## CONTENTS OF VOLUME 72 (2015)

## VOL. 72, No. 1, MARCH 2015

- Molecular phylogeny indicates polyphyly in *Raphanus* L. (Brassicaceae).  
J. ZIFFER-BERGER, N. HANIN, T. FOGEL, K. MUMMENHOFF & O. BARAZANI 1
- Distribution patterns and areas of endemism of Brazilian *Jacquemontia*  
(Convolvulaceae) species. M. T. BURIL, J. R. MACIEL & M. ALVES 13
- The distribution of woody legumes in neotropical dry forests: the  
Pleistocene Arc Theory 20 years on. V. Y. MOGNI, L. J. OAKLEY  
& D. E. PRADO 35
- A monographic revision of the genus *Podocarpus* (Podocarpaceae): II.  
The species of the Caribbean Bioregion. R. R. MILL 61
- Book review*
- Leaf Defence*, by Edward E. Farmer 187
- Publication dates for Volume 71 and onwards 189

## VOL. 72, No. 2, JULY 2015

- Are the Neotropical swamp forests a distinguishable forest type?  
Patterns from southeast and southern Brazil. B. C. KURTZ, J. L. VALENTIN  
& F. R. SCARANO 191
- Rhododendron pseudomaddenii* (Ericaceae), a new species from India.  
A. A. MAO & M. BHAUMIK 209
- Author attribution and lectotypification of the name *Bauhinia*  
*diphylla* (Fabaceae: Caesalpinioideae). S. BANDYOPADHYAY 215
- Eriocaulon biappendiculatum*, a new species of Eriocaulaceae from the  
Southern Western Ghats, India. K. M. MANUDEV, A. J. ROBI & S. NAMPY 219
- Cedrela ngobe* (Meliaceae), a new species from Panama and Costa Rica.  
A. V. KÖCKE, A. N. MUELLNER-RIEHL, O. CÁCERES & T. D. PENNINGTON 225
- A new species of *Gyrocheilos* (Gesneriaceae) from Vietnam.  
D. J. MIDDLETON 235
- Diplycosia mekonggaensis* (Ericaceae, Gaultherieae), a new species from  
Sulawesi, Indonesia. G. ARGENT & E. A. WIDJAJA 239
- A monographic revision of the genus *Podocarpus* (Podocarpaceae): III.  
The species of the Central America and Northern Mexico Bioregions.  
R. R. MILL 243

## VOL. 72, No. 3, NOVEMBER 2015

Taxonomy of <i>Begonia serotina</i> (Begoniaceae) and allied species. M. C. TEBBITT, C. E. TOAPANTA A. & Á. J. PÉREZ	343
A revision of <i>Facchinia</i> ( <i>Minuartia</i> s.l., Caryophyllaceae). M. S. DILLENBERGER & J. W. KADEREIT	353
Contribution to the flora and biogeography of the Kiklades: Folegandros Island (Kiklades, Greece). K. KOUGIOUMOUTZIS, A. TINIAKOU, O. GEORGIU & T. GEORGIADIS	391
Plant species described by William Griffith in 'Some account of the botanical collection brought from the eastward by Dr. Cantor'. I. M. TURNER	413
Lectotypification of <i>Stephania pierrei</i> (Menispermaceae). C. DARY, S. HUL, S. KIM & F. JABBOUR	423
<i>Kuepferia pringlei</i> (Gentianaceae), a new species from the Eastern Himalaya. S. K. DEY & D. MAITY	429
Reviewers for Volume 72	437
Index to Volume 72	439

# Experimental Agriculture

## Editor

Dave Harris, *ICRISAT, Kenya*

*Experimental Agriculture* publishes the results of original research from any source on the agronomy of field, plantation and herbage crops grown for human or animal food; for industrial purposes; and on systems of agricultural production, particularly in the warmer regions of the world. It is especially concerned with experimental work designed to explain agronomic results in biological and environmental terms. The journal publishes accounts of new experimental techniques, new methods of crop production and discusses problems in countries where production is developing rapidly. There are regular book reviews and occasional, often invited, reviews of research.

# The Journal of Agricultural Science

## Senior Editor (Animal papers)

Julian Wiseman, *University of Nottingham, UK*

## Senior Editor (Crops & Soils papers)

Paul Bilsborrow, *Newcastle University, UK*

*The Journal of Agricultural Science* publishes papers concerned with the advance of agriculture and the use of land resources throughout the world. It publishes original scientific work related to strategic and applied studies in all aspects of agricultural science, including: crop and animal physiology, modelling of crop and animal systems, the scientific underpinning of agronomy and husbandry, engineering solutions, decision support systems, land use, environmental impacts of agriculture and forestry, impacts of climate change, rural biodiversity, experimental design and statistical analysis, the application of new analytical and study methods (including molecular studies). The journal also publishes book reviews and letters.

# Journal of the Marine Biological Association of the United Kingdom

Published for the Marine Biological Association of the United Kingdom

## Executive Editor

Dr. P. R. Dando, The Marine Biological Association of the UK, Plymouth, UK

## Editor-in-Chief

Michale Thorndyke, Royal Swedish Academy of Sciences, Sweden

*JMBA* is an international journal, publishing original research on all aspects of marine biology. It includes pioneering work on major issues concerning marine organisms and their environment. Subjects covered include: ecological surveys and population studies of marine communities; physiology and experimental biology; taxonomy, morphology and life history of marine animals and plants; and chemical and physical oceanographic work.

