

K-Tek Nanotechnology, LLC

K-Tek Nanotechnology, a distributor of NT-MDT, supplies the most well-known and latest technology the SPM industry has to offer. With proven quality and competitive pricing, our products—that use only the best materials—will keep your AFM equipment working smoothly. Our products are compatible with NT-MDT systems, as well as all other manufacturers.

- **Standard Probes**—Contact, Noncontact, Tapping modes
- **Specialty Tips**—Top Visual, DLC—Super sharp, Diamond Coated
- **Colloidal Probes**—Submicron, Micron spheres
- **HOPG**—Highly laminar graphite for atomic-scale calibration
- **Calibration Gratings**—AFM and Submicron calibration, SNOM Test Gratings
- **SPM Supplies**—Substrates, Test Samples

K-Tek supplies high-quality probes and accessories for simple atomic force microscopes for education to specialized AFMs for scientific research, industry, and nanotechnology centers.
