

NOTICES

The International Commission on Zoological Nomenclature has received the following **Applications**, which were published in the *Bulletin of Zoological Nomenclature* 47 (1), 27 March 1990. Comment or advice on them is invited for publication in the *Bulletin*, and should be sent to the Executive Secretary, ICZN, c/o The Natural History Museum, Cromwell Road, London SW7 5BD, U.K.

Case no. 2721. *Bathynomus* A. Milne Edwards, 1879 (Crustacea, Isopoda): proposed precedence over *Palaega* Woodward, 1870.

Abstract. The purpose of this application is to conserve the name of a well known genus of deep-sea isopods, *Bathynomus* A. Milne Edwards, 1879. It is threatened by the fossil genus *Palaega* Woodward, 1870, with which it is sometimes synonymized.

Case no. 2726. *Mammuthus* Brookes, 1828 (Mammalia, Proboscidea): proposed conservation, and *Elephas primigenius* Blumenbach, 1799 (currently *Mammuthus primigenius*): proposed designation as the type species of *Mammuthus*, and designation of a neotype.

Abstract. The purpose of this application is to conserve the generic name *Mammuthus* Brookes, 1828, and to designate *Elephas primigenius* Blumenbach, 1799 as the

type species, in accordance with existing usage. *M. primigenius*, the woolly mammoth, is known from Pleistocene deposits in Europe, Asia and northern North America. A neotype for *primigenius* is designated.

The following **Opinions** were published recently in the *Bulletin of Zoological Nomenclature*.

Opinion no. 1567. *Nonion* de Montfort, 1808 (Foraminifera): *Nautilus faba* Fichtel & Moll, 1798 designated as the type species.

Opinion no. 1568. *Hanzawaia* Asano, 1944 (Foraminifera): conserved.

Opinion no. 1569. *Calcarina* d'Orbigny, 1826 (Foraminifera): conserved.

Opinion no. 1570. *Dendritina* d'Orbigny, 1826 (Foraminifera): conserved.

Opinion no. 1571. *Planularia* Defrance, 1826 (Foraminifera): conserved.

Opinion no. 1572. *Nautilus repandus* Fichtel & Moll, 1798 (currently *Eponides repandus*; Foraminifera): neotype replaced by rediscovered holotype.

Opinion no. 1580. *Cordylodus? dubius* Rhodes, 1953 (currently *Distomodus dubius*; Conodonta): specific name conserved.
