Aims and Scope: The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

Publishing, Advertising, and Subscription Offices: Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK (for U.K. and elsewhere).

2020 Subscription Information: *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is

published bimonthly in February, April, June, August, October, and December by Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006; Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK. Annual institutional subscription rates for Volume 36 (2020): Institutions online only US \$654.00, and online only UK and elsewhere £376.00. Individuals online only US \$380.00, and online only UK and elsewhere £214.00. Single part: US \$125.00 in the U.S.A., Canada and Mexico; UK £72.00 and elsewhere. Online only for all institutions. Print editions ceased in 2014. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

Founding Editors: Egon Jonsson and Stanley J. Reiser

CONTENTS

Perspective

- 469 The estimation of health state utility values in rare diseases: Overview of existing techniques
Michela Meregaglia, Elena Nicod and Michael Drummond

Commentaries

- 474 Real-world data for health technology assessment for reimbursement decisions in Asia: Current landscape and a way forward
Jing Lou, Sarin KC, Kai Yee Toh, Saudamini Dabak, Amanda Adler, Jeonghoon Ahn, Diana Beatriz S. Bayani, Kelvin Chan, Dechen Choiphel, Brandon Chua, Anne Julienne Genuino, Anna Melissa Guerrero, Brendon Kearney, Lydia Wenxin Lin, Yuehua Liu, Ryota Nakamura, Fiona Pearce, Shankar Prinja, Raoh-fang Pwu, Asrul Akmal Shafie, Binyan Sui, Auliya Suwantika, Yot Teerawattananon, Sean Tunis, Hui-min Wu, John Zalberg, Kun Zhao, Wanrudee Isaranuwatchai and Hwee-lin Wee
- 481 On the integration of early health technology assessment in the innovation process: Reflections from five stakeholders
Marcia Tummers, Kari Kværner, Laura Sampietro-colom, Markus Siebert, Murray Krahn, Øyvind Melien, Dominique Hamerlijnck, Payam Abrishami and Janneke Grutters

Assessments

- 486 International experience with performance-based risk-sharing arrangements: Implications for the Chinese innovative pharmaceutical market
Weiwei Xu and Jing Wu
- 492 Cost-effectiveness of treating head and neck cancer using intensity-modulated radiation therapy: Implications for cancer control program in India
Akashdeep Singh Chauhan, Shankar Prinja, Sushmita Ghoshal and Roshan Verma
- 500 Assessing the capacity of Ghana to introduce health technology assessment: A systematic review of economic evaluations conducted in Ghana
Rebecca Addo, Stephen Goodall, Jane Hall and Marion Haas
- 508 Fit for the future? Status of health-related quality of life research in South Africa
Sophia E. Marsh and Ilse Truter
- 518 Physician–patient shared decision making, patient satisfaction, and adoption of new health technology in China
Yan Wei, Jian Ming, Lizheng Shi, Xiong Ke, Hui Sun and Yingyao Chen
- 525 Value of mesenchymal stem cell therapy for patients with septic shock: An early health economic evaluation
Kednapa Thavorn, Sasha van Katwyk, Murray Krahn, Shirley H.J. Mei, Duncan J. Stewart, Dean Fergusson, Doug Coyle and Lauralyn McIntyre
