## History of the Indies

"An epoch-making and controversial work. Not only does it give a lengthy and well-documented account of the Spanish discovery and conquest of the New World from 1492 to 1520; it also contains the first sustained criticism of the conquest . . . raises much larger questions."

## **The Alliance That Lost Its Way**

*A Critical Report on the Alliance for Progress*

by **Jerome Levinson and Juan de Onis**

"The Alliance for Progress is dead. It was, while it lasted, surely one of the nobler ventures of U.S. foreign policy. Levinson and de Onis, who saw it all for 10 years — the one as a high Alliance official, the other as The New York Times' Latin American correspondent — have put together a superb record of it."

## **The Containment Of Latin America**

*A History of the Myths and Realities of the Good Neighbor Policy*

by **David Green**

"Green traces the course of U.S.-Latin American relations through the New Deal and the Truman administration. The discussion of the World War II period is valuable especially for its thesis that the war clinched Latin American dependence on the U.S. (contrary to the prevalent view that it catalyzed autarchic industrial growth) . . . Lucid, straightforward research."

## **The Rockefeller Report On The Americas**

"If the traditional U.S. policy goal of encouraging stable economic and social development south of the border is still sound, the last decade has proven that the means to it are still poorly understood. And the Rockefeller commission has shown a refreshing tendency to pay attention to the realities of Latin America too often ignored in the often naive policies of the sixties."
