

QUARTERLY REVIEWS OF BIOPHYSICS

VOLUME 16 1983

Editors: A. Engström [*Sweden*], A. Ehrenberg [*Sweden*],
R. D. Keynes [*United Kingdom*],
G. Felsenfeld [*U.S.A.*]

Council of IUPAB

R. D. Keynes (U.K.) *President*
S. Estrada-O (Mexico) *Vice-President*
B. Pullman (France) *Vice-President*
S. Ebashi (Japan) *Hon. Vice-President*
K. Wüthrich (Switzerland) *Secretary General*

M. Baltscheffsky (Sweden)	G. R. Ivanitsky (U.S.S.R.)
M. Brunori (Italy)	S. Maričić (Yugoslavia)
L. C. M. De Maeyer (Belgium)	L. D. Peachey (U.S.A.)
H. Eisenberg (Israel)	W. E. Reichardt (F.R.G.)
A. R. Gopal-Ayengar (India)	R. Villegas (Venezuela)
C. Hélène (France)	A. Wada (Japan)

Published for the International Union for
Pure and Applied Biophysics

Cambridge University Press 1983

Published by the Press Syndicate of the University of Cambridge
The Pitt Building, Trumpington Street, Cambridge CB2 1RP
32 East 57th Street, New York, N.Y. 10022

Printed in Great Britain at the University Press, Cambridge

Contents

No. 1. FEBRUARY 1983

- GERHARD WAGNER. Characterization of the distribution of internal motions in the basic pancreatic trypsin inhibitor using a large number of internal NMR probes 1
- EIICHI FUKADA. Piezoelectric properties of biological polymers 59
- GREGORIO WEBER and HARRY G. DRICKAMER. The effect of high pressure upon proteins and other biomolecules 89
- NEWS FROM IUPAB 113

No. 2. MAY 1983

- T. J. PEDLEY. Calculation of unstirred layer thickness in membrane transport experiments: a survey 115
- JUDITH WHITE, MARGARET KIELAN and ARI HELENIUS. Membrane fusion proteins of enveloped animal viruses 151
- S. W. THORNE and J. T. DUNIEC. The physical principles of energy transduction in chloroplast thylakoid membranes 197

No. 3. AUGUST 1983

- T. A. HALL and BRIJ. L. GUPTA. The localization and assay of chemical elements by microprobe methods 279
- J. J. EGGERMONT, P. I. M. JOHANNESMA and A. M. H. J. AERTSEN. Reverse-correlation methods in auditory research 341

No. 4. NOVEMBER 1983

CLAS BLOMBERG. Free energy cost and accuracy in branched selection processes of biosynthesis	415
S. WALTER ENGLANDER and NEVILLE R. KALLENBACH. Hydrogen exchange and structural dynamics of proteins and nucleic acids	521

INFORMATION FOR CONTRIBUTORS TO QUARTERLY REVIEWS OF BIOPHYSICS

1. *Quarterly Reviews of Biophysics* is the official journal of the International Union for Pure and Applied Biophysics. As such, its primary aim is to provide a forum for general and specialized communication between biophysicists working in different areas. This will normally be achieved by inviting authors who have made significant contributions to give a critical and readable account of recent progress in their special fields. Shorter and even controversial articles discussing topics of particular current interest will also be published.

2. Reviews should preferably be written in English. The style of presentation must be concise, with only key references.

3. Three copies of manuscripts are required. They should be typed in double spacing with a margin of 4 cm all round. The position of tables and illustrations should be indicated in the text. Tables and legends for illustrations should be typed on separate pages. A table of contents should be provided for printing at the head of the article.

4. In the text, the references should be to authors and year. When a paper cited has three or more authors the style Smith *et al.* (1973) should be used on all occasions. At the end of the paper, references should be listed alphabetically, with the full title of each paper, and the first and last pages. Abbreviations of journal titles should follow the latest edition of the *World List of Scientific Periodicals*. For example

BERNAL, J. D. (1967). *Origin of Life*. London: Weidenfeld and Nicolson.

EIGEN, M. (1968). New looks and outlooks on physical enzymology. *Q. Rev. Biophys.* 1, 3-33.

5. Drawings should be in Indian ink on tracing paper. They should be drawn roughly twice the size of the finished block. Explanations should as far as possible be placed in the legends. Lettering for photographs should either be on a duplicate print or on an accurately registered overlay.

6. The author will receive only one set of page proofs for correction. Fifty reprints of each review will be provided free of charge. Additional copies may be purchased.

QUARTERLY REVIEWS OF BIOPHYSICS

Reviews on the following topics will appear in forthcoming issues:

The reaction of psoralens with deoxyribonucleic acid

JOHN E. HEARST, STEPHEN T. ISAACS, DAVID KANNE,
HENRY RAPOPORT and KENNETH STRAUB

Biomolecular Dynamics: A report from a workshop in Gysinge,
Sweden, October 1982

OLLE EDHOLM, LENNART NILSSON, OTTO BERG,
MANS EHRENBERG, FLORA CLAESENS, ASTRID GRÄSLUND
BO JÖNSSON and OLLE TELEMAN
