MD
- 854 Active Surveillance for Methicillin-Resistant *Staphylococcus aureus* in the Neonatal Intensive Care Unit** • Vanessa Sarda, MD; Anne Molloy, MSN, CIC; Shirahi Kadkol, MD, PhD, HCLD, FCAP, FASCP; William M. Janda, PhD; Ronald Hershov, MD; Marcella McGuinn, MD
- 861 Relationship between the Prevalence of Methicillin-Resistant *Staphylococcus aureus* Infection and Indicators of Nosocomial Infection Control Measures: A Population-Based Study in French Hospitals** • Leslie Grammatico-Guillon, MD; Jean-Michel Thiolet, MD; Pascale Bernillon, PhD; Bruno Coignard, MD; Babak Khoshnood, MD, PhD; Jean-Claude Desenclos, MD, PhD
- 870 Use of a T Cell Interferon- $\gamma$  Release Assay to Evaluate Tuberculosis Risk in Newly Qualified Physicians in Singapore Healthcare Institutions** • C. B. E. Chee, MBBS, FRCP; L. K. Y. Lim, BSc; T. M. Barkham, MBBS, MRC Path; D. R. Koh, MBBS, FRCP; S. O. Lam, RN; L. Shen, PhD; Y. T. Wang, MBBS, FRCP
- 876 Screening for Tuberculosis Infection in Spanish Healthcare Workers: Comparison of the QuantiFERON-TB Gold In-Tube Test with the Tuberculin Skin Test** • Eva Elisa Álvarez-León, MD, PhD; Elizabeth Espinosa-Vega, MD; Évora Santana-Rodríguez, PhD; Jesús M. Molina-Cabrillana, MD, PhD; Jose Luis Pérez-Arellano, MD, PhD; Jose Antonio Caminero, MD, PhD; Pedro Serrano-Aguilar MD, PhD
- 884 Risk Factors for Spinal Surgical Site Infection, Houston, Texas** • Kelley M. Boston, MPH; Sarah Baraniuk, PhD; Shana O'Heron, MPH; Kristy O. Murray, DVM, PhD

# ARE YOU STILL WAITING?

Real-time communication from the laboratory is the key to combating life-threatening sepsis and antimicrobial resistance. How are you notified of these important results?

*"Utilization of the Sentinel™ (software) provides clinical and infection control data on the average of 17 hours more rapidly than current process."*<sup>1</sup>

*"...BD EpiCenter™ and Sentinel™ (software) optimizes infection control management and antimicrobial therapy by improving time to detection and immediate notification."*<sup>1</sup>

Today microbiologists, infection control officers, physicians and pharmacists need immediate access to patient-focused information to rapidly identify and react to emerging resistance or HAI events. BD EpiCenter™ Data Management System can provide the real-time data access and analysis tools clinicians can use to improve patient care.

For more information and a demonstration of BD EpiCenter, visit BD booth #508 at ICAAC September 11-14, 2009 in San Francisco, CA

Helping all people live healthy lives

# THE SOCIETY FOR HEALTHCARE EPIDEMIOLOGY OF AMERICA

Infection prevention and control in healthcare settings is a critical public health problem rapidly gaining interest.

**Are you current with the latest trends and evidence?**

**Join SHEA Today!**

Stay on top of emerging science and evidence-based strategies to prevent and control infections and to improve quality-of-care in your healthcare facility.

SHEA supports members' efforts to improve patient care and healthcare worker safety through:

- Research
- Education & Training
- Policy Development
- Evidence-based Practical Guidelines
- Mentorship and Professional Development

#### **Application Details**

[www.shea-online.org](http://www.shea-online.org)

[info@shea-online.org](mailto:info@shea-online.org)

(703) 684-1006

Annual membership offers:

- Subscription and online access to *Infection Control and Hospital Epidemiology (ICHE)*, the official journal of SHEA
- Epidemiology News and e-newsletter
- Discounted registration on SHEA educational programming
- Online member network and job board

*The Society for Healthcare Epidemiology of America*

## Roche. In it for life.

From HIV to HAI, we are the only company with more than 20 years of experience in molecular diagnostics.

**Our expertise in PCR assays and instruments can improve patients' healthcare.**

As a pioneer with the COBAS® AmpliPrep/COBAS® TaqMan® System and assays for HCV, HBV, and HIV, Roche has made a significant contribution to infectious disease medicine. You can trust Roche as the only company with more than 20 years of knowledge and experience in molecular diagnostics.

**The trusted company with multiple platform technologies to customize your needs.**

Because every facility has its own unique demands and constraints, Roche can select the optimal platform, enabling you to better serve your institution and its patients.

**Start-to-finish capabilities from research to manufacturing to sales, field service, and technical support.**

You can depend on us for product support and technical proficiency. Roche provides in-house expertise with superior convenience and fast, personal customer service.

