

NO COMPARISON

Reorder #2750

When it comes to disinfection, CIDEX FORMULA 7* Long-Life Activated Dialdehyde Solution stands on a proud record of scientific acclaim. And stands out for its unequalled combination of efficacy and safety.

No one else can claim as much: proven and unsurpassed efficacy;¹ non-corrosive alkaline base;² economical 28-day uselife; surfactants for complete wetting and thorough rinsing; fresh mint scent; clear green color for easy location of submerged instruments.

1. Disinfects completely in 10 minutes, and sterilization can be achieved in 10 hours at room temperature. It is not possible to test effect on human hepatitis virus through currently available methods.
2. When used as directed.
