“It changed the way  
I look at the world.”

—RUSS ROBERTS, host of *EconTalk*

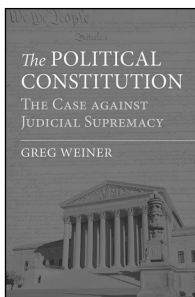

*The Three Languages of Politics* is a profoundly illuminating exploration of communication in America's political landscape. This is not a book about one ideology over another. Instead, it is a book about how we communicate issues and our ideologies and how language intended to persuade instead divides. Arnold Kling offers a way to see through our rhetorical blinders so that we can incorporate new perspectives, nuances, and thinking into the important issues we must together share and resolve.

## **The Political Constitution** **The Case against Judicial Supremacy** Greg Weiner

“*The Political Constitution* argues that legal theorists from across the ideological spectrum too often prefer the authority of unelected judges to the messiness of democracy. Greg Weiner calls upon judges to leave space for democratic deliberation on constitutional questions and urges elected officials and ordinary citizens to take responsibility for this difficult but essential work.”—James H. Read, author of *Majority Rule versus Consensus: The Political Thought of John C. Calhoun*

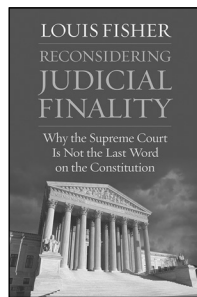

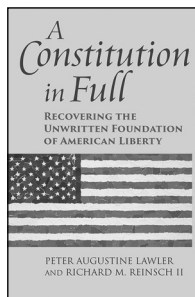

224 pages, Cloth \$29.95

## **A Constitution in Full** **Recovering the Unwritten Foundation of American Liberty** Peter Augustine Lawler and Richard M. Reinsch II

“This provocative and unusual interpretation of the American constitutional tradition takes Orestes Brownson as its inspiration and guide. Brownson’s idea of an unwritten constitution is the touchstone for Professors Lawler and Reinsch’s analysis, and one does not have to agree with their interpretation to profit from their distinctive understanding of what constitutionalism means.”—James Russell Muirhead Jr., Robert Clements Professor of Democracy and Politics, Dartmouth College

*American Political Thought*

216 pages, 25 photographs, Cloth \$29.95

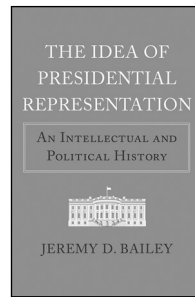

## **Reconsidering Judicial Finality** **Why the Supreme Court Is Not the Last Word on the Constitution** Louis Fisher

“In a field crowded with book-length studies of judicial review and the finality of Supreme Court decisions, Louis Fisher has something new and important to say. Fisher’s account of the ways in which Court finality has been contested will prove attractive to general readers and to scholars of constitutional law, legal history, and American politics.”—Peter Charles Hoffer, coauthor of *The Supreme Court: An Essential History, Second Edition*

## **The Idea of Presidential Representation** **An Intellectual and Political History** Jeremy D. Bailey

“This is an outstanding and important book. Bailey challenges many of our conceptions of presidential representation. He combines political science with history to produce a truly magnificent book that will be of significant interest to historians, political scientists, and legal scholars.”—Benjamin A. Kleinerman, author of *The Discretionary President: The Promise and Peril of Executive Power*

*American Political Thought*  
272 pages, Cloth \$34.95

## **Repugnant Laws** **Judicial Review of Acts of Congress from the Founding to the Present**

Keith E. Whittington

“Whittington’s study reminds readers that the Supreme Court has long acted as a nation-builder and an arm of the national state, operating within partisan politics. In stressing ‘the conditional quality of judicial independence,’ Whittington offers the counsel of perspective on our current era of partisan polarization and strained inter-branch relations.”

—Nancy Maveety, author of *Queen’s Court: Judicial Power in the Rehnquist Era*  
*Constitutional Thinking*

432 pages, 13 illustrations, Cloth \$39.95

## **An Anti-Federalist Constitution** **The Development of Dissent in the Ratification Debates** Michael J. Faber

“A monumental achievement. Based on a mountain of new research, Faber gives us the most comprehensive analysis of the Anti-Federalist mind ever.”—Robert W. T. Martin, author of *Government by Dissent: Protest, Resistance, and Radical Democratic Thought in the Early American Republic*

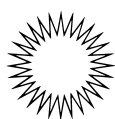

*American Political Thought*  
536 pages, Cloth \$49.95

## **All Roads Lead to Power** **The Appointed and Elected Paths to Public Office for US Women**

Kaitlin Sidorsky

“With increasing attention on electing more women to public office, this book fills a gap in the literature about how appointed positions in government may serve as opportunities for women to enter the political arena.”—Lori Cox Han, professor of political science, Chapman University

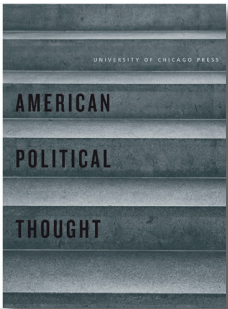

*Studies in Government and Public Policy*  
248 pages, 18 illustrations, Cloth \$34.95

Ebook editions available from your favorite ebook retailer.

# 2020 TEACHING & LEARNING CONFERENCE

## TEACHING TO EMPOWER STUDENTS

February 7–9, 2020 | Albuquerque, New Mexico

Submit your proposals & Register today!

 Register online at [connect.apsanet.org/tlc2020](https://connect.apsanet.org/tlc2020).

Join us for the 16th American Political Science Association (APSA) Teaching & Learning Conference (TLC). The conference will take place February 7-9, 2020 in Albuquerque, New Mexico, to explore the conference theme, "Teaching to Empower Students." As students encounter an often tumultuous reality that includes an evolving academy, uncertain job markets, and an increasingly contentious political sphere, how can we empower them to thrive in their educational and individual pursuits and ensure that they are prepared to solve tomorrow's problems?
