Theses on American Topics in Progress and Completed at British Universities 271

*The Journal of American Studies* publishes work on American history, institutions, politics, geography, literature and related subjects. Articles which cross conventional borders between disciplines are particularly welcome, as are comparative studies of American and other cultures. It also disseminates information about work in progress and provides a platform for the exchange of scholarly information and opinion. Contributors need not be members of the British Association for American Studies.