# Journal of Tropical Ecology

## Editor

Ian Turner, Winchelsea, UK

*Journal of Tropical Ecology* publishes papers in the important and now established field of the ecology of tropical regions, either arising from original research (experimental or descriptive) or forming significant reviews. First published in 1985, *Journal of Tropical Ecology* has become a major international ecological journal. With clear, stimulating and readable reports of recent research findings, the journal provides a platform for the dissemination of information on all aspects of tropical communities and ecosystems

# Journal of Helminthology

## Editor

John Lewis, Royal Holloway, University of London, UK

*Journal of Helminthology* publishes original papers and review articles on all aspects of pure and applied helminthology, particularly those helminth parasites of environmental health, medical or veterinary importance. Research papers on helminths in wildlife hosts, including plant and insect parasites, are also published along with taxonomic papers contributing to the systematics of a group. The journal will be of interest to academics and researchers involved in the fields of human and veterinary parasitology, public health, microbiology, ecology, epidemiology and biochemistry.

# The Lichenologist

Published on behalf of The British Lichen Society

## Senior Editor

Peter D. Crittenden, University of Nottingham, UK

*The Lichenologist* is the premier scientific journal devoted exclusively to the study of lichens worldwide. As the leading forum for the dissemination of new concepts and topical reviews, *The Lichenologist* reaches more scientists concerned with the study of lichens and lichen symbionts than any other single journal. All aspects of lichenology are considered including systematics and phylogenetics; molecular biology; ultrastructure, anatomy and morphology; secondary chemistry, effects of pollutants and use as bioindicators; biogeography.

CAMBRIDGE  
UNIVERSITY PRESS

*Edinburgh Journal of Botany* is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that link traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to [ejb@rbge.org.uk](mailto:ejb@rbge.org.uk). All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. The **language** of the journal is UK English. Authors whose mother tongue is not English should have their papers checked by a fluent or proficient English speaker before submission.

There are no page charges. A PDF offprint will be supplied free of charge to the corresponding author. Paper offprints may be purchased through the publisher. Colour plates may be included in the online version free of charge; the cost of including colour plates in the printed version will be charged to the author. Halftone plates are free of charge both online and in print.

Text pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used other than in specimen citations where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. Correspondence will be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

**Author abbreviations** should precisely follow: *The International Plant Names Index*, <http://www.ipni.org/index.html>; *Index Fungorum, Authors of Fungal Names*, [http://www.indexfungorum.org/authorsof\\_fungalnames.htm](http://www.indexfungorum.org/authorsof_fungalnames.htm).

**Herbarium abbreviations** should follow: *Index Herbariorum. Part I: The Herbaria of the World*, <http://sweetgum.nybg.org/ih/>.

**Journal abbreviations** should follow: *BPH Online*, [http://fmhibd.library.cmu.edu/fmi/iwp/cgi?-db=BPH\\_Online2014&-loadframes](http://fmhibd.library.cmu.edu/fmi/iwp/cgi?-db=BPH_Online2014&-loadframes).

**Book title abbreviations** should follow: *Taxonomic Literature*, <http://www.sil.si.edu/digitalcollections/tl-2/index.cfm> except that all abbreviated words should be capitalised, e.g. Sp. Pl. not Sp. pl.

**References in the text** should be cited by author and publication date: (Smith, 2014) or 'as stated by Smith (2014)'. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the reference list, references should be in alphabetical order and should appear in the following style:

KNOFF, P., SCHULZ, C., LITTLE, D. P., STÜTZEL, T. & STEVENSON, D. W. (2012). Relationships within Podocarpaceae based on DNA sequence, anatomical, morphological, and biogeographical data. *Cladistics* 28: 271–299.

NOLTIE, H. J. (2013). *The Botanical Collections of Colonel and Mrs Walker: Ceylon, 1830–1838*. Edinburgh: Royal Botanic Garden Edinburgh.

ZHANG, Y. X. & LI, D. Z. (2013). History of and recent advances in plant taxonomy. In: HONG, D. Y. & BLACKMORE, S. (eds) *Plants of China: A Companion to the Flora of China*, pp. 256–278. Beijing: Science Press.

**Tables** should be numbered in arabic numerals and carry a descriptive title. **Figures**, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Line drawings should be scanned in black and white at 600 dpi and photographs at 300 dpi (but correspond with the editor if this should prove problematic) and sent electronically with the manuscript. Please use LZW compression for tif files, remove excess space and elements from around the image, and crop or scale the image to the journal page size (12.5 × 19.5 cm to include caption). A measured scale mark should be included on each illustration to indicate magnification.

**First View:** Articles may be made available online before the issue in which they appear is published, though this is not possible in the case of nomenclatural acts, such as new species descriptions and lectotypifications. Cambridge University Press normally publishes the electronic version of the journal simultaneously with the paper edition in order to avoid problems of priority in nomenclature. Authors whose work contains no nomenclatural acts, and who wish their article to be published electronically before it is published on paper, may inform the editor.

**Open Access:** Cambridge Open Option allows authors the option to make their articles freely available to everyone, immediately on publication. For further information see the online Instructions for Contributors at <http://journals.cambridge.org/ejb>.
