Medicine, Mind, and the Double Brain A Study in Nineteenth-Century Thought *Anne Harrington*

Questions about the duality and asymmetrical functioning of the human brain gained a new prominence in the scientific and popular imagination in the 1960s, but interest in brain duality and functional asymmetry also pervaded the nineteenth century.

Exploring the writings of such figures as Gall, Broca, Wernicke, Liepmann, Charcot, Hughlings Jackson, Freud, and others, this book aims to make specific points of contact between nineteenth-century ideas about the double brain and the broader social and philosophical context in which they evolved. The work will appeal not only to historians of science, neurologists, psychologists, and psychiatrists, but also to readers concerned with nineteenth-century thought and culture in general.

"Anne Harrington has written a broad and insightful study of 19th-century culture. . . a book which must be warmly recommended to all historians as a study in the rich variety of ways in which the 19th-century was a cerebral society."

The Darwinian Heritage

Edited by David Kohn

Representing the present rich state of historical work on Darwin and Darwinism, this volume of essays places the great theorist in the context of Victorian science. The book includes contributions by some of the most distinguished senior figures of Darwin scholarship and by leading younger scholars who have been transforming Darwinian studies. The result is the most comprehensive survey available of Darwin's impact on science and society.

"*The Darwinian Heritage* is a richly detailed volume, daunting in size. It contains 31 essays, many of which break new ground."

—*London Review of Books*

ISIS

Official Journal
of the History of
Science Society

The leading journal in the field, *Isis* goes to 4,500 subscribers in nearly fifty countries. Its articles, critiques, documents, and news of the profession keep professionals, educators, scholars, and graduate students well informed. Lively essay reviews and over 250 book reviews a year cover every specialty in the history of science, technology, and medicine.

In 1988 *Isis* is publishing

ARTICLES by Russell McCormach on Henry Cavendish, Li Peishan on the 1956 Qingdao Conference on Genetics, and Robert K. Merton on the Matthew Effect in Science Revisited

SPECIAL REVIEW SECTIONS on the history of the social sciences, the history of biology, and the history of Islamic science, technology, and medicine

A SPECIAL ISSUE ON ARTIFACT AND EXPERIMENT with articles by Steven Shapin, Ian Hacking, and Sally Gregory Kohlstedt and essay reviews by Lorraine Daston and Peter Galison
AND MUCH MORE!

Subscription to *Isis* also brings • membership in the History of Science Society • the annual *Critical Bibliography*, listing over 3,000 recent publications in the field • the quarterly *Newsletter*, providing current news on jobs, meetings, fellowships, and other opportunities • the triennial *Guide to the History of Science*, listing members and describing programs, societies, journals, and newsletters in the field • reduced rates for *Osiris*, the Society's research annual.

THE BRITISH SOCIETY FOR THE HISTORY OF SCIENCE

Membership of the Society, which normally includes a subscription to *The British Journal for the History of Science*, is open to all persons approved by the Council of the Society and elected at an ordinary meeting. The annual subscription for the membership year 1988 is £16.00 (\$32.00) or £8.00 (\$16.00) for associate membership, which includes students at centres of higher education. There is an Introductory Offer for ordinary members who pay £11.00 (\$22.00) for the first year. Applications for membership should be made on a form which is available from the Society's Executive Secretary at the address below.

Meetings: The Society mounts an ambitious programme of meetings. The pattern is flexible, the only fixture being the three day summer meeting, held at a different British University or Polytechnic each year. About four other meetings, lasting for between one and three days, are held during the year, sometimes devoted to a clearly-defined theme or an important anniversary, and often arranged in conjunction with other scholarly societies.

The *British Journal for the History of Science* is the official organ of the Society. All correspondence on the contents of the *Journal* should be addressed to the Editor, Dr David Knight, Department of Philosophy, University of Durham, 50 Old Elvet, Durham DH1 3HN, England.

Books for review should be sent to the Reviews Editor, Dr John Hendry, 58 Canfield Gardens, London NW6 3EB.

Advertising: Contact the Advertising Department, Blackwell Scientific Publications, Osney Mead, Oxford, OX2 0EL. Fax no. (0865) 721205.

Other publications: BSHS Monograph Series is designed to allow the publication of monographic studies in the history of science quickly and cheaply. All correspondence on the subject of monographs, and any new suggestions for titles, should be sent to the Series Editor, Dr J. G. Smith, Department of History, University of Leicester, Leicester, Leics LE1 7RH, England. Monographs are available to members at a special price, post-free from the Society's Executive Secretary. Non-members may obtain them through bookshops, or post-free from the Executive Secretary. Titles are as follows:

2. *The Letters of Georges Cuvier: A Summary Calendar*. Ed. by Dorinda Outram. 1980. £4.50/\$10.00 (£3.50/\$8.00 to members).
3. *Rationality and Ritual: The Windscale Inquiry and Nuclear Decisions in Britain*. By Brian Wynne. 1982. £7.00/\$15.00 (£5.00/\$11.00 to members).
4. *The Royal Society and Its Fellows 1660–1700: The Morphology of an Early Scientific Institution*. By Michael Hunter. 1982, reprinted 1985. £9.00/\$19.00 (£6.50/\$14.00 to members).
5. *Francis Bacon's Natural Philosophy: A New Source. A Transcription of Manuscript Hardwick 72A with Translation and Commentary*. By Graham Rees, assisted by Christopher Upton. 1984. £7.90/\$17.00 (£5.60/\$12.00 to members).
6. *Archives of the British Chemical Industry, 1750–1914: A Handlist*. By Peter J. T. Morris and Colin A. Russell. Contributing editor John Graham Smith. 1988. £14.50/\$31.00 (£9.00/\$19.00 to members).

Lists of theses: Every December, the Society publishes a full list of current theses in history of science in British universities. This is available free to members, and at £2.00 (\$4.00) to non-members on request to the Executive Secretary. Standing orders are accepted from members or non-members who wish to receive the list regularly.

The Society's *Newsletter*, an informal publication edited by Dr Mari Williams, Business History Unit, Lionel Robbins Building, 10 Portugal Street, London WC2A 2HD, appears in January, May and September each year. It is free to members, £4.50 (\$9.00) for institutions and non-members.

All the administrative business of the Society is handled by The Executive Secretary, Wing Commander G. Bennett, 31 High Street, Stanford in the Vale, Faringdon, Oxfordshire SN7 8LH.
