

# SCIENCE IN HISTORY

J. D. BERNAL

Here in one volume is an account of science and of history from the earliest times to the present day. The result of patient research (it has taken six years to write) and the mature reflection of a profoundly original mind, this monumental work may be considered Professor Bernal's *magnum opus*, not only because of the vital importance of the story it tells, but because it describes with rare clarity how the powerful instruments science has placed at our disposal came into being, and what they can do for good or ill. 42s. net

# Politics in Post-War France

PHILIP WILLIAMS

'...the more serious and industrious citizen will be improving his mind and increasing his understanding of the present world situation if he reads and digests this admirable book.

'...here is a first-class guide to the political life of our nearest neighbour.'  
—Dr D. W. Brogan in the *Spectator*. 35s. net

# British Foreign Policy in the Inter-War Years

PHILIP REYNOLDS

'...provides a concise, objective and workmanlike summary of events during this depressing period in our history, and can be recommended to the general reader as well as to the more specialised class for whom it was originally intended.'—*Financial Times*. 12s. 6d. net

# German Marxism and Russian Communism

JOHN PLAMENATZ

'Mr Plamenatz has already established himself as a most penetrating student of political ideas. His latest work, an analysis of the doctrine of Marx and Engels and of the mutations which it has undergone at the hands of Lenin and Stalin, is to be warmly welcomed.'—*The Listener*. 25s. net

# The Feudal Kingdom of England, 1042–1216

FRANK BARLOW

This is the second volume to appear in Medlicott's History of England Series. This is an authoritative survey of the fascinating period when England was on the fringe of a barbarized part of the ancient classical world.
