

NOTES FOR CONTRIBUTORS

The *Journal of Biosocial Science* publishes original papers, short reports, reviews, lectures, and book reviews dealing with social aspects of human biology, including reproduction and its control, gerontology, ecology, genetics and applied psychology, with biological aspects of the social sciences, including sociology, social anthropology, education and criminology, with social and biological elements of nutrition, growth and development, health and epidemiology, and with biosocial aspects of demography. Preference is given to material which is clearly interdisciplinary.

Papers are considered for publication on the understanding that they have not been, nor will be, published elsewhere in whole or in part, and that, where customary, they have been approved for publication by the relevant Head of Department. The Editor is not responsible for any loss or damage to manuscripts or illustrations and his decision on all editorial matters is final. The Editor reserves the right to make minor literary emendations but manuscripts will not be substantially altered without consultation with the author. The author is responsible for the accuracy of quotations, tabular matter and references.

Manuscripts (original+one copy) should be sent to the Editor, *Journal of Biosocial Science*, Department of Biological Anthropology, Downing Street, Cambridge CB2 3DZ, UK. They should be written in English, using British spelling, except for quotations which should follow the original. Manuscripts should bear the title of the paper, name and address of the Institution where the work was done, the author's present address (if different), and a short running head (maximum 50 letters). Titles should be brief. A short summary should precede the text. Acknowledgements should be made in a separate section. Footnotes are not accepted. For papers on infant feeding, the use of Labbok & Krasovek's definitions of infant/breast-feeding groups is recommended (*Stud. Fam. Plann.* (1990) 21, 226).

Tables should be typed on separate sheets, be given Arabic numbers and adequate captions. They should not exceed in size the equivalent of one printed page. Their approximate position in the text should be indicated.

Text-figures. Good quality camera-ready originals should be supplied. Captions should be listed on a separate sheet.

References in the text should be given by author(s)' name(s) and date. An alphabetical list at the end of the main text, should include, in order: author(s)' name(s), initials, year in parentheses, article title, journal name abbreviated in accordance with the World List of Scientific Periodicals (4th Edn), volume number, first and last page numbers. For books and conference proceedings, Editor(s)' name(s), publisher, and place of publication should be included. Unpublished papers should not be cited, unless in press.

Debate. A section is reserved for publishing comments (maximum 500 words) on papers appearing in previous issues. Authors whose papers are involved will be given an opportunity for simultaneous response.

Proofs will be sent to contributors for minor corrections and should be returned to the Editor within 3 days of receipt. Major alterations to the text will be accepted only at the author's expense.

Offprints. 50 offprints of each article will be supplied free to the first named author. Extra offprints may be purchased by ordering on the form sent out with the proofs.
