OUTBREAK RESPONSE TOOL KITS

The SHEA/CDC Outbreak Response Training Program (ORTP) tool kits are your source for quick, concise information and resources to help you and your facility effectively manage outbreaks.

- Expert-selected checklists, flow charts, summaries, and diagrams
- Guidance in implementation and leadership during a crisis
- Downloadable and fillable tables to make sure you have the information you need
- Free access on mobile devices, desktops, and via the Guideline Central app
- And more...

CONTENTS

SHEA Expert Guidance

- 1** Infection prevention in the operating room anesthesia work area
L. Silvia Munoz-Price, Andrew Bowdle, B. Lynn Johnston, Gonzalo Bearman, Bernard C. Camins, E. Patchen Dellinger, Marjorie A. Geisz-Everson, Galit Holzmann-Pazgal, Rekha Murthy, David Pegues, Richard C. Prielipp, Zachary A. Rubin, Joshua Schaffzin, Deborah Yokoe and David J. Birnbach

Original Articles

- 18** Antibiotic prescribing upon discharge from the hospital to long-term care facilities: Implications for antimicrobial stewardship requirements in post-acute settings
Bo R. Weber, Brie N. Noble, David T. Bearden, Christopher J. Crnich, Katherine D. Ellingson, Jessina C. McGregor and Jon P. Furuno
- 24** A recipe for antimicrobial stewardship success: Using intervention mapping to develop a program to reduce antibiotic overuse in long-term care
Andrea Chambers, Sam MacFarlane, Rosemary Zvonar, Gerald Evans, Julia E. Moore, Bradley J. Langford, Anne Augustin, Sue Cooper, Jacquelyn Quirk, Liz McCreight and Gary Garber
- 32** Variability in antimicrobial use in pediatric ventilator-associated events
Manjiree V. Karandikar, Susan E. Coffin, Gregory P. Priebe, Thomas J. Sandora, Latania K. Logan, Gitte Y. Larsen, Philip Toltzis, James E. Gray, Michael Klompas, Julia S. Sammons, Marvin B. Harper, Kelly Horan, Matthew Lakoma, Noelle M. Cocoros and Grace M. Lee
- 40** Bronchoscope-associated clusters of multidrug-resistant *Pseudomonas aeruginosa* and carbapenem-resistant *Klebsiella pneumoniae*
Alison L. Galdys, Jane W. Marsh, Edgar Delgado, A. William Pasculle, Marissa Pacey, Ashley M. Ayres, Amy Metzger, Lee H. Harrison and Carlene A. Muto
- 47** A prospective study of transmission of Multidrug-Resistant Organisms (MDROs) between environmental sites and hospitalized patients—the TRANSFER study
Luke F. Chen, Lauren P. Knelson, Maria F. Gergen, Olga M. Better, Bradly P. Nicholson, Christopher W. Woods, William A. Rutala, David J. Weber, Daniel J. Sexton and Deverick J. Anderson for the CDC Prevention Epicenters Program
- 53** Prevalence of antibiotic-resistant organisms in Canadian Hospitals. Comparison of point-prevalence survey results from 2010, 2012, and 2016
Philippe Martin, Claire Nour Abou Chakra, Victoria Williams, Kathryn Bush, Myrna Dyck, Zahir Hirji, Alex Kiss, Oscar E. Larios, Allison McGeer, Christine Moore, Karl Weiss, Andrew E. Simor and Infection Prevention and Control Canada

Cover image: Statue of the Jewish scholar Moses Maimonides, Rabbi Mosheh Ben Maimon, Cordoba, Andalusia, Spain - courtesy of Shutterstock.

