
Final Program Addendum

2016 Mid-Year Meeting

International Neuropsychological Society

July 6-8, 2016
London, England

Wednesday 6th July 2016

Parallel Session A

CE Session B: Traumatic brain injury and offending - Can neurorehabilitation reduce crime?

Professor Huw Williams will be assisted by Miriam Cohen

CE Session C: Home or outpatient based holistic rehabilitation - Helping clients understand brain Injury

Professor Barbara Wilson will be assisted by Dr Jill Winegardner

The **Student meet and Greet** will be held 11.30-12.00

Development and validation of the children's cognitive screening instrument

Ingram Wright will present in place of Lois Coy

Neurorehabilitation in multiple sclerosis

Convenor: Nadina Lincoln

Chair and Discussant: Anita Rose

Speakers: Nadina Lincoln, Shona Logan-King, Sinead Hynes

Nadina Lincoln will be presenting on Memory Rehabilitation in MS: On the bumpy road to establishing evidence

Shona Logan-King will be presenting on Evaluation of a first line model of cognitive rehabilitation for individuals with MS

Sinead Hynes will be presenting on Tackling Cognition through doing: a cognitive occupational based programme for people with MS (COB-MS)

Parallel Session B

No amends to this session

Parallel Session C

No amends to this session

Poster Session 1, 11.00 - 13.00, Ballroom Foyer (Floor -2)

Aging		
11	Jose Lara-Ruiz	PRESENTATION WITHDRAWN: Pattern of ADL performance across older adults with different types of cognitive impairment
(18)	Miranda Smit	PRESENTATION WITHDRAWN: Developmental patterns of visuotactile prediction in peripersonal space
18 moved from 19	Artemis Stefani	Executive functioning performance among older Cypriots with depression symptoms: Results from the neurocognitive study on aging
Mild Cognitive Impairment		
29	Marco Timpano Sportiello	PRESENTATION WITHDRAWN: Differences in memory profile between PD-MCI patients and MCI patients of different etiologies on the Wechsler Memory Scale-IV

Poster Session 2, 14.30 - 17.00, Ballroom Foyer (Floor -2)

Dementia (Alzheimer's Disease)		
10	Nidhi Dev will present in place of Jwala Narayanan	The Fifteen minute Assessment of Cognition over the Telephone (FACT): A telephone interview to detect and monitor cognitive deficits in dementia

Thursday 7th July 2016

Parallel Session D

The modality that neuropsychology neglected: Interoception

Convenor: Paul Jenkinson

Discussant: Aikaterini (Katerina) Fotopoulou

Speakers: Aikaterini (Katerina) Fotopoulou, Sarah Garfinkel, Hyeong-Dong Park

Agustín Ibañez will no longer be presenting

Parallel Session E

No amends to this session

Poster Session 3, 08.30 - 10.30, Ballroom Foyer (Floor -2)

Memory Functions		
5	Faraneh Vargha-Khadem will present in place of Anna Dzieciol	Distinct white matter correlates of intelligence and memory: Evidence from developmental amnesia
Cognitive Neuroscience		
23	Francesca Meneghello will present in place of Daniel Blackburn	Conversation analysis in the memory clinic- Distinguishing dementia from functional memory disorder
Executive Functions/Frontal Lobes		
47	Anders Gade	PRESENTATION WITHDRAWN: Switch if you can: A comparison of phonemic, semantic and alternating fluency, and fluency switching, in pre-manifest and manifest Huntington disease.
50	Justin Miller will present in place of Denise LaBelle	Dissociation of executive and attentional elements of the digit span task in a population of older adults: A Latent class analysis

Poster Session 4, 14.00 - 16.00, Plaza Foyer (Floor -4)

Cognitive Intervention/Rehabilitation		
38	Francesca Meneghello will present in place of Matteo De Marco	Cognitive stimulation of the default-mode network in patients with mild cognitive impairment
45	Therese Gilligan	PRESENTATION WITHDRAWN: Rethinking the hemispheric re-balancing account of prism adaptation

Friday 8th July 2016

Parallel Session F

No amends to this session

Parallel Session G

Complexity of assessment for people in prolonged disorders of consciousness

Convenor: Anita Rose

Discussant: Agnes Shiel

Speakers: Samira Dhamapurkar, Olivia Gosseries

Samira Dhamapurkar will be presenting on Delayed Recovery from the Vegetative and Minimally Conscious State
Olivia Gosseries will be presenting on the use of neuroimaging technique in the diagnosis of DoC

Poster Session 5, 08.30 - 10.30, Ballroom Foyer (Floor -2)

Acquired Brain Injury, including TBI/Cerebrovascular Injury and Disease (Child)		
4	Noga Balaban	PRESENTATION WITHDRAWN: Learning from right brain damaged individuals about two aspects of meaning
27	Ingram Wright will present in place of Declan Heaslewood	Evolution of post-concussion symptoms in a consecutive sample of children presenting to the emergency department
28 moved from 32	Louise Owen	The Development of a self-harm pathway for assessing and supporting children and young people with acquired brain injury in a paediatric residential neurorehabilitation service.
31	Phil Yates will present in place of Steve Mahan	A systematic review of psychological interventions to rehabilitate prospective memory deficits as a consequence of acquired brain injury
32 moved from 28	Phil Yates will present in place of Sian Hocking	"We knew our lives were changed forever from that point" - Parental Adjustment and the role of social support in paediatric acquired brain injury: An interpretative phenomenological analysis
Psychopathology/Neuropsychiatry (Including Schizophrenia)		
42	Dung Pham	PRESENTATION WITHDRAWN: Neural correlates of antidepressant treatment response in adolescents with major depressive disorder

Poster Session 6, 15.00 - 17.00, Ballroom Foyer (Floor -2)

Epilepsy		
3 moved from 12	Mariana Cairós will present in place of Emilio Verche	Learning effects in a planning task in children and adults with frontal lobe epilepsy
12 moved from 3	Ingram Wright will present in place of Tara Devoy	The Mirror Memory Task - Concurrent validity and sensitivity to temporal lobe dysfunction
Language and Speech Functions/Aphasia		
22	Juliane Cuperus will present in place of Ingrid Feiter	Cognitive differentiation of disorders in communication and social interaction in children with specific language Impairment and autism spectrum disorder
23	Aviah Gvion will present in place of Naama Friedmann	Surface dyslexia as a result of a deficit to the phonological output lexicon
Learning Disabilities/Academic Skills		
50	Maya Yachini	PRESENTATION WITHDRAWN: The distribution of various types of developmental dysgraphia
