

# ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

**OCTOBER 1972**

**VOL. 15 PART 2**

LONGMAN

## INFORMATION FOR CONTRIBUTORS TO *ANIMAL PRODUCTION*

Detailed notes for guidance in the preparation of manuscripts are printed in Volume 13, pages ix to xx. A few general points are given below.

*Animal Production* publishes papers on original research provided that they have not been and, with the exception of authors' summaries, will not be published elsewhere without the Editors' written permission. Authors' summaries can be reproduced if full acknowledgement of the source is made.

*Contributions* may be in the field of animal production, or in any related scientific field. Reports on techniques will be published only as appendices to scientific papers. Results of research which do not warrant a comprehensive presentation may be submitted for consideration as *Notes*. Notes are not intended for the publication of interim results. They should not exceed 2000 words or the equivalent inclusive of tables and illustrations.

*Manuscripts* should be typewritten in double spacing with wide margins. Each page and the lines on each page should be numbered. Two copies of the typescript (and of illustrations) should be sent to

Dr. Gerald Wiener,  
Animal Production,  
A.R.C. Animal Breeding Research Organisation,  
West Mains Road, Edinburgh EH9 3JQ, Scotland

Manuscripts are not returned with proofs; authors should therefore retain copies.

*Units of measurement.* Metric units should be used. SI units will be accepted but are not obligatory.

*Symbols and abbreviations.* Authors should consult the notes prepared for guidance. Levels of statistical significance which can be indicated without explanation are : \* =  $P < 0.05$ , \*\* =  $P < 0.01$ , \*\*\* =  $P < 0.001$ .

*Illustrations.* The same material should not normally be presented in tables and figures. Legends should be typed on a separate sheet.

- (a) Diagrams should be drawn in Indian ink, about twice the size of the finished block, on Bristol board, stout tracing paper or plastic film. Photographed diagrams are also accepted. Lettering inside the framework of the diagram should be inserted in Indian ink. Marginal lettering may, if preferred, be inserted lightly in pencil.
- (b) Photographs intended for half-tone reproduction should be on glossy paper. They will be accepted only if found necessary by the Editors.
- (c) Colour plates are unlikely to be accepted unless authors bear the cost.

*Tables* should be as simple and as few as possible. When constructing tables, it would be helpful if authors would take into account the size and shape of the pages of *Animal Production*.

[Continued on inside back cover

## ERRATUM

ANIMAL PRODUCTION, Volume 14, part 2, p. 203

EFFECT OF LEVEL OF FEED INTAKE ON THE PERFORMANCE AND CARCASS  
COMPOSITION OF GROWING PIGS

by R. S. Barber, R. Braude, K. G. Mitchell and R. J. Pittman

In Table 3 (p. 203) of this paper, the entry for Daily gain (kg) on Treatment 5 should read 0·84 (NOT 0·48).

## ERRATUM

ANIMAL PRODUCTION, Volume 15, part 1, p. 2

STUDIES ON BELGIAN PIETRAIN PIGS—1

by I. J. Lean, M. K. Curran, J. E. Duckworth and W. Holmes

On p. 2 in the section on *Ration composition and feed scale* the first sentence of the fourth paragraph should be amended to read: 'The planned feed scale was 1 kg meal at 23 kg live weight increasing to 2·3 kg at 45 kg live weight, above this weight the allowance increased by 0·5 kg per 20 kg increase in live weight.'

# AMERICAN SOCIETY OF ANIMAL SCIENCE

PUBLISHERS OF THE MONTHLY

## *Journal of Animal Science*

113 North Neil Street, Champaign, Illinois 61820

The Journal of Animal Science is published monthly by the American Society of Animal Science. It contains papers dealing with livestock production problems and review papers on subjects of general interest to those dealing with livestock production problems. Papers are classified in the table of contents under the following headings: Applied Animal Science, Breeding and Genetics, Meat Science and Muscle Biology, Nonruminant Nutrition, Physiology and Endocrinology, Ruminant Nutrition, and Teaching.

All persons engaged or previously engaged in investigation, instruction or extension in animal production or in the production of livestock products are eligible for membership in the Society. Membership may be obtained after formal application sponsored by one member of the Society in good standing, the payment of dues, and election by the membership committee. The annual membership dues are: U.S. and Canada, \$20.00; South and Central America, \$20.50; other countries, \$21.00; and this includes a subscription to the Journal of Animal Science.

Correspondence concerning subscriptions, purchase of single copies and back issues and related business should be addressed to the Business Manager, Claude Cruse, 425 Illinois Building, 113 North Neil Street, Champaign, Illinois 61820, U.S.A. The subscription price for nonmembers is \$24.00 in the United States and Canada, \$24.50 in the rest of North and South America, and \$25.00 in other places. Checks should be made payable to the American Society of Animal Science. Foreign subscribers are requested to remit by international money order or by a draft on a New York bank.