- 60** Transmission of *Staphylococcus aureus* from dry surface biofilm (DSB) via different types of gloves
Shamaila Tahir, Durdana Chowdhury, Mark Legge, Honghua Hu, Greg Whiteley, Trevor Glasbey, Anand K. Deva and Karen Vickery
- 65** *Clostridium difficile* infection increases acute and chronic morbidity and mortality
Margaret A. Olsen, Dustin Stwalley, Clarisse Demont and Erik R. Dubberke
- 72** The clinical impact of a urinary tract infection management bundle in a tertiary-care teaching hospital
Timothy D. MacLaggan, Christopher P. Le, Kristen A. Iverson, Chelsey L. Ellis, Jacques Allard, Tammie J. Wilcox-Carrier and Daniel J. Smyth
- 79** Scope and extent of healthcare-associated Middle East respiratory syndrome coronavirus transmission during two contemporaneous outbreaks in Riyadh, Saudi Arabia, 2017
Khalid H. Alanazi, Marie E. Killerby, Holly M. Biggs, Glen R. Abedi, Hani Jokhdar, Ali A. Alsharef, Mutaz Mohammed, Osman Abdalla, Aref Almari, Samar Bereagesh, Sameh Tawfik, Husain Alresheedi, Raafat F. Alhakeem, Ahmed Hakawi, Haitham Alfalah, Hala Amer, Natalie J. Thornburg, Azaibi Tamin, Suvang Trivedi, Suxiang Tong, Xiaoyan Lu, Krista Queen, Yan Li, Senthilkumar K. Sakthivel, Ying Tao, Jing Zhang, Clinton R. Paden, Hail M. Al-Abdely, Abdullah M. Assiri, Susan I. Gerber and John T. Watson
- 89** Testing a novel audit and feedback method for hand hygiene compliance: A multicenter quality improvement study
Aaron M. Scherer, Heather Schacht Reisinger, Michihiko Goto, Cassie Cunningham Goedken, Gosia S. Clore, Alexandre R. Marra, Emily E. Chasco, Charlesnika T. Evans, Michael A. Rubin and Eli N. Perencevich

Commentary

- 95** Infection prevention in long-term care: re-evaluating the system using a human factors engineering approach
Morgan Jane Katz and Ayse P Gurses

Concise Communications

- 100** Evaluation of environmental cleaning of patient rooms: Impact of different fluorescent gel markers
Clare Rock, Anping Xie, Jennifer Andonian, Yea-Jen Hsu, Patience Osei, Sara C. Keller, Ayse P. Gurses, Polly Trexler, Lisa L Maragakis and Sara E. Cosgrove for the CDC Prevention Epicenters Program
- 103** Mixed-methods analysis of glove use as a barrier to hand hygiene
Blake A. Acquarulo, Linda Sullivan, Anthony L. Gentile, John M. Boyce and Richard A. Martinello
- 106** *Mycobacterium avium* pseudo-outbreak associated with an outpatient bronchoscopy clinic: Lessons for reprocessing
Jessica L. Seidelman, Richard J. Wallace, Elena Iakhiaeva, Ravikiran Vasireddy, Barbara A. Brown-Elliott, Celeste McKnight, Luke F. Chen, Terry Smith and Sarah S. Lewis

Research Brief

- 109** Impact of tiered interventions to decrease routine urine cultures in asymptomatic patients undergoing arthroplasty
Ebony C. Jackson, Xia C. Thai, Lou Ann Bruno-Murtha and Amanda E. Barner

Letters to the Editor

- 111** Further confirmation that spiking of intravenous bags does not cause time-dependent microbial contamination
Scott Segal
- 112** Re-estimating annual deaths due to multidrug-resistant organism infections
Jason P. Burnham, Margaret A. Olsen and Marin H. Kollef
- 113** Affected healthcare workers during outbreaks: A report from the German consulting center for infection control (BZH) outbreak registry
Sebastian Schulz-Stübner, Marcus Reska and Reiner Schaumann
- 115** Foodborne illness outbreak due to *Staphylococcus aureus* among hospital staff following Hurricane Harvey
Lucila Marquez, Tjin H. Koy, Cheryl R. Baker, Jeanine Graf, Elaine M. Whaley and Judith R. Campbell
- 117** Laterality of a short-term peripheral intravenous catheter does not affect complications or patient satisfaction: a subanalysis of the One Million Global Peripheral Intravenous Catheter Study
Rami Sommerstein, Lisa Kottanattu and Jonas Marschall
- 119** A Quality Control Circle Process to Reduce Blood Culture Contamination Rates
Yu-Zhong Yan, Huan-Zhang Yang, Jiang-Xia Zhao and Rong Xia
- 120** Surgical site infections and temperature in the operating theater—Challenges for infection control in developing countries
Dayanne Conislla Limaylla, Marina de Oliveira Silva, Marcela Cristina Machado Zanqueta and Carlos Magno Castelo Branco Fortaleza
- 122** The economics of managing tuberculosis in cancer patients in an oncology center in eastern India
Zoe Bennett, Raja Dhar, Kingshuk Dhar, Krishnendu Das, Anusha Harishankar, Sanjay Bhattacharya and Mammen Chandy

Infection Control & Hospital Epidemiology (ISSN 0899-823X) is published monthly by Cambridge University Press, One Liberty Plaza, New York, NY 10006, USA.

