BARNWOOD HOUSE

GLOUCESTER

CRICKLEY COURT—ONE OF THE SEPARATE VILLAS

A REGISTERED HOSPITAL, (outside the National Health Service) for the CARE and TREATMENT of LADIES and GENTLEMEN suffering from NERVOUS and MENTAL DISORDERS. Within two miles of the Western and London Midland Regional Railway Stations at Gloucester, the Hospital is easily accessible by rail from London and all parts of the United Kingdom. It is beautifully situated at the foot of the Cotswold Hills, and stands in its own grounds of over 300 acres. Voluntary Patients of both sexes are also received for treatment. Special accommodation is also provided at three villa residences, all of which stand in their own grounds and are entirely separate from the main Hospital. All the most modern methods of treatment including electric shock and prefrontal leucotomy are used.

For Terms, etc., apply to

ELECTRO- ENCEPHALOGRAPH

The Marconi 6-channel E.E.G. is the product of unremitting electrical development and exhaustive pre-production trials. In many parts of the world it has gained the confidence of operator and neurologist, many distinctive features contributing to an exemplary performance.

- Adjustable floor-stand with fourteen non-polarisable silver/silver chloride head-electrodes
- Balanced high-gain amplifiers
- Frequency response extending from a fraction of a cycle up to 75 cycles for direct recording
- Six-channel 3-speed recorder with marker and timing pens
- "Universal" amplification up to 5000 c/s for use with external apparatus.

INSTRUCTIONS TO AUTHORS

Strict observation of the following requirements will save intending authors considerable time and worry, and will facilitate the publication of papers submitted.

(1) Authors should consult a current issue to see how a paper should be presented. They should consult *General Notes on the Preparation of Scientific Papers*, published for the Royal Society by the Cambridge University Press, 200, Euston Road, London, N.W.1 (price 2s. 9d. post free).

(2) The title should be brief and contain no sub-heading. This should be followed by the author's name, his qualifications and his present appointment.

(3) Omit a summary of the literature when this has been adequately summarized elsewhere.

(4) For reasons of economy, case-histories of patients can be published only when they are of exceptional scientific interest.

(5) Diagrams and graphs must be drawn in black ink with properly printed lettering. If they have to be redrawn by the printer, the cost, which may amount to several pounds, will be charged to the author.

(6) Tables and graphs should be kept as few as possible. If they number more than a few, the author must be prepared to pay part of their cost.

(7) Any deviation or difference that might be due to random sampling must, if it is to be discussed in its general, scientific significance, be first shown, by calculation of the appropriate probability, to be significant statistically.

(8) All references should be given at the end of the paper, in alphabetical order, and in the following form :

SMITH, A. B., *J. Ment. Sci.*, 1950, **95**, 493.

In the body of the paper they should appear as : Smith (1950).

(9) When the proof arrives from the printer it is for the correction of printer's mistakes only. Larger alterations can be made only with the Editor's permission and if the author is willing to defray the cost.

(10) The author will receive 6 reprints of his paper free of charge. If further reprints are required the order should be sent **direct** to Messrs. Adlard & Son, Ltd.,¹ Bartholomew Press, Dorking, Surrey.

(11) A paper sent to the Editor-in-Chief is, as a rule, sent to one of the panel of Referees set out on the cover of the Journal for his opinion. Papers are as a rule not rejected until a second or further opinion have been received.
