SERIES B APPLIED MATHEMATICS

VOLUME XX — PART 2

December 1977

JAMES M. HILL	<i>Generalized shear deformations for isotropic incompressible hyperelastic materials</i>	129
J. M. BLATT and J. D. GRAY	<i>An elementary derivation of Pontryagin's maximum principle of optimal control theory</i>	142
JAMES P. ABBOTT and RICHARD P. BRENT	<i>A note on continuation methods for the solution of nonlinear equations</i>	157
G. M. WEBB	<i>A monoenergetic-source solution of the steady-state cosmic-ray equation of transport</i>	165
MITSURU NAKAI and LEO SARIO	<i>Green's function of the clamped punctured disc</i>	175
J. V. CORBETT and C. A. HURST	<i>Are wave functions uniquely determined by their position and momentum distributions?</i>	182
W. BRISLEY	<i>Two related estimation problems</i>	202
I. L. COLLINGS and R. GRIMSHAW	<i>Supercritical flow of an ideal fluid over a spillway</i>	211
J. J. SHEPHERD	<i>A nonlinear singular perturbation problem on a semi-infinite interval</i>	226
J. R. PHILIP	<i>Inverse power law potentials about polygonal prisms and in polygonal cavities</i>	241
Erratum		
JAMES P. ABBOTT and RICHARD P. BRENT	<i>Fast local convergence with single and multistep methods for nonlinear equations</i>	254

Printed and Published for

THE AUSTRALIAN MATHEMATICAL SOCIETY

THE JOURNAL

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series. Series A (Pure Mathematics) and Series B (Applied Mathematics). Information about Series A may be found on the inside back cover.

SERIES B APPLIED MATHEMATICS

This series will be published in volumes, comprising four parts, starting with volume XIX Part I in 1975. Initially two parts will be published annually. Subscriptions may be arranged through the Business Manager (see inside back cover). The annual cost in 1977 will be A\$18.

Manuscripts (two copies) for publication should be sent to the editor or to an appropriate associate editor at the address given below.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Editor of the Journal

I. H. SLOAN, School of Mathematics, The University of New South Wales, P.O. Box 1, Kensington, N.S.W., Australia, 2033.

Associate Editors

B. ANDERSON,
Department of Electrical
Engineering,
University of Newcastle,
Newcastle, N.S.W. 2308.

V. T. BUCHWALD,
School of Mathematics,
University of N.S.W.,
P.O. Box 1, Kensington,
N.S.W. 2033.

V. G. HART,
Department of Mathematics,
University of Queensland,
St Lucia, Qld 4067.

C. A. HURST,
Department of Mathematical
Physics,
University of Adelaide,
Adelaide, S.A. 5000.

M. OSBORNE,
Computer Centre,
Australian National University
P.O. Box 4,
Canberra, A.C.T. 2600.

S. ROSENBLAT,
Department of Mathematics
University of Melbourne,
Parkville, Vic. 3052.

W. E. SMITH,
School of Mathematics,
University of N.S.W.,
P.O. Box 1, Kensington,
N.S.W. 2033.

C. J. THOMPSON,
Department of Mathematics,
University of Melbourne,
Parkville, Vic. 3052.

E. O. TUCK,
Department of Applied
Mathematics,
University of Adelaide,
Adelaide, S.A. 5000.

Assistant Editor

N. G. BARTON, School of Mathematics, The University of New South Wales, P.O. Box 1, Kensington, N.S.W., Australia, 2033.

Authors receive 50 free offprints of their papers; additional offprints may be ordered at cost. Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences, excluding statistics. Novel applications of mathematics in real situations are welcomed. Authors are encouraged to write an introduction accessible to the whole applied mathematical community. Every effort will be made to publish suitable material with a minimum of delay.