Editorial Office

Communications should be addressed to the Editor, *Infection Control & Hospital Epidemiology*, One Liberty Plaza, New York, NY 10006 (email: iche.managingeditor@cambridge.org). Contributors should consult the Instructions for Contributors, which is available at the journal's Web site.

Advertising

Please direct advertising inquiries to M. J. Mrvica Associates, 2 West Taunton Avenue, Berlin, NJ 08009 (e-mail: mjmrvica@mrvica.com; telephone: 856-768-9360, fax: 856-753-0064). Publication of an advertisement in *Infection Control & Hospital Epidemiology* does not imply endorsement of its claims by the Society for Healthcare Epidemiology of America, by the Editor, or by Cambridge University Press.

Permissions

Articles may be copied or otherwise reused without permission only to the extent permitted by Sections 107 and 108 of the US Copyright Law. Permission to copy articles for personal, internal, classroom, or library use may

be obtained from the Copyright Clearance Center (<http://www.copyright.com>, email: info@copyright.com). For all other uses, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale, please contact Cambridge University Press. Full details may be found at: www.cambridge.org/about-us/rights-permissions.

Subscriptions

The individual subscription rate for 2019 is \$273. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's CJO homepage: cambridge.org/ICHE.

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: subscriptions_newyork@cambridge.org (USA, Canada, and Mexico) or journals@cambridge.org (outside of USA, Canada, and Mexico).

Postmaster: Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

About the cover:

Since 2015, the cover format of each volume of *Infection Control and Hospital Epidemiology* has been changed to honor one of the many professionals throughout history who recognized not only how disease might be spread but also how those principles could be applied to reduce healthcare associated infections.

Rabbi Moshe ben Maimon or Moses Maimonides (son of Maimon) was born in Cordoba, Spain, a center of intellectual and religious freedom, on March 30, circa 1135. Maimon ben Joseph, his father, was a prominent scholar, writer, and judge for Jewish religious courts. Maimonides studied with Averroes, a prominent physician-philosopher. In 1148, his family left Cordoba after a repressive dynasty, the Almohades Caliphate that ruled in Spain and North Africa during the 12th and 13th centuries, required that they either convert to Islam, emigrate, or be put to death. They wandered first to Fez, Morocco, and to Acco, Palestine, before finally settling in Old Cairo (Fostat), Egypt, circa 1165. His father and brother established a business selling precious stones, but soon after, his father died and his brother David perished in a shipwreck. Maimonides turned to medicine as a means to support both families. While only in

his thirties, Maimonides was appointed as physician to the Court of the Sultan, and he served as head of the Jewish community in Cairo. During the Crusades, Maimonides' reputation as a healer was so great that King Richard the Lionhearted offered him a position as his personal physician.

Maimonides wrote many scholarly works on a variety of subjects ranging from biblical and Talmudic law to logic, science, and medicine. He embraced the use of careful scientific reasoning and eschewed mysticism. In his 10 books on medicine, Maimonides was an early advocate for the importance of hygiene, bathing, and the need for fresh air, clean water, a healthy diet, as well as proper disposal of refuse and placement of toilets far away from living quarters. Maimonides was an early "steward" who recommended nonpharmacological interventions first. He also noted where evidence was lacking and further investigation was needed before recommendations could be made. Many of the concerns and observations that Maimonides made more than 800 years ago remain highly relevant to the field of infection prevention and control today.

Maimonides died in Cairo on December 13, 1204 at the age of 69. Several legends are ascribed to Maimonides. It is unlikely that he wrote the Oath or Prayer of Maimonides. He is buried in Tiberias, Palestine, on the western shore of the Sea of Galilee in present-day Israel. However, this site was not chosen at random by a donkey that roamed free while bearing his body; Maimonides was interred at Tiberias at his request. Even today, Maimonides remains a highly regarded physician, philosopher, and scholar among Jewish, Arabic, and Christian circles.

Medicine

Books and Journals from
Cambridge University Press

The Cambridge Medicine programme focuses its book publishing in a defined set of core clinical areas with our great strength in the clinical brain sciences. Other specialties of significant focus include reproductive medicine/obstetrics and gynaecology, anaesthesia and critical care, emergency medicine and pathology.

Our journals programme covers a broad spectrum of medical disciplines including emergency and disaster medicine, epidemiology and infectious diseases, biomedical science, genetics, nutrition, mental health and psychiatry, and neuroscience.

We partner with many learned societies including The Society for Healthcare Epidemiology of America, and the Neuroscience Education Institute, and the Royal College of Obstetricians and Gynaecologists.
