INTENSIVE CLINICAL LECTURE PERIOD for Post-Primary Fellowship,  
Part II D.L.O. and other students.

These periods are primarily designed to give a clinical survey of the whole field of the Specialty as a preliminary to practical clinical training. At the completion of the Intensive Lecture Period, selected students may be given the opportunity to serve as house surgeons in the associated hospitals.

19 MAY TO 31 MAY, 1975, and 29 OCTOBER TO 11 NOVEMBER, 1975  
PRACTICAL REVISION CLASS for Part II D.L.O. students

This is intended for those students who are well advanced in preparation for the examination and need only the opportunity for a final review. The class includes demonstrations of selected clinical cases and *viva voce* examinations.

7 APRIL TO 19 APRIL, 1975, and 22 SEPTEMBER TO 4 OCTOBER, 1975  
ADVANCED REVISION COURSE for students taking higher surgical examinations.

This is limited to senior students who are about to take the Final examination. In addition to a series of lecture/discussions at the appropriate level in the

## General notes

Specialty and in related branches of general surgery, there are a number of clinical and *viva voce* sessions and arrangements for the setting and correction of test papers.

A copy of the syllabus giving full information about the teaching and research facilities provided by the Institute, and a detailed programme of any of the courses listed overleaf and of the short courses on specific aspects which are arranged from time to time can be obtained from the Secretary-Administrator.

The clinical practice can be joined at any time by individual arrangement with the Dean. This includes daily practical teaching in the clinics and operating theatres and ward-rounds and special demonstrations weekly.

Demonstrations of clinical cases, open clinical lectures and clinical pathological conferences are held at regular intervals throughout the year, and are open without fee to all trainees in the Specialty. A list giving dates and times is obtainable in the Secretary-Administrator's office.

## General notes

and Bronchoesophagology March 17 through 25, 1975. The course is limited to twenty physicians and will be under the direction of Paul H. Holinger, M.D. It will be held largely at the Eye and Ear Infirmary, 1855 West Taylor Street, Chicago, and will include visits to a number of other Chicago hospitals. Instruction will be provided by means of animal demonstrations and practice in bronchoscopy and esophagoscopy, diagnostic and surgical clinics, as well as didactic lectures.

Interested physicians will please write directly to the Department of Otolaryngology, Eye and Ear Infirmary, 1855 West Taylor Street, Chicago, Illinois 60612.

### COURSE IN NEUROTOLOGY

MARCH 24 THROUGH 27, 1975

THE Department of Otolaryngology of the Abraham Lincoln School of Medicine and the University of Illinois Hospital Eye and Ear Infirmary, University of Illinois, at the Medical Center, will conduct a continuing education course in Neurotology, March 24 through 27, 1975. This four day intensive course will offer a didactic and practical review of clinical neurotology under the direction of Nicholas Torok, M.D. It will be held at the Eye and Ear Infirmary and will include basic vestibular physiology and pathophysiology, commonly used testing methods applied in functional examination of the vestibular organ.

In addition, various forms of caloric testing procedures will be demonstrated using nystagmography, reading and evaluation of the test results, particularly the nystagmogram, and correlation with audiometric and neurologic findings, final neurotological diagnosis, management and treatment. Patients will be tested by participants and the history, symptoms and test results will be discussed in informal conferences.

Enrolment is limited to fifteen. For application forms write to the Department of Otolaryngology, 1855 West Taylor Street, Chicago.

### SERVICE IN IRAQ

THE Royal College of Surgeons of England has been asked to assist in finding a number of Consultants willing to spend periods of six months or a year in Baghdad, engaged in clinical and teaching responsibilities within the Hospital City complex there. The College, which has always been willing to assist in projects of this sort to aid the developing countries, has undertaken to do its best, through the Specialist Associations and by other means, to find surgeons who would be interested in giving help in this way. It cannot, of course, act in any sense as an agent of the authorities in Iraq, but the Secretary will be glad to put individuals in touch with the appropriate people. The assistance of E.N.T. surgeons is particularly required, in 1975 and after. Consultants who have recently retired from N.H.S. employment might be particularly suitable for work of this sort.

For further information apply to: The Secretary, The Royal College of Surgeons of England, 35-43 Lincolns Inn Fields, London WC2A 3PN.
