JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

AUGUST 1968

VOL. 10 PART 3

OLIVER & BOYD LTD
EDINBURGH AND LONDON

INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Animal Production publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

Contributions may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. *Notes* are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

Manuscripts should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. *Two* copies of the typescript (one of illustrations) should be sent to

Dr. Gerald Wiener,
Animal Production,
A.R.C. Animal Breeding Research Organisation,
West Mains Road, Edinburgh 9.

Manuscripts are not returned with proofs; authors should therefore retain copies.

For guidance to the general style which should be adopted in the writing and presentation of papers authors are referred to *General Notes on the Presentation of Scientific Papers* (2nd revised ed., 1965) published by the Royal Society, London (price 5s.). Points of detail applying particularly to *Animal Production* are given below.

Illustrations. The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board or stout tracing paper. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

Index Veterinarius

A COMPLETE BIBLIOGRAPHY
OF VETERINARY LITERATURE

This subject and author index of current literature on veterinary and related sciences is produced by the Commonwealth Bureau of Animal Health and was first published in 1933. It is issued quarterly and each year about 15,000 references are listed.

For compilation of the *Index* 700 periodicals in 22 languages are searched and coverage embraces the whole world.

Annual subscription is 300s. (\$39) (reduced rate to residents in British Commonwealth or Republic of Ireland—140s.). Orders may be sent to the Central Sales Branch, Commonwealth Agricultural Bureaux, Farnham Royal, Slough, Bucks.

ANIMAL BREEDING ABSTRACTS

is such an invaluable guide to the latest literature on livestock breeding and production that we can hardly believe you have not heard of it (110s. annually, or 210s. if you live outside the British Commonwealth or the Republic of Ireland) BUT do you know about our
