CONTENTS

	PAGE
Born, M. IX. Covariant theory of lattice deformations and the stability of some hexagonal lattices. (Corrigenda to the paper On the stability of crystal lattices)	262
Bronowski, J. An inequality relating means	253
Dainty, J. and Feather, N. Absorption and coincidence experiments with ^{198}Au	57
Dean, W. R. On the shearing motion of fluid past a projection	19
— Note on the shearing motion of fluid past a projection	214
Dean, W. R., Parsons, H. W. and Sneddon, I. N. A type of stress distribution on the surface of a semi-infinite elastic solid	5
Eddington, Sir A. S. The evaluation of the cosmical number	37
Feather, N. and Dainty, J. Absorption and coincidence experiments with ^{198}Au	57
Fuchs, W. H. J. A theorem of finite differences with an application to the theory of Hausdorff summability	189
Goldstein, S. On the limiting values for infinite pitch of a parameter occurring in airscrew theory	146
Gow, Margaret M. The thermodynamics of crystal lattices. IV. The elastic constants of a face-centred cubic lattice with central forces	151
Gray, L. H. The ionization method of measuring neutron energy	72
Green, A. E. Double Fourier series and boundary value problems	222
Hardy, G. H. Note on the multiplication of series by Cauchy's rule	251
Hardy, G. H. and Littlewood, J. E. Note on the theory of series (XXIII): On the partial sums of Fourier series	103
Holgate, S. The effect of a hole on certain stress distributions in aeolotropic and isotropic plates	172
Hoyle, F. On the origin of the solar system	256
Hsüeh, C. F. and Ma, S. T. Scattering of charged mesons under the influence of radiation damping	167
Littlewood, J. E. and Hardy, G. H. Note on the theory of series (XXIII): On the partial sums of Fourier series	103
Ma, S. T. and Hsüeh, C. F. Scattering of charged mesons under the influence of radiation damping	167
Mahler, K. On lattice points in the domain $ xy \leq 1$, $ x+y \leq \sqrt{5}$, and applications to asymptotic formulæ in lattice point theory (I)	107
— On lattice points in the domain $ xy \leq 1$, $ x+y \leq \sqrt{5}$, and applications to asymptotic formulæ in lattice point theory (II)	116

	PAGE
Parsons, H. W., Dean, W. R. and Sneddon, I. N. A type of stress distribution on the surface of a semi-infinite elastic solid	5
Pitt, H. R. On a class of integro-differential equations	199
Pocklington, H. C. Quadratic and higher reciprocity of modular polynomials	212
Segre, B. On the quartic surface $x_1^4 + x_2^4 + x_3^4 + x_4^4 = 0$	121
Sneddon, Ian N. The stress distribution due to a force in the interior of a semi-infinite elastic medium	229
Sneddon, I. N., Dean, W. R. and Parsons, H. W. A type of stress distribution on the surface of a semi-infinite elastic solid	5
Stokes, A. R. and Wilson, A. J. C. A method of calculating the integral breadths of Debye-Scherrer lines: generalization to non-cubic crystals	197
Temperley, H. N. V. Contributions to the theory of cooperative phenomena	239
Todd, J. A. The geometry of the binary quintic form	1
Weiss, P. On hydrodynamical images. Arbitrary irrotational flow disturbed by a sphere	259
Wilson, A. J. C. and Stokes, A. R. A method of calculating the integral breadths of Debye-Scherrer lines: generalization to non-cubic crystals	197
PROCEEDINGS	264
BALANCE SHEET	265
