# THE ROYAL INSTITUTE OF NAVIGATION

## *Aims and Objects*

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

## *Membership*

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website ([Home / Join the RIN / Membership Types](#) <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary ([membership@rin.org.uk](mailto:membership@rin.org.uk) Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 73, 2020, which includes print and electronic access, is £701 (USA, Canada and Mexico US \$1265) and includes delivery by air; single parts are available at £127 (USA, Canada and Mexico US \$229) plus postage. The electronic-only price available to institutional subscribers is £543 (USA, Canada and Mexico US \$990). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. *The Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8BS, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information.

# THE JOURNAL OF NAVIGATION

VOLUME 73 • NUMBER 2 • MARCH 2020

## CONTENTS

<b>Asymptotic Regulation of Dynamically Positioned Vessels with Unknown Dynamics and External Disturbances</b> <i>Xin Hu, Jialu Du, Jian Li and Yuqing Sun</i>	253
<b>Grounding Probability in Narrow Waterways</b> <i>Şirin Özlem, Yiğit Can Altan, Emre N. Otay and İlhan Or</i>	267
<b>Optimisation of the Position of Navigational Aids for the Purposes of SLAM technology for Accuracy of Vessel Positioning</b> <i>Łukasz Marchel, Krzysztof Naus and Mariusz Specht</i>	282
<b>Tightly combined GPS + GLONASS positioning with consideration of inter-system code bias and GLONASS inter-frequency code bias</b> <i>Rui Shang, Chengfa Gao, Shuguo Pan, Xiaolin Meng and Wang Gao</i>	296
<b>Evaluation of Signal-in-Space Continuity and Availability for BeiDou Satellite Considering Failures</b> <i>Lihong Fan, Rui Tu, Zengji Zheng, Rui Zhang, Xiaochun Lu, Jinhai Liu, Xiaodong Huang and Ju Hong</i>	312
<b>High Definition Map for Automated Driving: Overview and Analysis</b> <i>Rong Liu, Jinling Wang and Bingqi Zhang</i>	324
<b>Vessel Trajectory Online Multi-Dimensional Simplification Algorithm</b> <i>Yuan-qiang Zhang, Guo-you Shi, Song Li and Shu-kai Zhang</i>	342
<b>Sea Captains' Views on Automated Ship Route Optimization in Ice-covered Waters</b> <i>Ville V. Lehtola, Jakub Montewka and Johanna Salokannel</i>	364
<b>Potential Enhancement for Wrong-way Driver Detection using Precise Attribute Information</b> <i>Jinyue Wang, Martin Metzner and Volker Schwieger</i>	384
<b>The Geometry of Elliptical Probability Contours for a Fix using Multiple Lines of Position</b> <i>W.R.B. Lionheart, P.J.C. Moses and C. Kimberling</i>	398
<b>The Impact of Bridge Alerts on Navigating Officers</b> <i>Lovro Maglić and Damir Zec</i>	421
<b>Parallel Frequency Acquisition Algorithm for BeiDou Software Receiver Based on Coherent Downsampling</b> <i>Qingxi Zeng, Chang Gao, Wenqi Qiu, Zhaihe Zhou and Chade Lyu</i>	433
<b>Assessing Lifeboat Coxswain Training Alternatives Using a Simulator</b> <i>Randy Billard, Jennifer Smith and Brian Veitch</i>	455
<b>A New Model of Environment-Aware Geographic Information Services in E-navigation</b> <i>Jianan Luo, Xiaoxia Wan and Jing Duan</i>	471
<b>Online Heuristically Planning for Relative Optimal Paths Using a Stochastic Algorithm for USVs</b> <i>Naifeng Wen, Rubo Zhang, Guanqun Liu and Junwei Wu</i>	485