## The British Journal of Nutrition

Volume 27, Number 3, March 1972

### CLINICAL AND HUMAN NUTRITION

- Inverse relationship between sugar intake and relative weight
- Energy intake and expenditure of Indian schoolboys
- Relationship between Hess tests and leucocyte ascorbic acid
- Work level, dietary nitrogen intake and sweat losses in a hot climate
- Glucose tolerance and insulin sensitivity in malnourished children
- Seasonal variation in megaloblastic anaemia

### GENERAL NUTRITION

- Zinc-protein interaction in chicks and quail
- Effect of nutritive value of proteins on protein synthesis in vitro in rat skeletal muscle
- Use of hydroxyproline analysis to predict protein quality of meats
- Digestion of concentrates in sheep. 4
- Metabolism of linoleic acid by the young lamb
- Mechanisms of heat damage in proteins. 3
- Effect on growth and carcass composition of feeding reconstituted and dried milk to calves
- Growth and development of rats on a low-protein diet
- Metabolism of propane-1: 2-diol infused into the rumen of sheep
- Effect of intravenous infusions of sterculic acid on milk fat synthesis
- Folate nutrition in the kid
- Calculation of heat production from open-circuit calorimetric measurements

£4.00 net (\$12.00 in USA). Annual subscription £18.00 net (\$55.00 in USA)  
for six issues

**CAMBRIDGE UNIVERSITY PRESS**

## Experimental Agriculture

Volume 8, Part 3, July 1972

### Contents include

- RAMON S. DE LA PENA and DONALD L. PLUCKNETT: Effects of Nitrogen Fertilization on the Growth, Composition and Yield of Upland and Lowland Taro (*Colocasia Esculenta*).
- T. P. ABRAHAM and A. HOUBAKHT: Effects of Soil and Management Factors on Fertilizer Responses and Yield of Irrigated Wheat in Iran.
- SHOICHI YOSHIDA and F. T. PARAO: Performance of Improved Rice Varieties in the Tropics with Special Reference to Tillering Capacity.
- P. C. OWEN: Effects of Night Temperature on Growth and Development of IR8 Rice.
- G. A. MATTHEWS: Effects of Nitrogen, Sulphur, Phosphorus and Boron on Cotton in Malawi.
- MENASHE HOROWITZ: Effects of Frequent Clipping on Three Perennial Weeds, *Cynodon Dactylon* (L) Pers., *Sorghum Halepense* (L) Pers. and *Cyperus Rotundus* L.
- A. REHMAN CHOWDHRY, AMIR MOHAMMAD and MOHAMMED ZARIF QAZI: Heterosis for Grain Yield and its Components in Spring Wheat Crosses.

### BOOK REVIEWS:

Termites and Soils

£2.00 (\$6.50) each. Annual subscription £7.00 (\$23.00)

**CAMBRIDGE UNIVERSITY PRESS**

P.O. Box 92, London NW1 2DB  
32 East 57th Street, New York, N.Y. 10022

# COMMONWEALTH BUREAU OF NUTRITION

## Annotated Bibliographies

A new series in which abstracts and titles of papers on specific topics are brought together. The period covered will usually be from 1950 to the most recent abstracts available in *Nutrition Abstracts and Reviews*. The latest Annotated Bibliographies are:

- AB 4A Use of urea and ammonium compounds for ruminants. Pt. 2. 279 references. Price £6.00  
AB 25 Early weaning of lambs. 149 references. Price £3.00.  
AB 26 Digestion and absorption of amino acids by ruminants. 160 references. Price £3.20  
AB 27 Utilisation of potatoes and their by-products by livestock. 223 references. Price £2.25  
AB 28 Effect of dietary copper on livestock, poultry and laboratory animals.  
461 references. Price £4.50  
AB 29 Nutritional muscular dystrophy in cattle and sheep. 169 references. Price £1.75  
AB 30 Arsenicals for livestock and poultry. 56 references. Price £0.60  
AB 31 Nutrition of domestic ducks and geese. 361 references. Price £3.50.  
AB 32 Nutritive value of rapeseed meal for livestock and poultry. 135 references. Price £2.70  
AB 6 (Rev. ed.) Fungi and unicellular algae as foods. 406 references. Price £8.00.

## The British Veterinary Journal

The only monthly periodical published in Great Britain devoted exclusively to the study and practice of veterinary medicine in all its branches and to recording scientific progress in the veterinary field throughout the World. It circulates among veterinary surgeons, research workers, lecturers, zoologists, animal breeders, agriculturalists, agricultural colleges and farms, veterinary colleges, The Ministry of Agriculture, Fisheries and Food; Institutes and field stations. It contains fully illustrated and documented articles (with abstracts appearing in French, German and Spanish) on animal husbandry and disease prevention by distinguished contributors, including research specialists, lecturers and practitioners from all countries, are a feature of the journal. It has always maintained a high standard and an international reputation and is indispensable to every veterinary surgeon to enable him to keep up-to-date with the advance of veterinary science.

*Published monthly*

*Annual Subscription £8.00*

*U.S.A. and Canada \$25.00*
