

Second Edition

Latin America

Geographical perspectives

Edited by
HAROLD BLAKEMORE and
CLIFFORD SMITH

Review of the first edition:

'The aim of the editors is achieved: the heterogeneity of geographical, historical, cultural and economic conditions within Latin America is ably demonstrated in a way which deepens the reader's knowledge and understanding of the area. As such the book will be welcomed by all those with an interest in Latin America and particularly by those involved in introducing undergraduates to a study of the region.'

576 pages, illustrated
Paperback 0 416 32830 X £12.50

A Geography of the Third World

J. P. DICKENSON,
C. G. CLARKE, W. T. S. GOULD,
R. M. PROTHERO, D. J. SIDDLÉ,
C. T. SMITH, E. THOMAS-HOPE
and A. G. HODGKISS

This book outlines the major themes and issues in the geography of the Third World at a level appropriate for the needs of advanced students in secondary schools and those in higher education who seek a general and informative introduction to development studies. The authors have all undertaken research and taught in different regions of the Third World.

U.S.–Mexico Relations

Economic and Social Aspects

Edited by Clark W. Reynolds & Carlos Tello. History and geography have linked the destinies of the United States and Mexico, and current events portend dramatically increasing interdependence in the future. But just how much economic and social interaction is in the long-term interests of each partner? This first volume in a series derived from conferences sponsored by the Project on United States–Mexico Relations is unique in providing a truly binational perspective on the subject. Written by experts from both countries about both countries, the sixteen papers assess the extent to which different groups in each nation would benefit from more or less interdependence in trade, migration, agricultural and industrial production, finance and investments, foreign policy, and national security measures. \$25.00

The Future of Central America

Policy Choices for the U.S. and Mexico

Edited by Richard R. Fagen & Olga Pellicer. Deeply rooted in the past, the crisis wracking Central America has been profoundly conditioned by the mixture of prosperity, poverty, mounting social tensions, and militarism that has characterized most of the area since the 1940's. In this second book in a series derived from binational conferences sponsored by the Project on United States–Mexico Relations, a group of Latin and North American scholars examine the past, present, and future regional roles of the two dominant outside powers. What are the policies of Mexico and the United States toward Central America? What kinds of policies would contribute to peace and stability in the region? The ten papers show the different ways the two countries perceive the crisis, and thus their differing aims and strategies for dealing with it. Cloth, \$20.00; paper, \$11.95

The Amazon Rubber Boom 1850-1920

Barbara Weinstein. This is a full-scale account of one of the most epic “boom and bust” cycles in Latin American history—the Amazon rubber trade’s 70-year dominance of the Brazilian economy. Broken by the successful cultivation of rubber trees by the British in Southeast Asia, the long period of vigorous economic activity in the rubber trade left the basic structure of Amazonian society relatively unchanged. One of the author’s main concerns is to explore why rubber exports did not generate substantial growth in either the industrial or the agricultural sectors. She also considers the impact of political decentralization and regionalism on the economy, draws comparisons with the coffee boom in São Paulo, and traces the consequences of the rubber economy’s collapse on the social, political, and economic life of the region. \$29.50

Huarochirí

An Andean Society Under Inca and Spanish Rule

Karen Spalding. This major work provides the first synthesis of the varied data—ethnographic, historical, archaeological, and archival—on the impact of the Spanish conquest and Spanish rule on Indian society in Peru. Set in one of the two centers of Spanish occupation and settled Indian civilization in America, it is the story of a social relationship of inequality and oppression that endured for centuries, and inevitably led to the collapse of Andean society. The author delineates the basic relationships upon which local Andean society was based, and examines how the Indians responded to or resisted the political structures imposed upon them, and how they dealt with, were exploited by, or benefitted from the Europeans. Illus. About \$35.00

NOTES FOR CONTRIBUTORS

Journal of Latin American Studies is published twice a year under the academic sponsorship of the Centres or Institutes of Latin American Studies at the University of Cambridge, Essex, Glasgow, Liverpool, London and Oxford.

The scope of the journal is the study of Latin America from the standpoint of the social sciences, including anthropology, archaeology, economics, geography, history, international relations, politics, sociology, etc., though it is not concerned with linguistic or literary studies.

Editorial policy avoids commitment to any political viewpoint or ideology, but welcomes free discussion of such issues in the Latin American context, on the understanding that all responsibility for opinions expressed rests exclusively with the author concerned and not with either the journal or its editors.

Contributions are invited from all parts of the world. Articles should generally not be more than 8,000 words long, and two copies, typed with double-spacing, should be submitted. Diagrams and maps may be included by arrangement with the editors. The journal is published in English, but articles written in other languages may be considered, and arrangements made as required for translation into English. Contributors should keep one copy of the typescript for use in correcting proofs.

All contributions and editorial correspondence should be addressed to *Journal of Latin American Studies*, Institute of Latin American Studies, 31 Tavistock Square, London, WC1H 9HA.

Each contributor will receive, free of charge, 25 offprints of the article and a copy of the issue of the journal in which it appears.

CONTRIBUTORS TO THIS ISSUE

DR V. BULMER-THOMAS is Lecturer in Development Economics at Queen Mary College, University of London.

DR E. BALDYRA-HERP is Professor Political Science and Director of the Institute of Latin American Studies at the University of North Carolina at Chapel Hill.

MR LAURENCE WHITEHEAD is a Fellow at Nuffield College, Oxford.

DR HECTOR PEREZ-BRIGNOLI is Professor of History at the University of Costa Rica.

DR YOLANDA BAIRES MARTINEZ is Assistant Professor of Sociology at the University of Costa Rica.

DR DAVID BROWNING is University Lecturer in Latin American Geography and a Fellow of St Cross College, Oxford.

DR LOWELL GUDMUNDSON is Assistant Director of the Latin American and Caribbean Center at the Florida International University, Miami.

DR SAMUEL STONE is Director of the Centro de Investigación y Adiestramiento Político-Administrativo, San José, Costa Rica.

DR CHRISTOPHER ABEL is Lecturer in Latin American History at University College, University of London.

DR JAMES DUNKERLEY is a specialist on Modern Bolivia and Central America.

DR COLIN CLARKE is Lecturer in Geography and a Fellow of Jesus College, Oxford.
