# Public Service

We are very proud of the men and women who represent this Company in the field.

Stress has been laid upon the definite policy followed in the development of our field forces. This policy is based on the rigid selection and thorough training. It is based also on the belief that the buying public is entitled to and needs now, more than ever before, intelligent, well-informed, conscientious advice and service in connection with the arrangement of life insurance estates, regardless of their size.
