THE BRITISH ACADEMY

CROMER GREEK PRIZE

WITH the view of maintaining and encouraging the study of Greek, particularly among the young, in the national interest, the late Lord Cromer founded a Prize, to be administered by the British Academy, for the best Essay on any subject connected with the language, history, art, literature, or philosophy of Ancient Greece.

The Prize, which is ordinarily a sum of £150, is awarded every second year in May, under the following Rules:—

1. Competition is open to all British subjects and subjects of Eire of either sex who will be under thirty-five years of age on 31 December preceding the award.

2. Any such person desirous of competing must send in to the Secretary of the British Academy on or before 1 June of the year preceding the award the title of the subject proposed by him or her. The Academy may approve (with or without modification) or disapprove the subject; their decision will be intimated to the competitor as soon as possible.

3. Preference will be given, in approval of subjects proposed, to those which deal with aspects of the Greek genius and civilization of large and permanent significance over those which are of a minute or highly technical character.

4. Any Essay which has already received or is in competition for another prize of the same nature will be inadmissible. A candidate to whom the Prize has been awarded will not be eligible to compete for it again. But an Essay which has not received the Prize may be submitted again (with or without alteration) in a future year so long as the writer remains eligible under Rule 1.

5. Essays of which the subject has been approved must be sent in to the Secretary of the Academy on or before 31 December. They must be typed or printed and should have a note attached stating the main sources of information used.

6. It is recommended that the Essays should not exceed 20,000 words, exclusive of notes. Notes should not run to an excessive length.

Communications should be addressed to 'The Secretary of the British Academy, Burlington Gardens, London, W.1'.

The next award will be in 1959.

The Social and Economic History of the Roman Empire

M. ROSTOVITZ

Second edition revised by P. M. FRASER

'... the public demand for his *magnum opus* has always extended far beyond the circle of classical historians. The panoramic, synoptic sweep of the book, its dynamic rather than antiquarian approach, the terse, lucid, quietly passionate prose in which it was couched—these ensured for it a wider audience than perhaps its author originally envisaged.' History of Greece

N. G. L. HAMMOND

Greek history has extraordinary vitality, being constantly enriched by discoveries in art, archaeology, and letters; this book gives the general reader and the scholar alike a modern interpretation of Greek ideas, culture, and actions.

Textual Criticism

P. MAAS

There is no serious work in English on the principles of textual criticism. Professor Maas's book, translated from the German, was written with the literatures of ancient Greece and Rome mainly in mind, but some essential principles of the subject apply equally to other literatures, especially to Shakespeare. THE ECONOMICS OF ANCIENT GREECE

by *H. Michell*

Second edition corrected with new Appendices
and a supplementary Bibliography. 8vo., 427 pp., cloth £2 5s. net.

'... The book contains a very full account of the nature and extent of agriculture and animal husbandry, of mining and of industry; and Professor Michell shows with great clearness and detail the sort of life the Greek must have lived. The care with which the evidence has been gathered, and the scrupulous recording of ancient and modern sources make the book extremely valuable for reference on any aspect of the agricultural and industrial activities of the Greeks.'

CAMBRIDGE EPIGRAPHICAL COLLECTION

The attention of members is drawn to the collection of squeezes of Greek inscriptions in the Museum of Classical Archaeology at Cambridge.

This collection already contains about 2,000 squeezes. These are drawn mainly from Attica and Asia Minor; but additions are constantly being made from all parts of the Greek world.

Members of the Society who may wish to consult this collection are cordially invited to do so; and in special cases arrangements can be made for sending out a small number of squeezes on loan by post. The Museum authorities would also receive most gratefully any squeezes in private possession which their owners might wish to make available for general use.

Enquiries should be addressed to

THE LIBRARIAN, MUSEUM OF CLASSICAL ARCHAEOLOGY
LITTLE ST. MARY'S LANE, CAMBRIDGE

SUPPLEMENTUM EPIGRAPHICUM GRAECUM

S.E.G. is published annually as a review of Greek Epigraphy. As far as possible, it gives references to work done during each year on or relating to Greek inscriptions, and reprints new or emended texts. This is a service which, it is hoped, will be of value not only to epigraphic specialists but also to classical scholars in general.

To assist him in making the annual *Supplementum* as complete as possible, the editor would be grateful if scholars who publish studies on Greek Epigraphy, or substantially using epigraphic material, would send him a notice (or if possible a reprint) of their work. Their co-operation in this way would be greatly appreciated.