**Now innovating PCR for detection of Healthcare Associated Infections (HAIs).**

Make Roche your partner to reduce the prevalence of multidrug-resistant organisms and associated infections in your institution. Look to us for advanced assays to rapidly identify infectious agents so you can treat sooner. Trust Roche to bring its pioneering expertise in PCR assays and instruments to combat HAIs.

## CONCISE COMMUNICATIONS

- 890 **Pseudo-Outbreak of Respiratory Syncytial Virus Infection in a Neonatal Intensive Care Unit Due to Cross-Reactivity of Surfactant and a Rapid Immunoassay** • Dawn Terashita Gastelum, MD, MPH; Ashley Peterson, MPH; Laurene Mascola, MD, MPH; David Dassey, MD, MPH; Elizabeth Camargo, BA, CIC
- 893 **Rotavirus Infection in Neonates at a University Hospital in Korea** • Chang-Ryul Kim, MD; Jae Won Oh, MD; Myung Kul Yum, MD; Jung Han Lee, MD; Jung Oak Kang, MD
- 896 **Adherence to Self-Quarantine Recommendations during an Outbreak of Norovirus Infection** • Supriya Rao, MD; Nicole Scattolini de Gier, MSc; L. Brett Caram, MD; Joyce Frederick, MSN, CIC; Mary Moorefield, RN; Christopher W. Woods, MD, MPH
- 900 **Hepatitis C Virus Transmission in Hemodialysis Units: Importance of Infection Control Practices and Aseptic Technique** • Nicola D. Thompson, PhD; Ryan T. Novak, PhD; Deblina Datta, MD; Susanne Cotter, MBBS; Matthew J. Arduino, DRPH; Priti R. Patel, MD; Ian T. Williams, PhD; Stephanie R. Bialek, MD
- 904 **Evaluation of Patients' Mask Use after the Implementation of Cough Etiquette in the Emergency Department** • Yves Longtin, MD; Christophe Akakpo, RN; Olivier T. Rutschmann, MD, MPH; Didier Pittet, MD, MS; Hugo Sax, MD
- 909 **Control of Healthcare-Associated *Staphylococcus aureus*: Survey of Practices in North Carolina Hospitals** • David J. Weber, MD, MPH; Karen K. Hoffmann, RN, MPH; William A. Rutala, PhD, MPH; Deborah G. Pyatt, BA
- 912 **Methicillin-Resistant *Staphylococcus aureus* Colonization of House Officers** • Anna A. Barbosa, MD, MPH; Kim Chapin, MD; Leonard A. Mermel, DO, ScM
- 915 **Routine Replacement versus Clinical Monitoring of Peripheral Intravenous Catheters in a Regional Hospital in the Home Program: A Randomized Controlled Trial** • Patricia Van Donk, NP, GradDip(AdvClinPrac), MN; Claire M. Rickard, BN, GradDip(CritCare), PhD; Matthew R. McGrail, BSc, GradDip(IT), PhD; Glenn Doolan, BAppSc(AdvNurs), MNA

## RESEARCH BRIEF

- 918 **Colonization with Multiple *Staphylococcus aureus* Strains among Patients in European Intensive Care Units** • A. L. A. Bloemendaal, MD; A. C. Fluit, PhD; W. T. M. Jansen, PhD; M. R. Vriens, MD, PhD; T. Ferry, MD, PhD; J. M. Amorim, MD; A. Pascual, MD, PhD; S. Stefani, MD, PhD; J. Papaparaskevas, MD, PhD; I. H. M. Borel Rinkes, MD, PhD; J. Verhoef, MD, PhD

## LETTERS TO THE EDITOR

- 921 **An Evaluation of Compliance with an Antibiotic Policy in Surgical Wards at a General Teaching Hospital in Northern Ireland** • Mamoon A. Aldeyab, PhD; Salah M. Elshibly, MD, PhD; James C. McElnay, PhD; Elizabeth Davies, MB BCh BAO, FRCPath; Michael G. Scott, PhD; Fidelma A. Magee, BSc; Paul Leyden, MB, BCh, FFARCS(I); Mary P. Kearney, MB BCh BAO, FRCPath
- 922 **Outbreak of Chemical Meningitis Following Spinal Anesthesia Caused by Chemically Related Bupivacaine** • Marcelo Cordeiro dos Santos, MD, MSc; Bernardino Claudio de Albuquerque, MD, MSc; Rossicléia Lins Monte, MSc; Gilberto Gama Filho, MD; Maria das Graças Costa Alecrim, MD, PhD

*Infection Control and Hospital Epidemiology* (ISSN 0899-823X) is published monthly by the University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637-2954 (<http://www.journals.uchicago.edu/ICHE/>). The editorial office is in Chicago, Illinois.

