

Glasgow Mathematical Journal

CONTENTS

M. Bryński , Forms of the rings $R[X]$ and $R[X, Y]$	91
Michael B. Dollinger and Kirti K. Oberai , On the spectrum of a linear operator	98
Eberhard Gerlach , Spaces of holomorphic functions and Hilbert–Schmidt subspaces	102
C. S. Johnson, Jr , Quasi-multiplicative maps on Baer semigroups	107
Chi Yeung Lo , Boundary value problems of singular elliptic partial differential equations	111
W. E. Williams , A note on integral equations	119
G. R. Wood and Sadayuki Yamamuro , On the semigroup of differentiable mappings (II)	122
P. G. Spain , On commutative V^* -algebras II	129
Abdul Majeed , On embeddable finite amalgams of groups	135
Abdul Majeed , On the range of finite embeddings of a finite amalgam	142
David J. Fieldhouse , Character modules, dimension and purity	144
Don B. Hinton , Asymptotic formulae for linear equations	147
C. J. Knight , Compactness and ordinals	153
P. F. Smith , On two-sided artinian quotient rings	159
R. Beazer , An inverse limit representation for complete Boolean algebras	164
T. E. Hall , Congruences and Green's relations on regular semigroups	167
T. E. Hall , Almost commutative bands	176
Klaus Wohlfahrt , A direct proof of Leutbecher's Lemma	179

GLASGOW MATHEMATICAL JOURNAL

The *Glasgow Mathematical Journal* is a continuation of the *Proceedings of the Glasgow Mathematical Association*, founded in 1952 by the late Professor T. M. MacRobert. It is published with the support of the University Court of the University of Glasgow. The *Glasgow Mathematical Journal* is published in Parts twice yearly, in January and July; two Parts complete a Volume of approximately 180 pages.

The prepaid subscription for each Volume is £3.00 in U.K., \$8.50 in U.S.A., post free. Single parts may be supplied at a cost of £1.55 in U.K., \$4.50 in U.S.A., net.

Copies may be ordered direct from the publishers or from any bookseller.

Information for Contributors

While the *Glasgow Mathematical Journal* is intended primarily for Pure Mathematics, papers on Applied Mathematics will also be accepted. Manuscripts from all parts of the world will be welcomed and given careful consideration.

Manuscripts, preferably typed, should be prepared so as to conform with the practice in current numbers of the *Journal*, especially with regard to line illustrations, references, tables and summaries. The name of the author and the date of the receipt of the manuscript will be printed under the title. Text figures must be suitable for line block reproduction, lettered in pencil, numbered, and separated from the text but allocated clearly to sections of the text.

References should be placed at the end of the paper, arranged and numbered in alphabetical order. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated:

for references to books—*author, title, edition, place of publication, year of publication, page reference*;

for references to articles in periodicals—*author, title of article, short title of periodical, series no. (if any), volume no., year, pagination*.

A proof is supplied once in galley form, together with an Order Form for offprints. Offprints are supplied free to the number of twenty-five; additional copies, if ordered prior to publication, will be supplied, at cost, at the request of the contributor. Excessive corrections may be charged to the author.

Manuscripts should be sent to:
