

“An essential introduction to the field.”

David William Cohen, professor emeritus, University of Michigan

Critical Terms for the Study of Africa

Edited by **GAURAV DESAI**
and **ADELINE MASQUELIER**

“*Critical Terms for African Studies* will serve as a sourcebook for connecting contemporary African Studies not only to the classical canon but also to the specific regional, global, and colonial history that forged the concept of Africa. Perhaps most remarkable is that despite the great diversity of authors, perspectives, and disciplines present in this book, there remains an underlying unity of vision connecting the threads—a vision with the capacity to breathe new life into the domain of Africanist scholarship.”—Sasha Newell, Université libre de Bruxelles