**Editorial Office**

Communications should be addressed to the Editor, *Infection Control and Hospital Epidemiology*, 1427 E. 60th St., Chicago, IL 60637-2954; (e-mail: [iche@press.uchicago.edu](mailto:iche@press.uchicago.edu)); telephone: 773-773-2298, fax: 773-753-4247. Contributors should consult the Information for Authors, which is available at the journal's Web site.

**Advertising**

Please direct advertising inquiries to Journals Advertising, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: [cbarhany@press.uchicago.edu](mailto:cbarhany@press.uchicago.edu)); telephone: 773-702-8187; fax: 773-702-0172). Publication of an advertisement in *Infection Control and Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by the University of Chicago. Correspondence regarding advertising should be addressed to the advertising office in Chicago.

**Permissions**

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may be obtained from the Copyright Clearance Center (<http://www.copyright.com>). For all other uses, such as copying for general distribution,

for advertising or promotional purposes, for creating new collective works, or for resale, please contact the Permissions Coordinator, Journals Division, University of Chicago Press, 1427 E. 60th St., Chicago, IL 60637 (e-mail: [journalpermissions@press.uchicago.edu](mailto:journalpermissions@press.uchicago.edu); fax: 773-834-3489). Articles in the public domain may be used without permission, but it is customary to contact the author.

**Subscriptions**

Subscription rates for 2009 are \$171 for individuals and \$401 for institutions. Additional rates for non-US subscribers and reduced rates for fellows, residents, and students are available at <http://www.journals.uchicago.edu/ICHE>. Subscription agent for Japan: Kinokuniya Company, Ltd. Individuals have the option to order directly from the University of Chicago Press. Single copy rates: individuals \$18; institutions \$40.

Please direct subscription inquiries, requests for back issues, and address changes to Journals Division, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637 (e-mail: [subscriptions@press.uchicago.edu](mailto:subscriptions@press.uchicago.edu); telephone: 773-753-3347 or toll-free in the United States and Canada 877-705-1878; fax: 773-753-0811 or toll-free 877-705-1879).

**Postmaster:** Send address changes to *Infection Control and Hospital Epidemiology*, University of Chicago Press, P.O. Box 37005, Chicago, IL 60637-2954.

Periodicals postage paid at Chicago, Illinois, and at an additional mailing office.

Published by the University of Chicago Press, Chicago, Illinois. © 2009 by the Society for Healthcare Epidemiology of America. All rights reserved. This publication is printed on acid-free paper.

## CHG formula doesn't go down the drain.

### Chlorhexidine Gluconate (CHG) No-Rinse Cloths:

STAYS ON YOUR PATIENTS' SKIN TO FIGHT MDROs

They achieve compliance to your SSI prevention protocol and mirror current clinical guidelines:

**"To gain the maximum antiseptic effect of chlorhexidine, it must be allowed to dry completely and not be washed off."**<sup>1</sup>

*—SHEA Compendium of Strategies To Prevent Healthcare-Associated Infection in Acute Care Hospitals*

**"Patients undergoing open class I surgical procedures below the chin should have two (2) preoperative showers with chlorhexidine gluconate (CHG) before surgery, when appropriate."**<sup>2</sup>

*—AORN Guidelines for Preoperative Skin Antisepsis*

📞 Call 1-800-323-2220 for a free sample.

### Proven results

One facility saw a 66% reduction in SSIs and a cost avoidance of \$349,000 over a 10-month period when using Sage 2% CHG Cloths.<sup>3</sup>

[www.sageproducts.com/CHG](http://www.sageproducts.com/CHG)

1. SHEA, Oct 2008, Vol. 29, Supplement 1, 558. 2. Perioperative Standards and Recommended Practices, AORN, Inc., 2008, 537-555. 3. Rhee H, Harris B. Preoperative Skin Preparation Protocol Results in Reduced SSI Rates, Institute for Healthcare Improvement (IHI), Orlando, FL, December 2007.

## WHAT MAKES THE CLAVE DIFFERENT?

The CLAVE has been engineered with fail-safe features which help mitigate bacterial transfer into the patient's catheter.

# CLAVE<sup>®</sup>

## Connector Technology

Don't be fooled by the sales gimmicks, look to the evidence.

- CLAVE supported a statistically significant lower BSI rate compared to another connector. (*Moore, 2009*)
- CLAVE demonstrates the best barrier to bacterial transfer compared to all connectors. (*Ryder, 2007*)
- CLAVE was proven to support a lower occurrence of bloodstream infections when compared to a positive pressure device. (*Maragakis, 2006*)
- CLAVE showed a lower occurrence of intraluminal catheter colonization in a randomized clinical trial. (*Bouza, 2003*)
