

Clay Minerals

VOLUME 7 • NUMBER 2 • DECEMBER 1967

CONTENTS

G. F. WALKER. Interactions of n-alkylammonium ions with mica-type layer lattices	129
K. SUSA, H. STEINFINK and W. F. BRADLEY. The crystal structure of a pyridine-vermiculite complex	145
K. K. BISSADA, W. D. JOHNS and F. S. CHENG. Cation-dipole interactions in clay organic complexes	155
W. BODENHEIMER and L. HELLER. Sorption of α -amino-acids by copper montmorillonite	167
M. C. GASTUCHE, G. BROWN and M. M. MORTLAND. Mixed magnesium-aluminium hydroxides. I. Preparation and characterization of compounds formed in dialysed systems	177
G. BROWN and M. C. GASTUCHE. Mixed magnesium-aluminium hydroxides. II. Structure and structural chemistry of synthetic hydroxycarbonates and related minerals and compounds	193
C. R. DE KIMPE. Hydrothermal aging of synthetic aluminosilicate gels	203
A. C. D. NEWMAN. Changes in phlogopites during their artificial alteration	215
J. M. DE VILLIERS and T. H. VAN ROOYEN. Solid solution formation of lepidocrocite-boehmite and its occurrence in soil	229
Note	
W. BODENHEIMER, L. HELLER and J. BARTURA. Intersalation of potassium acetate in flint clay	237
Book Review	241
Obituary	243
